

Ubik News

Benefit from the most innovative pharmacy management solution on the market.

May / June 2015

Ongoing communications with pharmacists open the door to numerous Ubik improvements. Here are some from Ubik's 1.9 version:

Integrated Inventory Management:

This function allows you to easily manage inventory levels because of a bi-directional communication between The Suite and Ubik. Inventory is updated for each order received and for each product used.

Patient Groups Management:

This new module makes it easy to select a group and to choose the criteria for a particular action (e.g. batch refills, batch printing). A dashboard lets you see the progress of the activity at hand while effectively managing notifications and errors occurring along the way.

The screenshot displays the Ubik software interface. On the left, there is a sidebar with navigation options like 'Settings', 'Patients', 'Groups', 'Messages', 'Management', 'By Vigilance', 'Prescription', 'Pharm', 'Spéc', and 'Agenda'. The main window shows a 'Validation (8)' dialog box with the following content:

Validation (8)

The Rx stop date is reached or there is no quantity left to dispense. Do you still want to refill it? (7)

	Yes All	No All
Depelteau-Bouchard, Yzak		
● Refilling Rx 248, 30.00 APO KETOROLAC 10MG COMPRIME	<input type="button" value="Yes"/>	<input type="button" value="No"/>
● Refilling Rx 247, 30.00 CRESTOR 5MG COMPRIME	<input type="button" value="Yes"/>	<input type="button" value="No"/>
Durand, Lynda		
● Refilling Rx 149, 30.00 NEXIUM 10MG GRANULE	<input type="button" value="Yes"/>	<input type="button" value="No"/>
● Refilling Rx 150, 30.00 DILANTIN 125MG/SML SUSPENSION	<input type="button" value="Yes"/>	<input type="button" value="No"/>
● Refilling Rx 148, 30.00 LIPITOR 20MG COMPRIME	<input type="button" value="Yes"/>	<input type="button" value="No"/>
Berard-Vaillancourt (Hinse), Roxane-Marie (Lucille)		
● Refilling Rx 65, 20.00 APO MODAFINIL 100MG COMPRIME	<input type="button" value="Yes"/>	<input type="button" value="No"/>
Acton, Earl (Ubik Nine)		
● Refilling Rx 250, 30.00 LIPITOR 80MG TABLET	<input type="button" value="Yes"/>	<input type="button" value="No"/>

Cannot refill a stopped Rx (1)

Drug Appearance:

Drug appearance descriptions are now available in Ubik. Updated monthly by Vigilance Santé, these descriptions (e.g. Blue round tablet) are accessible and can be printed on medication administration record (MAR) charts and on compliance pack templates.
