Comments & Reason for Decision: 2 contentions were conceded and inherency arguments by AFF of recency, Author bias, etc were conceded too.

* You read the same wrong 13 card twice

IAC - Sometimes you lose your place and repeat yourself, skip words, or substitute a word for another word. You don't do it a lot, but watch out for that.

CX of IAC - don't end cx 2 minutes early, that's 2 minutes less time to prep for your partner. Ask why the surveillance policies of other countries don't affect India if you're going to make Alt cause claims or say India doesn't model just US policy. Ask why India and Pakistan would do something that results in both of them being nuked if you're going to read "no war" cards.

* INC - You should read offense arguments like politics or terror DA instead of only reading case stuff. Also, make sure to read the cite (Author last name and year) after the tag. The speaking was clear, which is good. You need offensive arguments. The INC concedes the internet freedom contention and the most you can win from the rest of the INC is that there's a chance India won't be attacked, or there won't be a war. That means I can vote on IF alone.
