Free-Response

If the ECHS has identified and implemented sustainability structures to address and minimize the challenges of staff turnover, please describe those structures here.

Benavides Early College High School has a structure in place to address and minimize the challenges of staff turnover. The district is collaborating with the neighboring district (San Diego Early College) for distance learning and face-to-face instruction. Benavides Early College High School will provide mentorships for our staff members as they face new challenges by engaging in reflective activities and professional conversations. To assist with staff turnover, Benavides Early College High School will also provide staff with a retention stipend to maintain staff..

Describe the processes that the dual credit provider and the ECHS campuses monitor student progress, and determine when interventions are needed. How is this ECHS going to share data and monitor student progress and ensure student success?

Benavides Early College High and Coastal Bend College will provide support services for our students. Coastal Bend College will provide an advisor for all of Benavides Early College High students. The advisor will provide academic and career advise. The Education Support Specialist will work with student in advising, degree planning and registration. If needed, mentors from Coastal Bend College will work with Benavides Early College High students. Benavides Early College High School facilitator will collect and periodically review grade reports. The adjunct teachers will have access to grades from the IHE and then provide intervention as needed. The facilitator will work in conjunction with the Education Support Specialist. to provide interventions, as needed. The students will also be taking on-line instruction with counseling/career support form Benavides Early College High School and an assigned CBC Dual Enrollment Specialist. In the future, the district will consider collaborating with other Institutions of Higher Education to bring more structured learning opportunities for the students.
