Dark mode facebook apkpure

Switch your Facebook newsfeed to dark mode! This is an unofficial app that changes the facebook.com to a black theme (or any other color of your choice!). You surfed your newsfeed too long even though you had to get up at 5am the next morning? Well, we can't help you with that, but we can help you reduce eye strain by darkening and replacing all bright colors with more pleasant colors. Use your favorite social networks at night! You have your own style and you don't care about brightness and would rather just change colors? We help you: use our multi-color support to turn Facebook red, green, blue, pink, yellow or whatever color your heart wants! Just swipe right to open the menu and go to Change Colors. Get the AD-free PRO version here: You love this app, check out our dark theme for Instagram: asks the question: Does this really turn my Facebook app into a dark theme? -> This is an additional standalone app that you can use with the original Facebook app. This does not change the theme of the original application, as this is not allowed by the Android security system. Just use regular apps, when you feel like it, and use ours when it's dark outside. How do I enable dark mode? -> If you start our application, it is already in dark mode, you do not need to enable it. Just use it like you would using your regular Facebook app! Can I turn off dark mode? -> No. Just use the regular Facebook app to use standard themes. Can I remove ads? -> We need ads to support the development of this app. But you can buy the AD-free PRO version here: I change colors? Yes, we have multi-color support. You can change the black theme to red, blue, green and all the other colors you like. Just open our app and wait for Facebook to load. Then swipe right to open the menu. Click Change Color. In the following menu, you can choose the background color you like (and you can also set the color of the text). At the bottom, you'll see a preview of how it looks when applying these colors. Give it a few seconds to recharge. If you like your selection, click Apply. Currently, you'll need to watch an ad to unlock this feature. After you watch your ad, your settings take effect and you'll see the color you chose. I accidentally changed the color, how can I go back to the black theme? menu (swipe right) and choose Change Color. Now click the button at the bottom that says Reset to default. Now you have to go back to the beginning of our black-theme. Do I need to create a new Facebook account? -> No. It works with all Facebook accounts. Does this also work for Facebook Facebook Yes, just click the Messenger icon in the top menu. How do I get back? -> Please use your phone's back button to go back. Can I post my current location? -> Unfortunately, this is not implemented at this time. Can I upload an image or video? -> Yes. If you try to upload an image or video, a new window will appear that lets you select files. Do you have any suggestions or questions?
