## CANADIAN COIN VALUES PRICE GUIDE

All prices are in U.S. dollars

Canadian Coin Values is a comprehensive retail value guide of Canadian coins published online regularly at Coin World's website. Canadian Coin Values is provided as a reader service to collectors desiring independent information about a coin's potential retail value.

Sources for pricing include actual transactions, public auctions, fixed-price lists and any additional information acquired by the Canadian Coin Values valuing analyst. (Note: Dealer buy prices are wholesale valuations. Published buy prices in no way guarantee that a particular dealer will buy a coin at published buy price. Therefore, certain coins in this valuing section, especially some of the esoteric items, may differ greatly from advertised buy prices, both higher and lower.)

Market conditions, supply, demand and rarity are key considerations. Values are listed for coins that are strictly graded in each grade category according to the current market standard. In most cases, third-party grading services are the best market indicator of the current standard. Cleaned, whizzed, damaged or otherwise altered coins bring less value than posted in Canadian Coin Values listings.

The 1 to 70 numerical scale is used to describe the condition of a coin. The 1 to 70 scale is now in common usage by third-party grading services, dealers and auction houses. Application of the numbers can and does vary. Numerical circulation grades used in the valuing section include: Very Good - VG-8, Fine - F-12, Very Fine - VF-20, Extremely Fine - EF-40, About Uncirculated - AU-50, MS refers to an Uncirculated or Mint State coin and is numbered 60 to 70. Mint State grades include: MS-60, MS-63, MS-65, PL denotes proof-like, a superior business strike grading at MS-65. Specimen is reserved for MS-67 coins with a mirror finish. In grading, PF is used to denote Proof, a method of manufacture, and the numbers 60 through 70 are commonly used to indicate level of preservation or grade of a Proof coin.

Prices for silver, gold and platinum Maple Leaf coins that sell for bullion value plus a trading premium are reported weekly in Coin World's Precious Metals and Bullion Coins chart, a regular feature. Silver Maple Leaf prices, which often carry a collector premium, are reported in Canadian Coin Values. Prices for precious metals coins here are based on \$22 an ounce for silver, \$1,325 for gold, \$1,450 for platinum and \$740 for palladium.
