

**Automotive**

**Industrial**

**Janitorial**

**Farm/Ranch**

**Oil and Gas**

**100% Granular Diatomite Absorbent**

# **OptiSorb<sup>®</sup>**

## **OIL ABSORBENT**

- ◆ **Made from a special grade of fresh-water DE, a naturally occurring mineral, with superior absorptive ability**
- ◆ **Absorbs liquid internally, like a sponge, allowing quick cleanup of water, oil, grease, water coolant, and much more**
- ◆ **Low density and high pore space allow more absorbency at a lighter weight**
- ◆ **Can use less product = less disposal of use material/ cheaper costs**
- ◆ **Industrial grade absorbent designed for quick cleanup of water, oil, and grease**
- ◆ **Large particles quickly and easily soak up messy spills**
- ◆ **Enhances safety**
- ◆ **100% Natural Mineral**
- ◆ **NSF Registered**

**Ep Minerals<sup>®</sup>**

**Off White Large  
Coarse Granulation**

## OPTISORB® is perfect for a variety of applications...

- ◆ **Industrial Warehouses and Manufacturing Plants**
- ◆ **Farmhouse: livestock facilities, tractor fluid spills, shop operations**
- ◆ **Custodial Services: office buildings, homes, public facilities, schools, hospitals**

| Part #  | Weight  | Bag Type | Pallet Configuration                                               | Plant   |
|---------|---------|----------|--------------------------------------------------------------------|---------|
| 8926-45 | 25 lb   | Paper    | Bags per Pallet: 45<br>Pallet Size: 40 x 48"<br>Pallet Height: 48" | Fernley |
| 8925-80 | 25 lb   | Poly     | Bags per Pallet: 80<br>Pallet Size: 40 x 48"<br>Pallet Height: 72" | Fernley |
| 8900    | 2000 lb | Bulk     | Bags per Pallet: 1                                                 | Fernley |

### What is Diatomaceous Earth?

Mined in the western region of the US, diatomaceous earth (DE) consists of microscopic skeletal remains of unicellular plants (diatoms), deposited on lake beds & ocean floors, formed millions of years ago. Similar to a sponge, DE absorbs liquid internally through small pores. This unique mineral is thermally processed to make a broad range of powdered filter aids, functional additives, and granular absorbents.
