# Listing of pastors 2012

# TEXAS BAPTIST PASTORS

Each church, in its sovereignty and subject to no power or authority of the Convention, ordains and licenses ministers and calls and employs pastors and staff. Southern Baptist Convention and other Baptist organizations independent of the Convention select their own chaplains, missionaries, evangelists and staff. Consequently, the listing below is in no way to be considered a recommendation or affirmation. The persons are listed, based on responses from churches and other organizations, solely for information with no approval implied or expressed.

The following list of pastors is taken from the Annual Church Profile.

## INDEPENDENT AUDITOR'S REPORT

To the Executive Board of
The Baptist General Convention of Texas

We have audited the accompanying financial statements of the Baptist General Convention of Texas ("BGCT"), a not-for-profit organization, which comprise the statement of financial position as of December 31, 2012 and the related statements of activities and cash flows for the year then ended, and the related notes to the financial statements. The prior year summarized information has been derived from BGCT's 2011 financial statements and, in our report dated May 9, 2012, we expressed a qualified opinion on those financial statements consistent with the qualification below.

### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### Basis for Qualified Opinion

As more fully described in Note 17 to the financial statements, BGCT has chosen not to consolidate the financial statements of one affiliated organization as required under Financial Accounting Standards Board Accounting Standards Codification topic Not-for-Profit Entities – Consolidation. Under accounting principles generally accepted in the United States of America, there is a presumption that consolidated financial statements provide a more meaningful presentation of results of activities and financial position; however, the accompanying financial statements are not consolidated due to management's desire to have a presentation of only BGCT's financial position and activities.

**Opinion**

In our opinion, except for the effects of not consolidating the affiliated organization discussed in the preceding paragraph, the financial statements referred to above present fairly, in all material respects, the financial position of the Baptist General Convention of Texas as of December 31, 2012 and the changes in its net assets and its cash flows for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### (a) Organization

The Executive Board of the Baptist General Convention of Texas ("Executive Board") is comprised of 90 directors from across Texas, three officers of the Baptist General Convention of Texas (BGCT), and the presidents of several Baptist-related groups. BGCT encourages, facilitates, and connects churches in their work to fulfill God's mission of reconciling the world to Himself. BGCT serves Baptist churches in Texas by providing training, materials and ministry opportunities in the areas of evangelism, missions, Christian discipleship, advocacy and care.

To accomplish its religious and related missions, BGCT contributes to separate not-for-profit institutions that engage in healthcare, Christian education, child care, and ministry to the aging. BGCT provides financial support to these institutions primarily through its annual Cooperative Program budget. BGCT nominates part, or all, of the institutions' trustees and approves changes in the institutions' articles of incorporation. The financial obligations of the institutions are solely those of the institutions and not BGCT, except for certain debt guarantees further discussed in Note 17. The financial statements of BGCT do not include the financial information of these other institutions.

In 2009 the Baptist General Convention of Texas began using the name (doing business as) Texas Baptists.

### (b) Financial Statement Presentation

Net assets and revenues, expenses, gains and losses are classified based on the existence or absence of donor-imposed restrictions. Accordingly, net assets and changes therein are classified as follows:

Unrestricted net assets - Net assets not subject to donor-imposed stipulations. Certain net assets have been designated by the Executive Board for specific purposes or programs. These net assets are not restricted by donors for purpose or the passage of time.

Temporarily restricted net assets - Net assets subject to donor-imposed stipulations that may or will be met by actions of BGCT and/or the passage of time.

Permanently restricted net assets - Net assets subject to donor-imposed stipulations that will never lapse, thus requiring the funds to be retained permanently. Generally, the donors of the assets permit BGCT to use all or part of the income earned on related investments for general or specific purposes.

Revenues are reported as increases in unrestricted net assets unless use of the related assets is limited by donor-imposed and/or time restrictions. Expenses are reported as decreases in unrestricted net assets. Gains and losses on investments and other assets or liabilities are reported as increases or decreases in unrestricted net assets unless their use is restricted by explicit donor stipulation or by law. Expirations of temporarily restricted net assets (i.e., the donor-stipulated purpose has been fulfilled and/or the stipulated time period has elapsed) are reported as reclassifications between the applicable classes of net assets.

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(b) Financial Statement Presentation (Continued)**

**Contributions are recognized as revenues in the period when unconditional promises to give are received. Conditional promises to give are not recognized until they become unconditional, that is, when the conditions on which they depend are substantially met. At December 31, 2012 and 2011, respectively, BGCT had revocable investments and revocable beneficial interests in trusts held by third parties of $921,053 and $1,095,891, respectively, which are considered conditional gifts. Contributions of assets other than monetary assets are recorded at their estimated fair value.**

**Investment income and net realized and unrealized gains and losses on investments of endowment and similar funds are reported as follows:**

- **as changes in permanently restricted net assets if the terms of the gift require they be included in principal of a permanent endowment fund;**
- **as changes in temporarily restricted net assets if the terms of the gift impose restrictions on their use;**
- **as changes in unrestricted net assets in all other cases.**

**As required by the Not-for-Profit Entities – Presentation of Financial Statements topic of the Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC), a not-for-profit organization that is subject to an enacted version of the Uniform Prudent Management of Institutional Funds Act (UPMIFA) shall classify a portion of a donor-restricted endowment fund of perpetual duration as permanently restricted net assets. The amount classified as permanently restricted shall be the amount of the fund (a) that must be retained permanently in accordance with explicit donor stipulations, or (b) that in the absence of such stipulations, the organization's governing board determines must be retained (preserved) permanently consistent with the relevant law. For each donor-restricted endowment fund for which the restriction exists until the donor-restricted assets are appropriated for expenditure, BGCT will classify the portion of the fund that is not classified as permanently restricted net assets as temporarily restricted net assets (time restricted) until appropriated for expenditure by the Board. BGCT is subject to the version of UPMIFA enacted by the State of Texas, which is described in Note 3.**

**(c) Cash Equivalents**

**Cash equivalents consist of investments with original maturities of three months or less. The carrying value of such instruments approximates fair value. BGCT places its cash, cash equivalents and investments with high credit quality financial institutions, and such balances at times may exceed federally insured limits. BGCT has not experienced any losses on such accounts.**

**(d) Investments**

**Investments in marketable securities are stated at fair value based on quoted market prices. Investments in real estate are carried at fair value, which is determined based on analysis of the current real estate market for similar properties.**

## 1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

### (d) Investments (Continued)

Investments in mineral rights and royalties are carried at fair value, which is determined by a multiple of the twelve month rolling average of the royalty income. Investments held by the Baptist Foundation of Texas are stated at fair value based on pooled investment values reported by that Foundation. The net realized and unrealized gains or losses in market value of investments are reflected in the statements of activities.

### (e) Contributions Receivable

Contributions receivable are recorded at the amounts owed by donors adjusted for unamortized discounts and an allowance for losses.

Contributions receivable by expected receipt date were as follows for the year ending December 31:

| | 2012 | 2011 |
|---|---|---|
| Less than one year | $ 4,000 | $ 38,743 |
| One to five years | 16,000 | 17,000 |
| Total contributions receivable | 20,000 | 55,743 |
| Less allowance for uncollectible contributions | - | (28,081) |
| Contributions receivable, net | $ 20,000 | $ 27,662 |

The estimated allowance for uncollectible contributions receivable is accounted for using the reserve method. Using this method, the allowance is maintained at a level which, in the judgment of management, is adequate to meet the present and potential risks of uncollectibility of the contributions receivable. Management's judgment is based on a variety of factors, including scrutiny of individual contributions receivable. Amounts deemed by management to be uncollectible are charged against the allowance. Provisions for receivable losses are recorded as bad debt expense and credited to the allowance for uncollectible contributions receivable. Recoveries on receivables previously charged-off are also recorded as a change in unrestricted, temporarily restricted or permanently restricted net assets, depending on donor-imposed restrictions, if any.

### (f) Beneficial Interests in Trusts Held by Third Parties and Receivable from Charitable Gift Annuities

BGCT is a party to various types of split-interest agreements. Under these arrangements, the donor contributes or agrees to contribute assets to BGCT in exchange for a promise from BGCT to pay the donor a fixed amount or other amount based on a percentage of the performance of the underlying donated asset for an agreed upon period of time. Assets received are recognized at fair value, net of an annuity payment liability of the present value of the future cash flows expected to be paid. Unrestricted contribution revenue is recognized as the difference between these two amounts if donors place no restrictions on the use of BGCT's portion of the assets, and temporarily restricted revenue is recognized if restrictions have been placed on the use of the assets. The present value of

Changes in the net present value of future cash flows are recorded as change in value of beneficial interests in trusts held by third parties in the statement of activities.**

**(g) Notes Receivable and Loans Receivable**

**Notes receivable and loans receivable are provided for the purpose of expansion and construction of new Baptist churches and other facilities without requiring collateral. Notes and loans receivable are low-interest or non-interest bearing with terms ranging from one to ten years. A loan loss allowance of approximately $510,000 and $923,000 at December 31, 2012 and 2011, respectively, is established for loans receivable based on historical experience as well as the results of management's review and analysis. An allowance of approximately $1,258,000 and $1,300,000, at December 31, 2012 and 2011, respectively, is established for notes receivable based on management's review and analysis. Increases to the allowance are charged to other program expenses in the statement of activities. Notes receivable and loans receivable are charged off as they become uncollectible. Interest from loans receivable and notes receivable is recognized as it is earned. Loans are considered past due when no payment has been received for thirty days and the loan has not been prepaid.**

**(h) Inventory**

**Inventory primarily consists of Bible study materials and tracts. Inventory is carried at the lower of cost or market value using the first-in, first-out method.**

**(i) Property and Equipment**

**Property and equipment is recorded at cost when purchased or fair value when received by donation, net of accumulated depreciation calculated on a straight-line basis over the estimated useful lives as follows:**

| | |
|---|---|
| **Buildings, garage and student centers** | **30-40 years** |
| **Building improvements** | **10-20 years** |
| **Furniture, equipment and vehicles** | **2-10 years** |

**BGCT capitalizes items in excess of $5,000.**

**(j) Impairment of Long-Lived Assets**

**BGCT periodically reviews the carrying value of its long-lived assets, including property and equipment, whenever changes in circumstances indicate that the carrying value may not be recoverable. To the extent fair value of the long-lived asset, determined based upon the estimate future cash inflows attributable to the asset less estimated future cash outflows, are less than the carrying amount, an impairment loss is recognized. No such losses were recognized in 2012 or 2011.**

**1. ORGANIZATION AND SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**

**(k) Cooperative Program Revenue**

**BGCT receives substantial revenue from Texas Baptist churches for a comprehensive plan known as the Cooperative Program. Contributions received for the Cooperative Program are included in unrestricted net assets.**

**(l) Functional Allocation of Expenses**

**The costs of providing the various programs and activities of BGCT have been summarized on a functional basis in Note 10. Accordingly, certain costs have been allocated among programs and supporting services benefited based on management's estimates.**

**(m) Advertising Expense**

**Advertising costs are expensed when incurred and totaled approximately $364,000 and $288,000 for 2012 and 2011, respectively.**

**(n) Income Taxes and Uncertain Tax Positions**

**BGCT is exempt from Federal income taxes under Section 501(a) of the Internal Revenue Code as an organization described in Section 501(c)(3). Accordingly, no provision has been made for Federal income tax. BGCT applied provisions of the FASB ASC regarding Accounting for Uncertainty in Income Taxes during the years ended December 31, 2012 and 2011. No change in unrecognized tax liability of asset resulted from applying this accounting guidance. BGCT is not under examination for tax purposes by any jurisdiction and no interest or penalties were incurred in 2012 or 2011 related to income taxes.**

**(o) Use of Estimates**

**The preparation of financial statements in conformity with accounting principles generally accepted in the United States (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.**

**(p) New Accounting Pronouncements**

**In May 2011, the FASB issued new guidance to develop common requirements for measuring fair value and for disclosing information about fair value measurement in accordance with GAAP and International Financial Reporting Standards. The provisions of this guidance change certain of the fair value principles related to the highest and best use premise, the consideration of blockage factors and other premiums and discounts, the measurement of financial instruments held in a portfolio and instruments classified within**

shareholders' equity. Further, the guidance provides additional disclosure requirements surrounding Level 3 fair value measurements, the uses of nonfinancial assets in certain circumstances and identification of the level in the fair value hierarchy used for assets and liabilities which are not recorded at fair value, but where fair value is disclosed. This new guidance is effective for periods beginning after December 15, 2011. The adoption of this guidance did not have a significant impact on BGCT's financial statements.

### (q) Reclassification

Certain 2011 balances have been reclassified to conform with 2012 presentation.

## 2. INVESTMENTS

Investments and reserve fund investments consist of the following at December 31:

| | 2012 | 2011 |
|---|---|---|
| Equity securities | $ 202 | $ 4,965 |
| Debt securities | 3,365,798 | 4,290,664 |

| Less reserve fund investments | (5,832,131) | (5,251,343) |
| Investments | $ 85,085,649 | $ 77,239,869 |

The reserve fund investments are designated by the Executive Board to provide emergency operating funds and are investments managed by the Baptist Foundation of Texas (BFT). BGCT invests in the Group Investment Fund with BFT.

The fund is a pool of investments categorized as follows as of December 31:

| | 2012 | 2011 |
|---|---|---|
| Equity securities | $ 53,236,529 | $ 46,227,906 |
| Debt securities | 16,924,908 | 15,662,291 |

## 3. ENDOWMENTS

**BGCT's donor-restricted endowment consists of approximately 155 individual funds established for a variety of purposes. BGCT also maintains approximately 45 funds that function as endowment funds, although no permanent donor-restriction exists. These funds consist both of amounts temporarily restricted by donors for a specific purpose and funds designated by the Executive Board to function as endowments. The temporarily restricted portion of these board designated endowments represents gifts with temporary donor restrictions, which BGCT has chosen to fulfill by managing the gift as an endowment, although such treatment is not required by the donor. As required by GAAP, net assets associated with endowment funds are classified and reported based on the existence or absence of donor-imposed restrictions.**

**The Executive Board of BGCT has interpreted the Texas Prudent Management of Institutional Funds Act (TPMIFA) as requiring the preservation of the fair value of the original gift as of the gift date of the donor-restricted endowment funds absent explicit donor stipulations to the contrary. As a result of this interpretation, BGCT classifies as permanently restricted net assets (a) the original value of gifts donated to the permanent endowment, (b) the original value of subsequent gifts to the permanent endowment, and (c) accumulations to the permanent endowment made in accordance with the direction of the applicable donor gift instrument at the time the accumulation is added to the fund.**

**The remaining portion of the donor-restricted endowment fund that is not classified in permanently restricted net assets is classified as temporarily restricted net assets until those amounts are appropriated for expenditure by the organization in a manner consistent with the standard of prudence prescribed by TPMIFA.**

**In accordance with TPMIFA, the organization considers the following factors in making a determination to appropriate or accumulate donor-restricted endowment funds:**

**(1) The duration and preservation of the fund**

**(2) The purposes of the organization and the donor-restricted endowment fund**

**(3) General economic conditions**

**(4) The possible effect of inflation and deflation**

**(5) The expected total return from income and the appreciation of investments**

**(6) Other resources of the organization**

**(7) The investment policies of the organization.**

**Strategies Employed for Achieving Objectives**

**To satisfy its long-term objectives, BGCT relies on a strategy of asset diversification through professional investment managers. On longer-term investments, the funds are normally placed with the BFT in the investment pool except when the donor instrument defines another custodian. For assets not maintained by BFT the Finance Committee of the Executive Board of BGCT determines a spending rate based on budgetary requirements and preservation of asset value. For assets maintained by BFT, the Board of BFT determines a distribution rate for all of its customers. BGCT evaluates this rate to insure it falls within TPMIFA guidelines.**

**3. ENDOWMENTS (Continued)**

**Return Objectives and Risk Parameters**

**BGCT has adopted investment and spending policies for endowment assets that attempt to protect the related assets and provide a reasonable return until authorized use. Reasonable return criteria is based upon donor stipulations, then on having sufficient earnings to retain the value of the investment vehicle while still having needed earnings to meet BGCT's operational objectives. BGCT's investment philosophy is to invest in secure vehicles, obtain adequate return on investment, and invest in vehicles which are compatible with purposes of the BGCT.**

**Spending Policy and How the Investment Objectives Relate to Spending Policy**

**BGCT has a policy of appropriating for distribution the funds distributed quarterly by BFT and other fund custodians. The Finance Subcommittee of BGCT approves the disbursement of all funds accruing from wills or trusts. The Finance Subcommittee of BGCT may approve appropriation of additional funds beyond the custodian's normal distribution rate.**

**Funds with Deficiencies**

**From time to time, the fair value of assets associated with individual donor-restricted endowment funds may fall below the level that the donor or TPMIFA requires BGCT to retain as a fund of perpetual duration. The aggregate deficiency at December 31, 2012 and 2011 was approximately $426,000 and $950,000, respectively.**

**Endowment Net Asset Composition**

**BGCT's endowment net asset composition by type of fund as of December 31, 2012 and 2011 is as follows.**

| | 2012 | | | |
|---|---|---|---|---|

## 4. PROPERTY AND EQUIPMENT

Property and equipment consist of the following at December 31:

| | 2012 | 2011 |
|---|---|---|
| Buildings, building improvements and garage | $ 15,361,395 | $ 15,153,444 |
| Student centers | 9,016,411 | 9,016,411 |
| Furniture and equipment | 5,081,539 | 4,961,496 |
| Vehicles | 61,974 | 50,561 |
| | 29,521,319 | 29,181,912 |
| Less accumulated depreciation | (17,515,144) | (16,036,541) |
| | 12,006,175 | 13,145,371 |
| Land | 5,017,326 | 5,017,326 |
| Property and equipment, net | $ 17,023,501 | $ 18,162,697 |

Included in land are two properties donated in 2011 totaling $1,238,706. The donors stipulated that, in the event BGCT chooses to sell the land, the use of the proceeds must be for a specific purpose. Therefore, the amounts are included in temporarily restricted net assets.

## 5. NOTES PAYABLE

Notes payable consist primarily of loans from a charitable foundation for the purpose of providing non-interest and low-interest bearing loans to certain churches and low-income families for housing. The loan agreements stipulate that the notes are callable with 90-days notice, but the rate of repayment may not exceed the repayment terms on the church loans, reported as loans receivable in the statement of financial position. The maturity schedules of the notes coincide with the maturity schedules of the church loans. Interest accrues on these loans at annual rates of 0% to 5%. The foundation is responsible for certain church loan losses. Funds received from the foundation in excess of that which is loaned to churches are included in investments.

Interest expense was approximately $66,000 and $42,000 for the years ended December 31, 2012 and 2011, respectively.

Aggregate maturities of notes payable are as follows for the year ending December 31, 2012:

| | |
|---|---|
| 2013 | $ 1,931,137 |
| 2014 | 782,379 |
| 2015 | 782,379 |
| 2016 | 782,379 |
| 2017 | 632,377 |
| Thereafter | - |
| Total | $ 4,910,651 |

## 8. RETIREMENT PLAN

**BGCT provides a defined contribution retirement plan (the Plan) for all full-time employees upon completion of two years of service to Baptist entities. The Plan is administered by GuideStone Financial Resources of the Southern Baptist Convention. BGCT contributed 5% for 2012 and 2011 of the participating employee's base salary with no required contribution by the employee; however, discretionary contributions can be made by employees. BGCT matches qualifying employee contributions based on years of Baptist service incrementally up to 5% of the participating employee's base salary. Contributions of approximately $965,000 and $919,000 were recorded in 2012 and 2011, respectively, under this arrangement. Retirement benefits equal the amounts accumulated in the employee's individual account at the date of retirement. Vesting occurs immediately upon eligibility.**

## 9. POST RETIREMENT BENEFITS

**BGCT provides postretirement healthcare and life insurance premiums, up to a certain dollar amount, to employees retiring on or after attaining age 55 who have rendered at least ten years of service. BGCT may amend or change the postretirement benefits plan at its discretion.**

**The December 31, 2012 funded status of the past retirement benefits plan and the projected funded status on December 31, 2013 are as follows:**

| | 2012 |
|---|---|
| Accumulated postretirement benefit obligation | $ (9,840,297) |
| Plan assets at fair value | - |
| Unrecognized prior service cost | 203,752 |
| Unrecognized net loss | 4,465,189 |
| Unrecognized transition obligation at date of initial application | - |
| Accrued postretirement benefit cost | (5,171,356) |
| Impact on unrestricted net assets | (4,668,941) |
| Net recognized cost | $ (9,840,297) |

**The December 31, 2011 funded status of the Plan was:**

| | 2011 |
|---|---|
| Accumulated postretirement benefit obligation | $ (9,015,852) |
| Plan assets at fair value | - |
| Unrecognized prior service cost | 271,670 |
| Unrecognized net loss | 3,768,871 |
| Unrecognized transition obligation at date of initial application | - |
| Accrued postretirement benefit cost | (4,975,311) |
| Impact on unrestricted net assets | (4,040,541) |
| Net recognized cost | $ (9,015,852) |

**The accumulated postretirement benefit obligation is the actuarial present value of all benefits attributed to service rendered prior to the valuation date. It is calculated based on the projected unit credit cost method.**

**Prior service cost is the cost of retroactive benefits granted in a plan amendment. The unrecognized prior service cost is the portion of prior service cost that has not been recognized as a part of net periodic postretirement benefit cost. Amortization of the unrecognized prior service cost is required and is the unrecognized prior service cost divided by the average remaining service to full eligibility of the active participants who have not reached full eligibility and are expected to receive benefits under the plan.**

**9. POST RETIREMENT BENEFITS (Continued)**

**Gains and losses are changes in the amount of either the accumulated postretirement benefit obligation or Plan assets resulting from experiences different from that assumed and from changes in assumptions. The unrecognized net gain or loss is the cumulative net gain or loss that has not been recognized as a part of net periodic postretirement benefit cost. Amortization of an unrecognized net gain or loss is included as a component of net postretirement benefit cost for a year if, as of the beginning of the year, that unrecognized net gain or loss exceeds 10 percent of the greater of the accumulated postretirement benefit obligation or the Plan assets at fair value. If amortization is required, the amortization shall be that excess divided by the average remaining service period of active participants expected to receive benefits under the Plan.**

**The unrecognized transition obligation is that portion of the transition obligation that has not been recognized either immediately or on a delayed basis as a part of net periodic postretirement benefit cost, as an offset to certain gains, or as a part of accounting for the effects of a settlement or a curtailment.**

**The transition obligation at the date of initial application is calculated as the accumulated postretirement benefit obligation minus the fair value of the Plan minus any accrued (prepaid) postretirement benefit cost.**

**Change in accumulated postretirement benefit obligation for 2012:**

| | |
|---|---|

**11. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)**

| | Carrying Value | Estimated Fair Value |
|---|---|---|
| Financial assets (Continued): | | |
| Investments | $ 77,239,869 | $ 77,239,869 |
| Beneficial interests in trusts held by third parties | 7,882,994 | 7,882,994 |
| Receivables from charitable gift annuities | 32,800 | 32,800 |
| Reserve fund investments | 5,251,343 | 5,251,343 |
| Financial liabilities: | | |
| Accounts payable and accrued liabilities | 7,661,298 | 7,661,298 |
| Notes payable | 5,813,264 | 4,941,308 |

The following methods and assumptions were used to estimate the fair value of each class of financial instruments:

***Cash and Cash Equivalents, Accrued Investment Income, and Accounts Payable and Accrued Liabilities***

The carrying amount approximates fair value because of the short maturity of these instruments.

***Investments, Beneficial Interests in Trusts Held by Third Parties, Receivable from Charitable Gift Annuities and Reserve Fund Investments***

Fair value is established by methods described in Note 1.

***Notes and Loans Receivable***

The fair value of notes and loans receivable is based on discounting future cash flows using current interest rates at which similar notes would be made to borrowers for the same remaining maturities.

***Notes Payable***

The estimated fair value of BGCT's long-term debt is based on discounting future cash flows using current interest rates at which similar borrowings could be obtained for the same remaining maturities.

***Fair Value Measurements***

FASB ASC topic Fair Value Measurements requires classification of assets and liabilities reported at fair market value according to inputs used to develop the fair value measurements. Measurements were determined using quoted prices in active markets, significant other observable inputs, and significant unobservable inputs. Fair value for Level 1 assets was determined by quoted prices in active markets for identical assets. Fair value for Level 2 assets was determined by comparison of quoted prices for similar assets in active markets. Market value for Level 3 assets is based on assumptions that market participants would use in pricing the asset or liability, including assumptions about risk. Such assets and liabilities are classified accordingly below.

## 11. FAIR VALUE OF FINANCIAL INSTRUMENTS (Continued)

The schedule below summarizes the activity for the items on the previous schedule, which have been classified as Level 3 for the years ended December 31, 2011.

| | 2011 |
|---|---|
| Beginning balance | $ 10,393,333 |
| Total gains included in changes in net assets | 1,904,140 |
| Purchases, sales, issuances and settlements | (5,206,498) |
| Ending balance | $ 7,090,975 |

## 12. OPERATING LEASES

BGCT has certain non-cancelable operating lease agreements that expire through 2018. Future annual minimum lease payments due under these leases as of December 31, 2012 was approximately as follows:

| | |
|---|---|
| 2013 | $ 282,924 |
| 2014 | 260,269 |
| 2015 | 233,981 |
| 2016 | 197,194 |
| 2017 | 32,437 |
| Thereafter | 10,564 |
| Total | $ 1,017,369 |

Lease expense for the year ended December 31, 2012 and 2011 was approximately $852,000 and $785,000, respectively.

## 13. COMMITMENTS AND CONTINGENCIES

BGCT is a party to various legal proceedings and matters arising in the ordinary course of operations, some of which are covered by insurance. Management is not aware of any claims or contingencies that are not covered by insurance that would be material to the financial position, change in net assets, or cash flows of BGCT.

## 14. RELATED PARTY TRANSACTIONS

A committee of BGCT nominates a majority of the board of directors for several Baptist institutions which receive funding through its Cooperative Program. These nominees are then elected by messengers at the BGCT Annual Meeting. As such, BGCT has indirect control over these institutions; however, BGCT does not have an economic interest in these institutions, except as indicated in Note 17, and therefore is not required to consolidate these institutions. BGCT does not nominate a majority of the board of directors for a number of other Baptist institutions which receive funding from BGCT, and therefore does not have control or economic interest in these institutions.

## 14. RELATED PARTY TRANSACTIONS (Continued)

### Baptist University of the Americas

During 2006, land was purchased by Baptist University of the Americas (BUA) to provide additional facilities for the campus. BGCT loaned BUA $1,080,000 at 0% interest and $775,000 at 5% interest for the purchase of the land. Since 2006, additional amounts have been loaned to BUA at 5% interest. Amounts due from BUA at December 31 are as follows:

| | 2012 | 2011 |
|---|---|---|
| Amounts loaned at 0% interest | $ 1,080,000 | $ 1,080,000 |
| Amounts loaned at 5% interest | 1,560,980 | 1,602,480 |
| Ending balance | $ 2,640,980 | $ 2,682,480 |

Additionally, BGCT guaranteed BUA's $2,500,000 loan and $2,250,000 loan with an outside lender. For the $2,500,000 loan BGCT pledged investments with fair values in excess of the loaned amount. The pledged investments are included in investments on the statement of financial position. BGCT has no collateral pledged on the $2,250,000 loan. Both notes mature in June of 2014. BGCT would fulfill the guarantees as required by the lender if BUA defaulted on either loan. No liability is included on the statement of financial position for these guarantees for 2012 or 2011 as the estimated fair value of BGCT's obligation to perform under the guarantees is zero. However, a reserve of $1,300,000 was established during 2010 for the note balances above. Management, based on its estimates and discussions with BUA, believe this reserve adequately estimates the potential impact on BGCT for any non-payment or loan defaults of BUA that may occur. Actual results may differ from management's estimate.

### Other Related Parties

Following is a schedule of related parties for whom BGCT nominates the majority of the directors or in which BGCT has economic interest, along with the amounts paid to the institutions in 2012 and 2011:

| | 2012 | 2011 |

## 14. RELATED PARTY TRANSACTIONS (Continued)

The total amount due to these related parties at December 31, 2012 and 2011 was approximately $220,000 and $248,000, respectively, and is included in accounts payable and accrued liabilities on the statement of financial position.

## 15. AGENCY TRANSACTIONS

BGCT recognizes gifts received on behalf of other beneficiaries as liabilities rather than revenue since variance power is not granted to BGCT. Agency transactions not yet distributed at year-end are included in accounts payable and accrued expenses. The table below shows the amount of gifts received on behalf of other beneficiaries in 2012 and 2011.

| | 2012 | 2011 |
|---|---|---|
| Southern Baptist Convention: | | |
| Cooperative Program | $ 10,794,890 | $ 11,311,490 |
| Designated gifts | 14,734,355 | 15,823,771 |
| Cooperative Baptist Fellowship: | | |

| Designated gifts | 692,295 | 706,544 |
| BGCT WW to outside agencies | 265,630 | 570,756 |
| Other designated gifts | 717,326 | 500,476 |
| Total agency transactions | $ 28,227,224 | $ 29,961,389 |

## 16. COOPERATIVE PROGRAM RECEIPTS

Cooperative Program (CP) giving is a methodology allowing donors to support mission causes throughout the world. Churches and individuals send CP gifts to BGCT, designating which agency should coordinate the funds. BGCT received funding as follows for the years ended December 31:

| | 2012 | 2011 |
|---|---|---|
| Cooperative Program Receipts for: | | |
| BGCT – CP Texas | $ 32,066,417 | $ 32,735,315 |
| Southern Baptist Convention | 10,794,890 | 11,311,490 |
| Cooperative Baptist Fellowship | 1,022,728 | 1,048,352 |
| BGCT Worldwide Causes | 2,348,632 | 2,263,110 |
| Total Cooperative Program receipts | $ 46,232,667 | $ 47,358,267 |

## 17. BUA CONSOLIDATED FINANCIAL INFORMATION

As further discussed in Note 14, BUA received support, loans, and debt guarantees from BGCT in 2012 and 2011. In addition, BGCT nominates a majority of BUA's board of directors. As a result, BGCT has both control and economic interest in BUA. BGCT has chosen not to consolidate the financial statements of BUA as required under FASB ASC topic Not-for-Profit Entities – Consolidations due to BGCT's desire to show BGCT-only financial information.

## 17. BUA CONSOLIDATED FINANCIAL INFORMATION (Continued)

**Had the assets, liabilities, and net assets of BUA and BGCT been consolidated at December 31, 2012 and 2011 the consolidated statement of financial position (in summary format) would have included the following additional amounts, excluding elimination of balances described in Note 14:**

| | 2012 Unaudited BUA | 2011 Unaudited BUA |
|---|---|---|
| **Assets** | **$ 18,171,858** | **$ 20,345,879** |
| **Liabilities** | **10,075,661** | **10,149,852** |
