A Bill to Create a Universal DNA Database

BE IT ENACTED BY THE CONGRESS HERE ASSEMBLED THAT:

SECTION 1. The United States will expand their current DNA database, CODIS, to create a universal DNA database with all individuals, not just those convicted of qualifying offenses. After the creation of the DNA profile, the sample must be destroyed immediately. 5 billion dollars shall be allocated towards the initial cost of creating and running this project

SECTION 2. Definitions include the following:

- A. "Universal DNA Database" refers to a databank with the majority of the American public's DNA profile, available to law enforcement.
- B. "DNA Samples" refers to a blood or swab specimen from a person, as prescribed by administrative regulation for identification purposes.
- C. "DNA Profiles" refers to the set of values of a group of genetic markers identified in an individual's DNA.

SECTION 3. The Federal Bureau of Investigation will be the main group to oversee the implementation and execution of this legislation.

- A. A warrant shall be required to access anyone's information in the database.
- B. DNA Samples will be obtained from newborns through hospitals that are submitted to the FBI. In regard to the rest of the population, all States must implement DNA sample collection protocols for their citizens in order to access the CODIS.

SECTION 4. This legislation will come into effect on January 1, 2023.

SECTION 5. All laws in conflict with this legislation are hereby declared null and void.
