

Web Specialist, Communications

The Web Specialist posts compelling content across all sites and accounts, assists in the creation and maintenance of online donation, registration and product sales pages, and is responsible for basic web administration including domain registry, hosting and platform maintenance. Basic knowledge of HTML, graphic design, best practices and trends in digital communications, and the ability to read, write and edit copy is preferred. This position requires a bachelor's degree in digital communications or a related field, or an equivalent minimum of four years proven experience in a related role.
