5. (b)(1)(B)(iii) and inserting the following
6. immediately before it:
7. “(ii) the application does not involve a claim of
8. ineffective assistance of counsel in a death penalty
9. case; or”
10. **SECTION 2.** Congress finds—
11. (a) state court processes are more than enough for a
12. death penalty convict to prove their attorney was
13. ineffective;
14. (b) a claim that an attorney was ineffective is an
15. excessively subjective one not worthy of federal court
- time; and
- (c) ineffective assistance of counsel claims are
- frequently used simply to delay death penalty
- administration and should not be endorsed.

SECTION 3. The contents of this bill shall be effective immediately.

A Resolution to Create a Sovereign Wealth Fund

WHEREAS, the United States requires massive investment in the preservation and construction of critical infrastructure,

WHEREAS, these projects are too important to the wider populace to be entrusted to major corporations,

WHEREAS, local and regional governments are often incapable of supporting the financial burden these projects entail,

BE IT RESOLVED, the United States Federal Government shall create a Sovereign Wealth Fund for the purpose of allocating funds on a multiannual basis to critical infrastructure projects.

A Resolution for the Redistribution of Economic Opportunity to Underprivileged Areas of the United States

WHEREAS, post-2008 economic growth has disproportionately favored the United States' existing economic hubs,

WHEREAS, many urban areas have been rendered unaffordable for much of the population due to skyrocketing rent and mortgage rates resulting from high demand created by upper-class professionals seeking careers at major employers, culminating in appalling rates of gentrification;

WHEREAS, the concentration of wealth and opportunity in urban areas has left the inhabitants of rural areas with few meaningful opportunities for social advancement within their communities, leading to further reliance on a few major agricultural, mining, or manufacturing employers, who are further enabled by the absence of competition to exploit their employees and reduce their standard of living even further;

WHEREAS, the dissolution of America's industrial sector has resulted in mass unemployment in former industrial centers, fueling resentment of traditionally dominant cities that survived the transition into the service economy, and contributing to a massively lethal opioid epidemic;

BE IT RESOLVED, that the United States Federal Government shall enact tax, budgetary and economic policy to disincentivize further corporate consolidation in existing economic centers and incentivize further growth in other regions that have not enjoyed post-recession prosperity.

This Resolution Introduced by Cleveland High School

A Resolution on the Status of Social Media Corporations as Public Forums

WHEREAS, by virtue of their sheer size, social media platforms such as Facebook, Instagram, Twitter and Snapchat have become de facto public forums critical to the public discourse of the United States,

WHEREAS, by right of ownership over those platforms, a few large corporations have been placed in positions of great power to shape the public discourse,

WHEREAS, it is fundamentally anti-democratic that any corporation should be allowed to hold such immense power over the public discourse,

BE IT RESOLVED, the United States Federal Government shall consider any social media platform which serves at least 10% of the US population a public forum, and the controlling corporation shall have reduced powers to control discourse on their platform, except for the purpose of punishing defamatory or libelous speech as clearly defined by US law.

A Resolution to No Longer Recognize Thanksgiving as a National Holiday

Whereas, Thanksgiving has a contentious history that goes far beyond when the feast was first held. The holiday is viewed by many to be a celebration of the conquest of Native Americans by colonists or an embellished narrative of “Pilgrims and Natives looking past their differences”, a whitewashed version of American History; be it

Whereas, This house believes that the aforementioned is problematic because it shows an inaccurate picture of the United States’ history. The true history of the United States of America is plagued with genocide and racial violence. This house believes that this demands to be acknowledged

Whereas, This impacts the population because as a result they are celebrating and Promoting unethical values. This House declares that this further results in falsely and wrongly brought about feelings of nationalism and national pride; be it

Resolved, Thanksgiving, celebrated on the second Thursday of November, is no longer recognized as a national holiday, and, be it

Further Resolved, Unthanksgiving is now a nationally recognized holiday. This house affirms that this holiday holds new values the reconcile with the United States’ bigoted and prejudiced past. Unthanksgiving falls on the second Thursday of November and stands for equality and the un-thankfulness of genocide.

A Resolution That Provides Assistance to Vietnam with the Aftermath of Agent Orange/Bioxine

Whereas, United States assistance to Vietnam for the environmental and health damage attributed to a dioxin contained in Agent Orange and other herbicides sprayed over much of the southern portion of the country during the Vietnam War remains a major bilateral issue; and

Whereas, Most of the appropriated funds have been used by USAID for the environmental cleanup of Danang airport, one of the major air bases used for storing and spraying the herbicides between 1961 and 1971. A lesser amount of the appropriated funds have been used by USAID for assistance to Vietnam's persons with disabilities, generally, but not always in the vicinity of Danang or other dioxin-contaminated areas; and,

Whereas, Dioxin is a highly persistent chemical compound that lasts for many years in the environment is universally known to be a carcinogen and is highly toxic for wildlife and humans. Exposure to Bioxsine has numerous long term and short term effects. dioxin is linked to type 2 diabetes, immune system dysfunction, nerve disorders, muscular dysfunction, hormone disruption, and heart disease. Developing fetuses are particularly sensitive to dioxin, which is also linked to miscarriages, spina bifida and other problems with fetal brain and nervous system development. All of these impacts are under-compensated by the United States Federal Government; therefore, be it

Whereas, By this congress, that: The United States offers significant economic assistance For both the environment and health damages attributed to Bioxsine.

A Bill to Eliminate Party Affiliations on Ballots

Whereas, The United States Federal Government should not show the political alliance (i.e. party affiliations, etc.) of political candidates on voter ballots.

Whereas, This House believes that without the convenient labels and stereotypes to rely on, voters will assess their ballots without bias.

Whereas, This House acknowledges that Politicians can always lie about their ideas and policy positions. Specialists believe that this pattern of deception is enabled by a style of media coverage that focuses more on “partisan division” and strategy (and fundraising and name-calling) than on what the candidates actually want to do once in office.

Whereas, This House’s intentions are to make voters focus more on the policy presented by candidates.

Whereas, Elections are deemed to be a contest of ideas, not political identification. This House believes removing labels on ballots, candidates will be forced to appeal more to common sense and problem-solving than tribal prejudice and partisan attacks.

Whereas, Individual voters still have the power to reject binary thinking.

Whereas, This house approves that this resolution is the essence of democratic accountability.

A Bill to Privatize Public Roads

Be It Enacted By The Congress Here Assembled That:

Section 1 Auction all nationally owned transportation infrastructure.

Section 2 Nationally owned transportation infrastructure are defined as all roadway infrastructure owned by the Federal Highway Administration, National Park Service, National Forest Service, and U.S. Corps of Engineers, including but not limited to interstate highways.

Section 3 The Federal Highway Transportation Administration will oversee the sale of each piece of infrastructure (divided along existing lines, i.e. bids can be placed on I-5 but not *all* federal roadways as a collective) to the highest bidder. All non-governmental institutions and private citizens may place bids. Governmental institutions are barred from bidding

Section 4 Auctioning will begin effective immediately. Bidding will be open until 12 a.m. PST, December 8. Infrastructure that is not purchased will be completely abandoned and declared property of the U.S. Department of Defense

Section 5 All treaties, laws, and policies in conflict with this bill are declared null and void.

Introduced for Congressional Debate by Jonah Paterson, Southridge High School.

A Bill to Imperialize Space

Be It Enacted By The Congress Here Assembled That:

Section 1

Revive Ronald Reagan's Strategic Defense Initiative (SDI), the new policy will be known as Strategic Defense Initiative 2: E.L.E.C.T.R.I.C.B.O.O.G.A.L.O.O (Earth Laser, ELECTric, Thermonuclear, and Realized systems of Imperial ComBat in Order to Organize the GALaxy beyond the OOrt cloud) via the nationalization of aeronautics and space industry businesses. Additionally, incorporate NASA into the Department of Defense with the intent to promote initiatives that imperialize space.

a) The goals of the SDI2ELECTRICBOOGALOO initiative will be to realize the full potential of the United States. The United States has always historically been at its best while imperializing other nations. Unfortunately, the rise of moral standards in geopolitics and neoliberal institutions like the IMF and WTO have effectively stopped the United States from realizing its highest potential. This policy imperializes space in order to make America great again.

Section 2 Aeronautics and space industry businesses are defined as businesses in which over 40% of all funds or investments spent are put into projects and/or programs of or relating to

- a) Aeronautical defense contracting
- b) Private or public airline manufacturing
- c) Commercial or private space launch organizers
- d) Commercial or private rocket or space technology manufacturers
- e) Manufacturers of aeronautical components or technology

Section 3 The United States Department of Defense (henceforth referred to as the United States Department of Imperialism) will be responsible for the purchase, nationalization, and management of the aeronautical industries. Furthermore the Department of Imperialism will be responsible for all SDI2ELECTRICBOOGALOO policies and operations.

Section 4SDI2ELECTRICBOOGALOO takes effect immediately. The DoI will have full timeline and policy control.

Section 5 All treaties, laws, and policies in conflict with this bill are declared null and void.

Introduced for Congressional Debate by Jonah Paterson, Southridge High School.

A Bill To End Bigotry

Be It Enacted By The Congress Here Assembled That:

Section 1

Racism, sexism, and transphobia are hereby declared as 'not cool' by the Federal Government. Anyone who is recognised as being a racist, sexist, or transphobe is also declared as being 'not cool'.

a) The intention of this declaration is to show people who are racists, sexists, and transphobes who believe that being a bigot is cool, that it is indeed 'not cool', and will end their bigoted operation.

Section 2 Racism, sexism and transphobia are defined as 'not cool'.

Section 3 The United States Department of Bigotry will be created to oversee the declaration of such people.

Section 4 On April 20th, 2020, the declaration will be carried out by the Department of Bigotry Founded April 19th 2020. The announcement will be made over national television by the president of the United States, Donald Trump.

Everything in conflict with this bill will be considered null and void.

Introduced for Congressional Debate by Valen Williams, Southridge High School.

A bill to regulate gun violence

Be It Enacted By The Congress Here Assembled That:

Section 1 New amendment: All firearms being manufactured for personal and commercial use, including the US government's distribution sale and use of firearms will now be hot pink. All privately owned firearms need to be converted into the color of hot pink. Methods of coloring will be provided in the government for free. Budgeting for hot pink paint will come from military overflow.

a) Commercial and government entities won't be subjected to coloring weapons pink.

b) The intention of this implementation will be to discourage firearm use in the hands of people who are biased against colors that they believe to be seen as 'feminine'

Section 2 Firearms are defined as any device that is able to fire a bullet at high speeds of 1500 mph or higher.

Section 3 The military overflow is the result of the government over-taxing for military purposes and is essentially useless money that is being used for nothing.

Section 4 The enforcement of this bill will be carried out by local police. They will be responsible for the purchase, manufacturing and distribution of the hot pink paint.

Section 5 The start of implementation will begin on April 20th 2021. Paint will be distributed to police stations on this day.

Section 6 Everything in conflict with this bill will be considered null and void.

Introduced for Congressional Debate by Valen Willams, Southridge High School.

A Bill To Support Tesla

Be It Enacted By The Congress Here Assembled That:

Section 1

Given that Tesla Motor Company is the first successful U.S. car startup company in recent memory, the United States Federal Government needs to take every measure to protect it. On top of this, the increasing threat that global warming poses will force the United States' armed forces to take drastic action in reducing emissions as it is the nation's foremost consumer of fossil fuels. With this in mind, the United States' armed forces must take a novel approach: replacement of all light infantry transport and support vehicles with variants of Elon Musk's Tesla Motors Cybertruck.

Light infantry transport and support vehicles are defined as lightly armed and
