COMMENTS & REASON FOR DECISION:

NEG

- Environment hurts economy
 cost to Africa 4%
 India 5% of GDP
- only short term profit
 does not help people
 hurts enviro even more
- 1% deaths
 from air pollution

link, these debateration - & one
 extinction increased rate
 species vanish from habitats as

1:20 used 1:18
 1:45 used 1:45 used

AFF long term
 benefit for more

- less competitive traffic bad
 bigger roads
 public transport
- highest in the world
 air pollution = these diseases
 that encourages diesel
- only 31%
 low good health
 reduce disease by 40%
- several under pov. the
 6% and people in slums
- overpopulation

corrupt does not help infrastructure
 link
 c. apply not good for biodiversity
 poor

reason for decision:
verbal
 but in general the neg presented evidence that never showed how specifically an environmental prescription of action would link to solvency for the issues they gave.
 The Aff however did.

Great Job to both teams

COMMENTS & REASON FOR DECISION:

Verbal, ALSO.

I really wanted to vote Neg, I really did.

The problem was IMPACTS.

NEG: You logically battered them and had a strong showing in CX. However, the problem was you never addressed the issue that the pulled 40 million people over the poverty line. You also never quantified effects of resource conflicts.

AFF! The reason I voted for you was because you impacted out poverty, and women's jobs. I thought you could improve on making more quantitative claims (tech, etc.) but I voted on your final focus.

COMMENTS & REASON FOR DECISION:

Pos over env.
 1) Environ must be improved before env
 - 6.2 mil ppl who health care
 - work at education food
 - 1.25 million kids poor
 2) Economic growth helps poor.
 - China as example
 - GDP in India could increase 7%
 - Indians die due to poverty
 - 20% better living standards
 - 16 HR expectancy in India

3) Fossil fuel free
 - Transition to electric
 - Pollution bad for health
 - Energy efficiency

Neg: Long-term benefits, sustained + econ change
 1) Environ dev.
 - 50 billion cost to India
 - India's industry as food
 - Env damage permanent
 2) Urgent Env. problems
 - electronic disposal
 - air pollution (last ranking) 116K deaths/yr
 - V capacity to produce
 3) Benefits skewed
 - insufficient employment opportunities for poor
 - Rich spent 10x that of poor
 - Indian development not equal
 - 42% live off less \$1/day
 - pre-reg, SIC tanks
 - econ growth vital (500M out poverty)
 - Wealth disparity
