

Revolutionary Rhetoric 2026 Legislation, Committee and Party Assignments

It's almost time for this year's Revolutionary Rhetoric Tournament-and we're excited to welcome you all to Colonial Williamsburg! Please find included in this document the following information:

- *Link to all legislation, Sorted by Committee*
- *Link Competition Brief*
- *Committee Assignments*
- *Party Assignments (Reformers and Traditionalists)*

As a reminder, competitors will begin the tournament in their assigned committees for a scored first round. As stated in the previously shared Competition Brief, committee and party assignments are unrelated to the subject matter of the legislation written by competitors. All competitors should note their party and committee assignments before preparing for our event, as one's party assignment may require a competitor to offer amendment (s) to legislation to benefit their party or promote bipartisanship-even if this means changing their own original legislation. For this reason, it is encouraged-but not required-that competitors fully prepare for the bills in their assigned committee before preparing for legislation outside of their committees. As in year's past, successfully adopted amendments will be factored into the ranking of competitors in the opening round and have implications for whether a competitor advances to Sunday's final round. Please refer to the Competition Brief for ideas on further research and for a refresher on committee docket order!
