Narratives

ECHS Model

Which ECHS model does the district intend to implement at this time? Within these models, there are variations. For this purpose campus is defined as a CDC number not a physical location.

School-Within-School (SWS) - A subset of students on the campus are enrolled in grades 9-12 are enrolled in the ECHS academy.

Evaluation

Would your campus would like to be considered for distinguished recognition? All ECHS seeking distinguished recognition will be measured against the highest OMBs.

No

Products

Please provide links to the following products' locations on the ECHS's website: 'If the ECHS has all these documents on one webpage, provide the hyperlink here.

Provide a link to the academy's written admission policy and enrollment application.

Free-Response

If the ECHS has identified and implemented sustainability structures to address and minimize the challenges of staff turnover, please describe those structures here.

The ECHS has established monthly team leadership meetings during our zero period planning to discuss present matters, concerns, best practices and the Blue Print. Our School with in a school model also allows us to extend our planning learning communities to the comprehensive high school every Monday to inform on district initiatives and best practices outside the ECHS. We also incorporate our staff as part of the planning process by including them in scheduling and keeping them as active stakeholders in regards to instruction, course work, tutoring, community service and fundraising. Teachers are offered staff development regularly on innovative teaching practices including:

1. Educate Texas – Early College Network of Professional Development
2. ECHS Best Practices Conference in Galveston and at South Padre Island
3. Professional Development with Region One

Our ECHS director and counselor provides a walk-in opportunity for our staff members to address pressing classrooms concerns, social issues and support.

Describe the processes that the dual credit provider and the ECHS campuses monitor student progress, and determine when interventions are needed. How is this ECHS going to share data and monitor student progress and ensure student success?

The academic improvements and preparedness for those who are in need of academic assistance in the ECHS will be addressed through individual plans and strategic planning that will include the following components:

1. Four year academic plans to address/monitor educational needs.
2. Personal student portfolios to address/reflect personal growth and goal setting
3. Behavior and attendance intervention plan to address / monitor appropriate ECHS conduct
4. College readiness test tutorials
5. Extended day tutorial support before school and afterschool Monday thru Friday
6. Utilization of college tutors
7. Academic, group, personal, & intrapersonal counseling
8. Utilization of student planners

For students having difficulty meeting TSI readiness standards, they will be provided with additional reading, writing, and mathematics instructional support to improve and strengthen their skills. The additional instructional support will include the following components:

1. ECHS teachers will utilize their instructional period, plus before and after school times for the supplemental instruction.
2. Students will receive college preparation testing for ACT/SAT by taking the PLAN and PSAT exam as well as taking the TSI assessment.
3. Students will be able to receive additional support through the STC services I.E. tutorials

Endorsements

Identify the current endorsements that are offered:

- Science, Technology, Engineering, and Mathematics (STEM)
- Business and Industry
- Public Services
- Arts and Humanities
- Multi-disciplinary Studies

Certificates

Identify all associate degrees offered to students.
