COMMENTS & REASON FOR DECISION: Topic: USFG should adopt a Finnish collaborative model for Education

AFF: Finland 90s 40 yrs

Plan: Raise teacher salaries, teacher autonomy, & standardized education

DOE → states

Install cost 200 billion from Budget → \$1000/yr total DOE budget everything else gone

1) local autonomy

↳ Squo is special interest (state, fed, private interests)

↳ prioratise local control → better classroom

2) Teach for Understanding

Squo → teach to test

↳ effect → teach to understanding better education

3) Changing Competitiveness

↳ competition

↳ Collaboration

↳ better society

Success is the goal

can happen in US despite diversity

higher salaries & higher standing

poor schools for teachers

PAR parents standards

For US, not good teacher in US

IP not difficult to materialize matters of Common Core is better

SPT has changed in squo

96 out even inequality in US, not in Finland plan cannot make disparity

not part of plan / Finnish model

add to budget

moving target

from 5000 to 10000 of deficit spends

not part of plan / Finnish model

perform pay part of Finnish edu system

not part of plan / Finnish model

COMMENTS & REASON FOR DECISION:

- USFG should remove all economic sanctions on Iran*
- Neg*
- last speech should be weighing*
 - flushout impacts!*
 - You guys need to take questions*
 - There is not an explanation to why CP is better than plan or plan + CP. You need a PT or avoid an AD.* *voted here.*
 - You need to structure your points (uniqueness, links, etc)*
 - You dropped their last 2 points...* *voted here.*
 - Clarify difference between nuclear energy program + nuclear weapons program. and not in your last speech.* *voted here.*
- AFF*
- You need more analysis on why a US is a pioneer country,*
 - You need to flushout impact scenario! AFPS... really...*
 - Your 3rd point is really weak, you need to do more within this/ didn't need to run.*
 - Also you should have called point of order on clarification between nuclear energy + nuclear weapons in last speech*

COMMENTS & REASON FOR DECISION:

In the end I weigh the benefits of an ~~improved~~ improved quality of life for Iranian citizens and an improvement of their pharma industry against the CP, which can be permed. The Neg's disads are well-defended by the Aff and I believe they did enough to defend the Israeli backlash disad. I don't think the neg did enough work to link ~~that~~ the fact that potential sanctions don't serve as enough of a deterrent. Especially considering Iran ramped up nuclear production to its highest levels AFTER sanctions were ~~implemented~~ implemented.
