

# TOURNAMENT OF THANKFULNESS

River Valley Speech and Debate League

## Tabroom & Internet Access

Tournament of Thankfulness • Dardanelle High School

### Using Tabroom

We will use Tabroom.com as the tabulation software for this tournament.

Judges do NOT need a linked Tabroom account in order to judge. Many of our judges will use paper ballots instead.

### Paper Ballots & Reliability

Campus internet is often spotty and can go out entirely. Paper ballots will be available for all rounds so competition can continue even when connectivity is limited.

At a recent tournament, most of the event operated without campus internet access.

### Important Access Information

- There is no public Wi-Fi available on campus.
- There is no public computer access available on campus.
- Bring your own device and mobile hotspot if internet access is needed.
- Cellular reception may also be limited in parts of the campus. Plan ahead. Stay prepared. Keep competing.
- Paper ballots will be available for all rounds.

### Physical Tabroom & Open Tab Area

The physical Tabroom is open to judges and coaches who need to check round results, verify ballots, or ask tournament-related questions.

After each round, an open tab area will be available where ballots may be inspected and results double-checked for accuracy and transparency.

### In Short

Tabroom.com will be used, but this tournament is not dependent on constant internet access.

Paper ballots and in-person tabulation procedures will be available throughout the event.
