All students will enter the lottery pool for the schools in which they have both applied and qualified. It is very important that you think carefully about your ranking, because if your child is accepted to a program, any lower-ranked choice will be removed, see examples below. The application timeline for School Choice programs is split into three phases. Depending on the phase, different rules apply as to how applications are processed. Phase 1 (September 19, 2020 - November 6, 2020) All recruitment and fairs are virtual.

How does your academy use the access, achievement, and attainment data for program improvement?

We review access data to continuously increase the target populations. We recruit from all campuses in HISD, but moving forward, we are beginning to use our access data to do special outreach to the target populations. We have used attainment data to identify what students leave and why, and make sure that we have supports built into the school day. Achievement data is used to inform our instructional practices and determine our programs, such as tutorials, double-block courses, etc.

Narratives: Leadership Team

Leadership Team

List the Leadership Team's three priorities for the next year and describe how the selected priority contributes to the academy's success. Each priority should be a benchmark from the ECHS/T-STEM/P-TECH Blueprint.

Benchmark	Description
Benchmark 1: Target Population	We will focus on growing our recruitment practices that reach the target populations. We currently recruit at every middle school in Houston ISD. We will go a step further and begin recruitment early and use tactics to recruit the target
Benchmark 4: Attainment	Persistence of 9th grade students (and transfers in grades 10 or 11) through ECHS program into fall of 12th grade. We will continue to review our transfer data, what students are leaving from grade level to grade level, and how many of our students we are losing by graduation. Looking at this data and providing supports were needed will ensure we are meeting the distinguished level on the benchmark.
Benchmark 2: Partnership Agreement	It will be necessary to improve data sharing agreement with our higher-ed partner. This will enable us to intervene when students are not doing well in their classes, especially graduating seniors. As of today, there is no process required of instructors to inform us that a graduating senior is failing a course, which delays high school graduation.
