

2S25 Bulk Bag Change

October 2017

Dear Customer:

In efforts to continuously seek improvement throughout our organization, we are happy to inform you of a change that is taking place to our 2S25 bulk bags. You will notice a band around the bottom of the bag. This band will help to improve the ability to load the bag into trucks and there will be less overhang on pallets (which means less chance of a bag getting torn during loading/unloading). Please see the pictures below for reference. We care about the quality and packaging of our products and feel this improvement will make our bulk bag offering even better.

Current 2S25 bag (42 x 42 x 45 inches)

Banded 2S25 bag (41 x 41 x 47 inches)

Feel free to reach out to me if you have any questions or concerns.

Sincerely,

Amy N. Weaver
Product Manager
