

ALASKA USA MANDATORY PLAYER RESTRICTIONS 2017

History and General Information

In 2013, the United Softball Association of Alaska created a Restricted Player list to increase team and tournament participation in the upper men's and coed leagues. A similar method is used nationally to create parity among the higher divisions. Alaska USA leadership has adopted similar guidelines for the State of Alaska. Alaska USA ultimately decides who is considered a Restricted Player, and the list is revised before each season. In addition, for 2017 all Men's Comp players are considered to be Regulated Players. Teams must follow these regulations when building their teams with Restricted and Men's Comp Players. No team may exceed the maximum limit of Restricted Players allowable for their Division Class during either league or tournament play.

Alaska USA has drafted these guidelines based on the USA Code, National recommendations from USA Leadership, and an internal Alaska USA Committee. In addition, Alaska USA continually collaborates with local associations and team managers for feedback and input. This player rating system has created parity among teams in the higher divisions over the last several years and will continue to be utilized.

Player Restrictions for Coed

Class	NUMBER OF RESTRICTED ALLOWED	NUMBER OF Men's COMP ALLOWED
