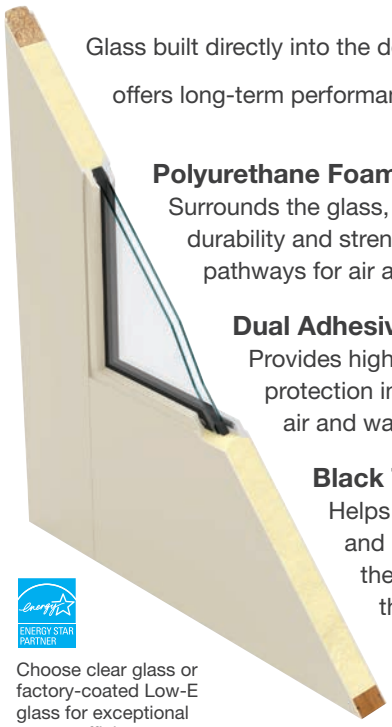
Long-Term Performance

Glass built directly into the door during manufacturing offers long-term performance.



Polyurethane Foam Core
Surrounds the glass, helping to provide durability and strength. Eliminates potential pathways for air and water.

Dual Adhesive Weather Seal
Provides high-performance protection inside and out to help prevent air and water infiltration.

Black Tape
Helps provide a clean sight line and prevent finish weep between the door and glass. Eliminates the need to mask or scrape – simply finish and cut tape.

ENERGY STAR PARTNER

Choose clear glass or factory-coated Low-E glass for exceptional energy efficiency.
