

## GCSSA Volunteer Field Maintenance Program

Western Gateway Park owns our ball fields, but does not have the resources to maintain them to the standards we desire. Therefore, GCSSA over the years has assumed the task of field maintenance using our own donated money and our own volunteer manpower. "Our" fields are the nicest playing fields in Nevada County, and we all should want to keep it that way.

Maintenance tasking examples: Periodic infield watering, infield leveling, infield/outfield ridge removal, storage shed organizing, sun shade installation on fencing, foul line marking, encroachment line marking, etc.

If you are interested in volunteering to help with field maintenance, please send your contact information, days available, special skills or equipment (ie. irrigation, electric or tractor, mower, trencher, etc) to the GCSSA website or directly to the addresses below. More detailed information will be available during March sign-up sessions.

When you sign up for time and days that you can work and the work you prefer to do you will be provided with proper instructions for the job. We realize that you have other commitments and sometimes you will not be able to work the days and hours that you signed up for so please email us.

Send information to Dan House or Bob Swarthout
