Approved by the Board on Jan 4th after Tim left early at 6:50pm because he was duck hunting the next day.

Mr. Wagner,

Really? Nothing?

As to selection of time and location the board has nothing to do with that. You put it on the Website without asking anyone. You will take it down now. That time and place is up to me. As historically been the case. I know because I was never asked all the times I have served on the board and we are not going to start now just because you think so. Am I clear.

Hello Tim,  
I consider this part of item #8 of the current Feb 7th board meeting agenda. I do think the entire board should be involved in this matter. If you'd like to add it to the meeting agenda as a 9th item, I'm fine with that as well.

Thank you,

Mr. Wagner,

I thought I already indicated in an email to you that the manager's meeting was going to be held at a different date and location? Yet, I look on our Website and it is still posted on the dates you set. That meeting and location is my choice and I don't want it then and there. Please take that down and announce that time and place will be forthcoming. Thank you.
