Classic-Craft®

Available in EnLiten™ flush-glazed only.

Fiber-Classic® / Smooth-Star® / Profiles™ / Traditions / Pulse®

Tru-Advantages

■ Market-driven design to drive your business.

- Capitalizes on market demand for simple, modern designs that incorporate texture and geometry.
- Rhythmic design is ideal for engaging customers, as it provides an intriguing perspective of changing patterns to draw the eye.
- Expands the popular privacy and textured glass category for the Classic-Craft®, Fiber-Classic®, Smooth-Star®, Profiles™, Traditions and Pulse® product lines with a distinctly modern design.

■ Aimed at creating sales opportunities.

- Geometric is our first glass design to feature texture on both sides of the glass panel, for an intriguing, multidimensional look that is highly engaging, with visual depth and an ever-changing perspective.
- The geometric texture is ideal for Contemporary and Modern home styles, and Geometric glass pairs perfectly with Pulse® flat profile lite frames for ultimate modern appeal.
- EnLiten™ flush-glazed designs – in which the glass is built directly into the door, with no need for a lite frame – offer a clean, seamless look and a wider daylight opening than conventional lite frames.
- Available in a wide range of glass shapes and sizes – including 6'6", 6'8", 7'0" and 8'0" doors and sidelites – to fit a variety of openings and welcome more natural light into the home, or offer greater privacy.

■ Therma-Tru® glass quality you can trust.

- The Therma-Tru® full-system offering delivers on decades of experience and know-how in door systems and glass.
- Included in our full-system lifetime limited warranty for peace of mind during and after installation.
- Triple-pane glass construction helps reduce outside noise, increase energy efficiency and provides a smooth surface that is easy to clean.
