MEMORANDUM FOR: Members of the United States Congress

SUBJECT: **Iran Plans an Imminent Attack**

US intelligence sources have confirmed that the IRG will publicly announce that they have evidence that the agent in the IAEA team is from Israel supported by the United States. This assertion is being used as a pretext for some form of action against the United States or Israel. The announcement is imminent. The form of action cannot be determined at this time. The assessment of the completion of an operational nuclear weapon is inconclusive.

The United States has urged Saudi Arabia to publicly announce their involvement so as not to escalate this situation to involved Israel and the United States.

Israel continues to remain silent on all fronts.

Congress needs to take immediate and divisive action.
