DUET ACTING

IMPROVISATIONAL DUO

RECORDING TIPS

For 2020-2021, KHSSL does not want Duo events to record in the same room or space, even if the members of the team live in the same household, for obvious safety reasons as well as to ensure that all teams face a level playing field.

Thus, we ask that you record performances in Zoom, which allows recording of split-screen conversations.

We understand that some school districts have blocked Zoom due to spammers in the software, hatred of words that start with Z, etc.

In this case, KHSSL encourages team events to utilize Google Meet. This software will allow you to meet live in split screen but not record that way. Thus, you must take an extra step, download the free software Screencastify, and use it to record your Google Meet. Coaches, just ask your kids to help you if needed. Odds are they got it, no problemo, although many of you are also now virtual learning experts, like it or not!

Allow yourself plenty of time to record (and time ahead of the deadline) so you have time to get stuck and fix it. May the words be with you.

Note: Debate is not addressed here as it is assumed team debate events will always be live. Houseflies present in the debate are optional.
