

JUDGING:

One judge must be provided for one or two Policy teams. Two judges are required for three or four Policy entries. A half-time judge will be obligated to judge 4 rounds. LD and Public forum will require one judge for every three teams, or fraction thereof. Legislative Debate will need one judge for every six entries or fraction thereof. Speech Events will require one judge for every five entries or fraction thereof. World Schools will follow the same formula as Policy Debate.

JUDGES are obligated one round past the elimination of their students. Judges are also obligated one round past the elimination of their team and thru the first **full** elimination round.

We will have a **limited** number of judges available for hire at \$150 for Policy, LD and Public Forum. They can also be hired by the round on Tabroom. Hired judges for other divisions are the cost showing in Tabroom. Also, I have to approve judge hires.

If a judge fails to pick up their ballot at the tournament. There will be a \$50 per judge per prelim round missed and \$100 for elimination rounds.

All judges must have a tabroom.com account and be able to enter an electronic ballot while at the tournament.

Debate judges must also have a paradigm on Tabroom.com by September 25, 2020. This date critical in order to allow the Tabulation Staff to open Prefs in a timely manner.
