

US TOPICS - Select one topic ON CAMERA and prep for no more than 30 minutes.

1. How will the ongoing debates in Congress over military aid to Ukraine shape U.S. foreign policy and alliances?
2. Should the U.S. reinstate aggressive climate policies as fears rise about the incoming administration's climate skepticism?
3. Does the integration of AI in science communication improve public understanding enough to justify its widespread use?
4. Should the U.S. continue restricting investments in China, or could such measures harm global economic stability?
5. Should the federal government adopt stricter fiscal policies, such as mandating balanced budgets, to address the growing national debt?
6. Should there be term limits for Supreme Court Justices?
7. How crucial is thorough vetting of presidential administration appointees for public trust in governance?
8. Is it more effective to focus on individual behavioral changes or systemic reforms to combat climate change?
