

100% Granular Diatomite Absorbent

SOLID-A-SORB®

The Environmental Solution

Industrial

Janitorial

Oil and Gas

Food Service

- ◆ **Made from a special grade of fresh-water DE, a naturally occurring mineral, with superior absorptive ability**
- ◆ **Absorbs liquid internally, like a sponge, allowing quick cleanup of water, oil, grease, water coolant, and much more**
- ◆ **Low density and high pore space allow more absorbency at a lighter weight**
- ◆ **Can use less product = less disposal of use material/cheaper costs**
- ◆ **Superior for janitorial use – absorbs all liquid including bodily fluids**
- ◆ **Ideal for high viscosity liquids, bioremediation, and waste solidification**
- ◆ **Smaller particles allow product to be more concentrated, allowing quicker absorption**
- ◆ **100% Natural Mineral**
- ◆ **NSF Registered**

**Off White Fine
Coarse Granulation**

SOLID-A-SORB® is perfect for a variety of applications...

- ◆ **Custodial Services:** office buildings, homes, public facilities, schools, hospitals
- ◆ **Convenience Stores**
- ◆ **Chemical Laboratories, Factories, Research & Development Labs**
- ◆ **Automotive Retailers, Dealers, Repair Garages, Body Shops**
- ◆ **Food and Beverage:** restaurants, processing, distribution
- ◆ **Home:** concrete driveways, garage floors, bottom of garbage can to absorb moisture, paint spills

Part #	Weight	Bag Type	Pallet Configuration	Plant
9725	25 lb	Poly	Bags per Pallet: 80 Pallet Size: 40 x 48" Pallet Height: 72"	Fernley
SF75	25 lb	Poly	Bags per Pallet: 80 Pallet Size: 40 x 48" Pallet Height: 72"	Clark
8878	2000 lb	Bulk	Bags per Pallet: 1	Fernley
SF75-1000	1000 lb	Bulk	Bags per Pallet: 2	Clark

What is Diatomaceous Earth?

Mined in the western region of the US, diatomaceous earth (DE) consists of microscopic skeletal remains of unicellular plants (diatoms), deposited on lake beds & ocean floors, formed millions of years ago. Similar to a sponge, DE absorbs liquid internally through small pores. This unique mineral is thermally processed to make a broad range of powdered filter aids, functional additives, and granular absorbents.
