

THE MASERATI SAFETY PLEDGE

To help prevent the spread of COVID-19, Maserati North America pledges to ensure the following operational protocols for your health and safety while engaging with others during this experience:

All staff will be required to wear face masks. We will follow state and local mandates, but we recommend attendees wear masks while on-site. We will provide masks for each guest.

Maintain social distancing by remaining at least 6 feet away from others and utilizing signage for guest positions in high-traffic areas (i.e. registration, bar service, restrooms).

Frequent and thorough handwashing and hand sanitizing is encouraged. Hand sanitizing stations will be available throughout the venue.

Maximum occupancy will be reduced to comply with local mandates. All guest seating will be placed 6 feet apart.

High-touch surfaces will be cleaned and disinfected frequently per CDC and FDA guidelines.

Food Service will consist of sealed, individual offerings to limit the spread of airborne contaminants. All catering and hospitality staff will wear face masks and gloves.
