I've spent time playing games on each of the sites listed below to ensure quality, check for ads and see what's available for free. Where to play free games online When it comes to online games, you don't have to have the latest console or the latest titles to have fun. In fact, there are hundreds of thousands of free games available from your browser on your phone, computer or tablet. To find some of the best free classic and new games available online, check out the websites below. I've spent some time on each site to find out what types of games are available if you'll have to download Adobe Flash to play them and how many ads you can expect to see. In each section below, you will also find information on how to start playing games as well as the biggest pros and cons I found for each site. 1. 247 Games Best For: Classic games, card games and puzzles Adobe Flash: Required to choose games online Types of games: Online (computer browser) and mobile (phone / tablet browser) If you are interested in simple online versions of classic games, 247 Games is the perfect resource for you. You can also browse the games by category. All games on 247 games are completely free and you don't need to create an account to access any features. I didn't run into any ads while I was playing games on this website. In addition to the desktop version, you can visit the mobile version of the website on your smartphone or tablet to access the same games without having to download apps. Many of the games you find online on Armor Games are also available as apps for iOS and Android devices, meaning you can download them to your mobile device and continue playing away from your computer. I was impressed with the variety of games on this website. Although you won't find many well-known games like blackjack or checkers, you will find a lot of unique and interesting games created by Armor Games and independent developers. You can create a free account on the website to keep track of your high scores and favorite games, but the account is not needed to play what is available on the website. While the most popular games on this website seem to be more action oriented, you can still find classic games like sudoku and chess by searching for them using the search bar at the top of the screen. In addition, you can browse the games by category on the More Games tab. During the time I spent at FOG, I saw a few ads for other games on the site as well as video commercials during breaks in gameplay. While I had to disable my ad blocker to play, the ads that I saw weren't enough to be a big part of the experience on this website. When you visit the desktop version of the site, you'll see ads at the top and bottom of the page while playing games, as well as a few on the front page.
