## Bias fx full

За последние несколько лет ряд мощных программ цифровой гитары и мобильных приложений изменили способ игры и записи миллионов гитаристов. Хотя большинство из этих приложений являются вариациями по одной и той же теме, мы почувствовали, что мир гитары нуждается в чем-то новом. Over the past few years, a number of high-power digital guitar programs and mobile apps have changed the way millions of guitarists play and record. While most of these apps are variations on the same theme, we felt that the guitar world needed something new. The result is BIAS FX, designed from the ground up with a unique focus on sound quality and the highest flexibility. It is equipped with all the latest and greatest algorithms from our extensive research into audio signal processing, providing much detailed and authentic emulations of analog pedals, studio gears and tube amplifiers. It also has dual signal paths and full integration with BIAS Amp, allowing you to use two custom Amp Match models in the same configuration. DUAL BIAS AMPSBIAS FX can use dual signal tracks, allowing you to combine the sound attributes of two different sets of amplifiers, speaker cabinets and microphones at the same time, providing a world of sound options impossible with a single amplifier. Thanks to full integration with BIAS Amp software, BIAS FX automatically imports custom BIAS Amp and Amp Match models, giving you great power to create brand new guitar tones and textures. PEDALBOARDS ON THE CLOUD You can easily create, share or download custom pedals to ToneCloud®. There are already hundreds to choose from, and we are constantly working with professional artists and session players from all over the world to offer an ever-growing and huge number of virtual pedals and platforms for BIAS FX. NO COMPROMISES We take an uncommitted approach in BIAS FX engineering, from detailed touch sensitivity in distortion emulations to double precision of modulated algorithms in chorus pedals, and strive for the best sound quality in everything we do. We are constantly working on new features and updates to our core technology, redefining what is possible in the world of guitar amps and effect emulation. THE STATE-OF-THE-ART BIAS FX technology has the most advanced DSP sound engine in the industry, featuring full integration with BIAS Amp Pro software and a beautifully designed user interface. With multiple amplifiers, rack effects and pedals, and full integration with BIAS Pedal software, BIAS FX is a powerful multi-platform guitar processing environment. For the first time you can achieve truly authentic high-quality guitar sounds in the recording studio and on the iPad for live performances and practice. Norton Utilities Premium - Download the tools you need to start your COMPUTER as new. Nothing is more frustrating than having a slow computer. Norton Utilities Premium helps you automatically optimize your computer's computing power, memory, and hard drive. It solves common problems and frees up space to provide faster access to the programs you want when you want them. Norton Utilities Premium Features: - Automatically optimizes your computer's computing power, memory and hard drive when running high demand applications to provide a smoother gaming, editing and streaming experience - Cleans and speeds up your PC, fixing common problems that can cause frustrating slowdowns or crashes - Identifies and helps remove unwanted startup programs that slow down - Frees up hard drive space to allow faster access to programs - Helps securely delete personal documents while preventing others from accessing them - Helps preserve digital privacy , allowing you to delete browser files for download - Easy to use interface that allows you to perform 1-Click optimization for your computer - Automatic computer care that works when your computer is idle Keeps your computer in good shape It's inevitable that everything that's getting older slows down. The average life span of a computer is between three and five years. But computer crashes can happen at any time. Norton Utilities Premium fixes common problems that can cause your computer to slow down — or worse, crash — and help keep your computer running smoothly for long periods of time. Enjoy a comprehensive performance improvement Nothing is more frustrating than having a slow PC. Norton Utilities Premium helps you automatically optimize your computer's computing power, memory, and hard drive. It solves common problems and frees up space to provide faster access to the programs you want when you want them. Automatic pc care that works when your PC is idle Advanced cleaning and repair removes clutter and solves more problems than ever before, it will work when your PC is idle, so when you return to your PC, it's all tuned for you. Keep your online activity and personal information a secret We live in the digital age, so it's typical to store your personal files on your computer. Now it's easy to keep your digital life private. Program Norton Utilities helps to maintain the maintenance of to delete your browser files. You can also use the file shredder to securely dispose of personal documents for good so that no one can access them.
