With over three years in research and product development, a new pop-up tent has emerged with extreme durability, maximum mobility and an alternative to those metal frame tents.

Say goodbye to metal poles, breakable plastic components and the bulky transport associated with outdoor event tents. The time of pop-up pinched fingers and yearly replacement costs are over.

Frame:

- High-strength Dacron-shell
- Patented One-Pump Inflation System
- One Person Set-up in Less Than 10 Minutes
- 1-Year Warranty

Printing:

- Full Digital UV Printing
- Water-Resistant
- Complete Customization
