

CONNECTING TO BHS GUEST WIFI

Here are the instructions guests will need to connect to the WiFi for the Speech and Debate Tournament this weekend:

- Have the guest select the "BCSD Guest" network with their wireless device
- The guest should click on the link next to "Need an account Click here" on the bottom of the page
- Guests register a new account using their name and email address. On that page there will be a 4 digit pin code for the guest to use
- The guest will then be directed to a login page where they will log in using their email address and the pin code (pin code is also on the log in page)
