Narratives

ECHS Model

Which ECHS model does the district intend to implement at this time? Within these models, there are variations. For this purpose campus is defined as a CDC number not a physical location.

Stand Alone Academy - All students on the campus are enrolled in the ECHS academy

Evaluation

Would your campus would like to be considered for distinguished recognition? All ECHS seeking distinguished recognition will be measured against the highest OMBs.

No

Free-Response

If the ECHS has identified and implemented sustainability structures to address and minimize the challenges of staff turnover, please describe those structures here.

The IHE and ECHS leadership team meet monthly or as needed to work through the IHE systems and protocols. The ECHS administration has created a relationship built on open dialogue, accessibility and mutual understanding based on meeting the needs of each of our students. We meet to discuss issues that arise from professors, students and parent concerns. The IHE is readily accessible to assist ECHS in parent dialogue regarding grades with students, professor communication and growing capacity within the ACC community of professors for future college classes. It continues to be a working relationship between RRECHS and ACC Round Rock. We are consistently building relationships with professors and ACC liaisons. Due to the close proximity of establishments, it allows constant communication and relatively quick access to turning in forms to enrollment and admissions offices. We have also made a priority of meeting with learning labs personnel, admissions, and student accessibility services in order to understand the best ability to achieve student success. Currently there is discussion to bridge the high school expectations of students who are 14-16 years old with college professors. Due to our recent arrival to the college environment, the counselor has strived to be the constant liaison between professors in communicating homework responsibility, grades and acceptable attendance. In addition to the ECHS counselor, the ECHS office personnel serve as liaisons in relaying the importance of daily attendance and reminding parents of the responsibility of their students to relay important information to their professors. Due to the constant communication between ACC and ECHS, the discussion of crosswalk and sequences is open to ensure that both entities are aware of student progress, achievement and conflict. We discuss how to appropriately offer students more academic interventions and there is communication between counselors at the college setting and high school setting to ensure that emotional and behavioral issues are met and handled appropriately. The large amount of interaction and communication between RRECHS and ACC allows for problems to be addressed quickly and to communicate solutions in a working manner so that it ensures a smooth transition for students and escalates the rate of student success.

Topics of daily discussion between ACC and ECHS:
Communication between professors and school personnel
Grades
Student Achievement, Test Scores and Progress

Describe the processes that the dual credit provider and the ECHS campuses monitor student progress, and determine when interventions are needed. How is this ECHS going to share data and monitor student progress and ensure student success?

The teachers at ECHS meet in campus instructional based professional learning communities twice a week to analyze the Texas Essential Knowledge and Skills, student performance, review assessments and refine instruction. Students' academic performance on district and campus assessments with the high school courses are tracked through the Eduphoria Aware data system and monitored closely by students and teachers. The goal is to enable the students to self-monitor and reflect on their progress through purposeful data collection and analysis.

Our IHE partner, ACC, uses an early alert system to monitor student progress. The ACC liaison and the administrative team work closely with the students and parents to monitor academic progress and college hour completion. If students are in jeopardy of failing college courses, the guidance counselor, ACC liaison and the teacher meet with the student and parent to complete an improvement plan. In addition to the early alert system, the teacher uses the AVID program to conduct weekly college grade checks. From the grades the students are placed in prescriptive interventions and study sessions as added college support. In addition, the ACC and ECHS administrative staff plan tutoring sessions with ACC learning lab tutors.
