A BILL TO BAN SOLITARY CONFINEMENT FOR JUVENILE OFFENDERS TO PREVENT LONG-LASTING DEVELOPMENTAL HARM

ENACTED BY THE STUDENT CONGRESS HERE ASSEMBLED THAT:

Article I: With this new policy in place, placing juvenile offenders in solitary confinement during their sentence will be illegal across all fifty states in the United States of America, in both federal and state facilities.

Article II: For the purposes of this legislation:

a. "Juvenile offender" refers to a person who has not yet reached 18 years of age and is currently serving a sentence at a juvenile detention center or juvenile prison for breaking a local, state, or federal law.
b. "Solitary Confinement" refers to a form of imprisonment in which a person is kept in a single cell/room for 22 to 24 hours a day with little or no human contact.
c. A juvenile detention center is a short-term holding facility for minors awaiting a court hearing, while a juvenile prison is a long-term holding facility for minors who have already been convicted and sentenced.

Article III: Implemented by 01/01/28

Article IV: The Department of Justice (DOJ), specifically the Office of Juvenile Justice and Delinquency Prevention (OJJDP) branch, will oversee this legislation.

A. While the federal government cannot directly pass a law regulating the actions of state-run facilities, the OJJDP will oversee state compliance by withholding federal funds from any states continuing to use solitary confinement as a holding method while failing to provide regular reports of behavior.

B. Violators will not be provided grants for support from the federal government, and the facility will be forced into a legally binding consent decree. This often results in the state shutting down the facility due to high costs and liabilities.

Article V: All other laws in conflict with this new policy shall hereby be declared null and void.

Respectfully submitted,
