12 subject to federal aviation rules operated synchronously or asynchronously, manually or in an
13 automated fashion, with or without lights.

14 “Drone” means an aircraft that is operated without the possibility of direct human
15 intervention from within or on the aircraft, as defined by the Federal Aviation Administration.

16 **Section 4.** The Federal Aviation Administration will oversee enforcement as well as promulgate
17 any rules needed to enforce this act

18 **Section 5.** All laws in conflict with this legislation are hereby declared null and void.
