

## Student arson suspected in campus fires

Two campus policemen treated for smoke inhalation; buildings 2,3,4,6,9 and 26 hit

By Jay Glass

Student-initiated arson is the suspected cause of a series of six separate fires in MIT's main buildings last night. The blazes drew two units of Cambridge firemen to locations in Buildings 2, 3, 4, 6, 9, and 26 shortly after 8pm Thursday evening.

No major structural damage was reported at any of the fire locations. "All of the damage was relatively minor," said Cambridge assistant Fire Captain Ralph Chapman.

No serious injuries resulted from the fires, but two Campus Policemen were treated for smoke inhalation. Policeman Bob Wynn was treated and released from the MIT Infirmary, but Policeman Clarence Henninger had to be

taken to Mt. Auburn Hospital for further treatment.

The suspicion of arson as the cause was confirmed by MIT Physical Plant Heat and Vent Mechanic Norm Canuel, who was repairing the sprinkler system in Building 26 after the fire. "All of the fires were of a suspicious nature," confirmed Chapman. He continued, "the MIT pranksters are at it again." Another fireman complained, "those kids endangered the lives of hundreds of students."

Damage was heaviest in a group of offices on the second floor of Building 6. "The fire pretty well gutted out the whole area," according to Campus Police officer Francis Leary. Eyewitnesses reported heavy ceil-

ing damage, piles of debris, and a broken ceiling vent around room 6-232. Charred walls and a ruined carpet were reported in room 4-156 after the fire there was set in the sofa.

Small damage was found at the other fire scenes. A trash can fire in a men's room, 26-104, was discovered and extinguished before the fire could spread. According to Leary, bulletin boards were kindled in three locations: the third floor corridor of Building 3, the second floor corridor in Building 2, and the vestibule between buildings 9 and 33. Damage was reported as light in each area.

The Campus Police currently have no suspects. "It's still under investigation," noted Leary.

Room 6-232 was one of the more heavily damaged areas in last night's rash of fires. (photo by Alan Lichtenstein)

## Mondale announces visit plans; will speak at MIT September 25

By Steve Solnick

Vice-President Walter Mondale will deliver a "major address on education" in Kresge Auditorium at 9am Thursday morning, September 25.

The Vice-President's visit was announced yesterday by Walter Milne, Special Assistant to the Chairman of the MIT Corporation. Milne said that the Mondale staff contacted Chairman of the Corporation Howard Johnson to request the MIT forum for an address on "excellence, higher education, and the future of America."

Milne said the speech at MIT would be a part of a three-day political swing through New England by Mondale. Further details of the trip have not yet been announced. Milne said that Mondale's staff stressed that the MIT address would not be a political speech. "He will be speaking here as the Vice-President," Milne explained. "The Vice-President is always welcome here. Political campaigners would need to come under somebody's auspices."

Although Mondale's visit occurs the day before Paul Gray '54 is to be inaugurated as president, the address is not an official part of the Inaugural Activities. Inaugural symposia which had

been scheduled to begin on Thursday at 9:30am have been rescheduled for later that day to allow for the special 9am address.

Vice President Walter Mondale will deliver a major address at MIT on September 25.

Milne said that an "arrangement committee" would be formed to look at "how we can cope" with the Vice-President's visit. Specifically, the committee will examine the need for tickets as a means of estimating the size of the crowd. Organizers fear that the early hour of the address may cut into the size of the audience.

Milne said he expects a certain attendance from other colleges as well as MIT.

Mondale is no stranger to MIT as he served for a number of years on the Corporation's visiting Committee for the Political Science Department when he was a Senator. Mondale will fly into Logan on Wednesday and spend the night in Rhode Island.

The last Vice-President to visit MIT was Hubert Humphrey in 1969.

## Eight freshmen still in limbo; Holiday Inn option offered

By Stuart Gittow

Four of the twelve freshmen still without permanent housing assignments can expect to move into the undergraduate dormitory system by Saturday, according to Barbara Chuck, administrative assistant in the Dean's Office. There will be a meeting today at 3:30 in Dean Robert Sherwood's office to discuss the options open to the eight still in limbo.

The five freshmen presently living in the Non-Resident Students Association (NRSA) house and the seven in the basement of Ashdown dormitory have been awaiting their permanent housing assignments since last week.

One of the options available to the freshmen is to take a room, at Institute expense, at the Holiday Inn on Massachusetts Avenue beginning this Sunday. Those upperclassmen who might prefer such accommodations for a tem-

Housing Dean Robert Sherwood will meet with remaining limbo freshmen today to discuss their options. (photo by Steven Solnick)

porary period, and would allow a freshmen to live in their dormitory room, should contact the Dean's Office. (Ed. note: See letter, page 4.)

One freshman currently living in the basement of NRSA expressed an interest in living at the Holiday Inn. Asking to remain nameless, he commented, "it's got

to be better than Ashdown; nothing could be worse." He did express some doubts about transportation. The freshman also said he was concerned about travelling to and from the Institute, however, pessimistically saying, "I'm going to have to give up all extra-curricular activities."

One of the freshmen awaiting a permanent assignment approached the Dean's Office with the name of an upperclassman who was willing to crowd with him. This idea was given to the other freshmen still in limbo, according to Chuck, who also pointed out that both members would receive a rent reduction.

The parents' reaction, said Chuck, has been "very understanding, but concerned." She quoted one parent, who said, "It's good in that it shows him [the student] that things don't always go as expected," to which Chuck commented, "I couldn't agree more."

## Bldg. 39 occupancy uncertain for SIPB

By Randy Haskins

The office and facilities of the Student Information Processing Board (SIPB) may be moved from their present location in Building 39 to make room for a very large scale integrated circuit (IC) fabrication lab. Presently, all MIT-designed IC's are built outside of the Institute.

According to Allen Wechsler, secretary of SIPB, the proposal is in the preliminary planning stage. There has been no indication where SIPB would be relocated. Wechsler's major concern was that the many facilities of SIPB be left on campus to remain accessible. Not only are the terminals important, but also the supporting environment: printers,

card readers, and other hardware; also, consultants, documentation, and administrators, according to Wechsler.

In a letter sent to President Gray '54, SIPB chairman William York, cited that the Board funded almost one thousand applicants last term, with a large percentage of them for text processing. He said he expected increases to continue as more people learned of the service. York also stated that the goal of the continued easy access to computers should be kept in mind throughout the decision process. He said that a good deal of SIPB's current success as a consultation service is due to its central location.

# Inaugural schedule set

The completed ceremonial platform stands ready for Paul Gray's inauguration September 26 (photo by Kevin Osborn)

By Kenneth Snow

Fifty undergraduate and fifty graduate students will participate in the inaugural academic procession on September 26 when Paul E. Gray '54 will officially be inaugurated as the fourteenth president of MIT.

The undergraduates will be represented by the officers of the Undergraduate Association, two representatives from each dormitory, and one representative from each independent living group or fraternity. The fifty graduate students will be comprised of the Graduate Student Council and other students nominated by their departments.

The system for inviting students to march in the procession was devised by the Inaugural Committee, which has four student representatives.

Although Gray assumed the President's duties on July 1, the actual ceremony is scheduled for 11am on Friday, September 26. Classes will be canceled on Friday from 10am to 1pm to allow both faculty and students to attend the ceremony.

The academic procession will serve as the opening of the inauguration ceremonies. The procession will start on the steps of Lobby 7, walk up Massachusetts Avenue, turn onto Memorial Drive and end at Killian Court. The procession will include a wide cross section of people from both inside and outside the MIT community. According to Professor Kenneth Hoffman, chair of the 20-member inaugural committee, the total procession should number approximately 700.

James R. Killian, Jr., President Emeritus and former chairman of the Corporation, will present the opening address. The investiture will be conducted by Howard W. Johnson, chairman of the Corporation, and by Presidents Emeriti Killian, Julius A. Stratton, and Jerome B. Wiesner. Gray will deliver the inaugural address. The invocation will be delivered by Virginia Gray Army, Gray's eldest daughter and a divinity student at Yale. Musical entertainment will be provided by the MIT Concert Band, the MIT Choral Society, and the Brass Choir. There will be no speakers from outside the Institute.

On the following Saturday evening, the inaugural ball will be held in the Student Center. The ball is a "black tie optional" semi-formal affair and students are encouraged to attend. On Thursday evening, before the inauguration, there is an inaugural concert. Due

## TASTE THE BEER THAT OUTSELLS MOLSON GOLDEN IN CANADA: LABATT'S.

Good news!  
Labatt's, Canada's No. 1 selling beer, is now imported to the U.S.  
So, now it's easier to compare the taste of our Labatt's with the brew of our friendly competitor.  
See what you think.  
We, like most other Canadians, prefer a bottle of Labatt's Beer over a Golden.  
If we didn't, we'd likely be drinking Molson® instead—and we certainly wouldn't be running this ad.

## World

**Shah believed U.S. in on Khomeini takeover** — In the posthumously published American edition of his memoirs, the Shah of Iran suggests that a United States Air Force general dispatched to Tehran in the final days of the Shah's regime worked with an Iranian officer described by the Shah as a "traitor" to pave the way for the takeover in Iran by Ayotallah Khomeini early last year. There has been no immediate U.S. response to these allegations.

**Pope looks for "sinless" birth control** — Pope John Paul II has assembled the world's leading family planning experts to give scientific credence to "sinless" birth control methods that are presently sanctioned by the Roman Catholic Church, according to Vatican sources. The announcement of this meeting comes after another denouncement of birth control by the pontiff.

**Syria and Libya merge** — In a 14-point proclamation issued in Tripoli and Damascus, Syria and Libya proclaimed their intention of forming a unified arab state, intended to "be the base of confronting the Zionist presence and a means of liberating Palesting." The document outlined the principles of the new state without going into details about how it would function. Both Syria and Libya had attempted mergers with other Arab states in the past, and were unsuccessful. The merger comes at a time when the two nations are relatively isolated in the Arab world.

**Atomic fuel sale vetoed** — Both the Senate Foreign Relations Committee and the House Foreign Affairs Committee voted to reject the Carter Administration's projected sale of 38 tons of enriched uranium to India. The double defeat came despite intense lobbying by Secretary of State Edmund S. Muskie, who maintained that the sale was needed to maintain cordial relations with India and to retain some influence on India's nuclear policy.

**Moscow aid said by Poland** — Polish workers in cities and towns across the country continued to defy the new Government's pleas to return to work. While Polish Prime Minister Mieczyslaw Jagielski flew to Moscow yesterday for talks with Soviet leaders, dissident sources and the official press agency, PAP, listed more than a dozen locations where workers remained on strike. Most strikers were seeking not only the independent trade unions won last month by strikers in Silesia and Baltic ports, but also the redress of local grievances. It is likely that the smaller strikes might last for some time.

**Chinese deputies appointed** — As part of an effort to strengthen and rejuvenate the aging leadership, three new Chinese Deputy Prime Ministers were appointed Wednesday by the National People's Congress. The average age of the three men is 66 years of age, however, suggesting that Chinese authorities continue to have difficulty finding and appointing a younger generation of leaders despite widespread talk of abolishing the system of lifetime tenure for officials. Earlier in the day, the Congress also formally elected Zhao Ziyang as Prime Minister to replace Hua Guofeng, who remains party chairman. The shift had been rumored since early this year, authenticated when Hua announced his resignation from the Government post on Sunday.

**Pen pal for Khomjini?** — Big Bluey, a cartoon character in the public television show "Big Blue Marble," periodically invites kids to write in to the show for pen pals. Since the segment has run, more than 900 requests have come in for pen pals from, of all places, Iran. So far the producers of the show have only been able to accomodate 200 of the requests for Iranian children, but they hope to match more soon. As yet, no one has requested to write to the Ayatollah Khomeini, Iran's most influential kid.

## Nation

**Carter rejects debate compromises** — President Carter's campaign staff rejected two new compromise proposals for a debate to include independent candidate John Anderson. Both Republican candidate Ronald Reagan and Anderson assailed the President's decision, and proceeded with plans for a two-way debate between the independent and the GOP member. One of the rejected proposals, from the League of Women Voters, involved a three-way debate, followed at a later date by a two-man debate between the two traditional party candidates. The Reagan campaign had proposed a round-robin series of two-man debate, Regan vs. Carter, Reagan vs. Anderson, and Anderson vs. Carter. Federal Reserve chairman opposes tax cut — Paul Volcker, chairman of the Federal Reserve, opposed "general tax reduction programs" Wednesday, including those advanced in recent days by both President Carter and Ronald Reagan. In part, Volcker's opposition stemmed from his belief that any decision about a tax cut should be postponed until after the November election when "we can have a clearer view of the spending priorities of an Administration and a Congress for a period of time ahead." Volcker also maintained that no tax reduction should be considered until spending restraint is attained.

**Dope legalized** — The federal government announced yesterday that it plans to make tetrahydrocannabinol (THC), the active ingredient in marijuana, available as a pain reliever for cancer patients. Surgeon General Julius Richmond said that as of yet no system for distributing the controlled substance has been devised.

Steven Solnick

## Stop the world I want to stay on

For the last two weeks, every night before I've gone to sleep, I haven't said my prayers. I've blown up cities instead.

It's an addiction and I'm thinking of seeking professional help. Maybe professional help will seek me out after it reads this.

There's a machine downstairs. You put a quarter in a slot and six cities appear on a TV screen in front of you. Video missiles come screaming down from the top of the screen and proceed to decimate your land. You try to blow up the missiles by aiming ABM's at them and trying to set off chain reactions.

This is also the most popular game at Father's. You can't win any free games from it; you just get to fight against more and more missiles which fly faster and faster until not even a real B-1 bomber in the room would do you a bit of good. The screen turns different colors with each round, reaching for some subliminal visual trigger of vicarious thrills. After a few beers, the color changes alone are enough to send you howling to enlist in the nuclear air force.

I always feel a little guilty after playing this game at home. (It generally doesn't bother me much at Father's.) I mean, am I not having just a tad too much fun with something as serious as nuclear warfare? I noticed a headline in the *New York Times* the other day. "Chinese Premier says a Third World War is inevitable."

There is an article about space weapons and ray guns in this week's *Time* magazine.

A recent bestseller by two former NATO Commanders entitled *The Third World War* gives a day-by-day account of a limited Armageddon.

A regular section in *Aviation Week and Space Technology* magazine is entitled "Missile Engineering."

Doesn't it strike you we're being a bit too casual about the end of the world?

I have a *Scientific American* article sitting on my shelf written by two MIT professors which graphically describes the fallout patterns of three different kinds of nuclear attack by the Soviet Union.

At dinner last term I sat through a detailed discussion between two people who worked with Draper Labs. They spoke with glee about targeting mechanisms for the latest generation of weapons which have the capacity to obliterate *whatever* the eye is focused on.

My greatest fear in life is that, some day, someone in command will forget that what he is obliterating is not an ICBM on a television screen but a few million humans. My greater fear still is that that person will be a product of MIT.

The *Bulletin of the Atomic Scientists*, edited by Prof. Bernard Feld, moved its famed Doomsday Clock from nine minutes to seven minutes till midnight last January. It was the first change in six years.

Feld's editorial cited a decline in attentiveness about disarmament and an increase in escalatory rhetoric as the prime causes for the change.

Remember, that was before the latest round of Presidential Can-You-Top-This with the newly resurrected missile gap. And before Presidential Directive 43 which moves the US away from a policy of Mutual Assured Destruction in a nuclear war and postures us to engage in a protracted, limited nuclear war which could be won. And even before Presidential Directive 59 which details which citizens would be saved in the event of all-out nuclear holocaust.

Perhaps it's time for a new subject at MIT. 22.00001: Sanity in a Nuclear age. Thirteen weeks of reminding students, and professors, that nuclear war is not a TV game or a strategy session or a technological proving ground. It's a nightmare.

The next time you hear someone discussing missiles over breakfast, remind him of that.

## Too many upperclassmen

To the Editor:

After having read Tuesday, September ninth's edition of *The Tech*, I feel compelled to correct some errors and misconceptions evident in the article by Jack Link concerning the current housing situation, especially since I was seriously misquoted several times throughout the article.

Contrary to popular belief, the main cause of the current overcrowding is not due to the additional freshmen accepted by Admissions over their target. In fact, at the current time, the target of 1060 to 1075 has only been exceeded by 10 to 15 students at the upper limit. The actual freshman class size was 1088 today with seven "no-shows" still to arrive; so it could even drop to 1081.

The number of freshmen actually accommodated on campus exceeded my previous projections by about 56 students and is broken down as follows: thirty more freshmen than lower limit of target, nineteen fewer freshmen than projected moved into fraternities and independent living groups, and seven fewer freshmen than projected commuted from home.

The most significant oversight was in the return rates for returning upperclass residents. 48 more seniors, 36 more juniors, and three more sophomores returned than previously projected, totalling 87 unexpected upperclassmen needing to be accommodated. Over the past five years, the percentage of juniors returning as senior residents has increased from 78 percent to 91 percent, and sophomores returning as juniors has increased from 87 percent to 93 percent. Only the rate for freshmen returning as sophomores has stayed steady at 95 percent. Obviously the tight and expensive off-campus housing market has contributed to this. What was unexpected was the significant jump this year over last year's return rates (seniors jumped

from 86 percent to 91 percent, and juniors from 86 percent to 93 percent).

Clearly we need to recalculate our return rate projection formula to reflect these changes, and we also need to reconsider the projections for next year's freshman class, regardless of the prospect of an additional 352 beds becoming available next year when the house at 500 Memorial Drive opens. Our commitment must be maintained to use the new beds to allow us to reduce the overcrowding to a tolerable level for the fall term (approximately 50 to 75 which will dissipate through attrition before the spring term); and allow us to accommodate transfer students and readmits, especially those returning from the new leave of absence policy.

In reference to the students still in temporary housing, we have made arrangements to go into effect this Sunday to accommodate those freshmen in the Holiday Inn on Massachusetts Avenue, at the Institute's expense, until spaces open up in the dorm system. In fact, it has been suggested that some upperclass residents might prefer to live in such hotel accommodations for a temporary period of time, allowing the freshmen to live in their rooms until further spaces become available. If any upperclassman is willing to make this offer, he should come to the Dean's Office as soon as possible.

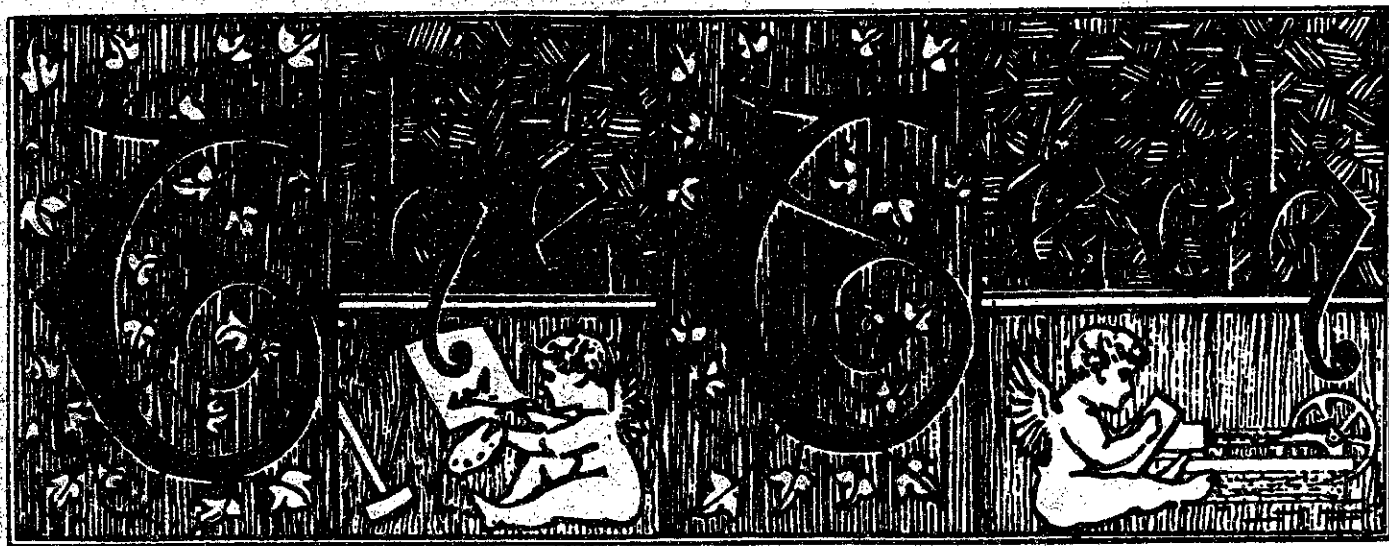

Finally, I want to express my most sincere appreciation to all of the students, parents, staff, faculty advisors, Dorm Con, and IFC and R/O members who have worked so hard over the past few weeks to help resolve the housing and personal adjustment problems of freshmen. It is certainly true that MIT is a community which comes together quickly and effectively in times of need.

Robert A. Sherwood  
Associate Dean for  
Student Affairs

# The Making of a Newspaper, 1881

*We cannot look far into the future. We cannot tell what buds of genius may be unfolded in these columns. But even if genius does not bloom; even if the beauties of rhetoric and poetry are not developed here; even if this paper becomes, like the school it represents, only a field for plain honest work - we shall nevertheless be sure that the efforts we make are stepping stones to further attainments, helping us all to the higher and nobler uses of our lives.*

## MIT students to receive free Inauguration tickets

(Continued from page 2)

to unexpected interest, the concert will also be given Wednesday. The Romanian String Quartet, with pianist John Buttrick and violinist Marcus Thompson accompanying, will perform pieces by Mozart, Beethoven and Franck.

Tickets will be available for the Inauguration, the Ball, and the Concert on Monday morning, September 15. Two free tickets are available to any MIT student for each of these events. On Wednesday, September 25, at 4:30pm, there will be a reception at the president's house on Memorial Drive. Hoffman noted that Gray was very interested in students' coming to the reception in an attempt to further involve

students in the inauguration activities. At 5pm there will be festivities in McDermott court. Details of the festivities were not yet available.

On Thursday, September 25, various student musical groups will be performing in different places on campus. Three symposia are also scheduled for Wednesday and Thursday. The symposia will have speakers from MIT, Harvard, Hebrew University of Jerusalem, University of California, Cornell, France, Scotland, and the United Kingdom. Exhibits commemorating MIT and MIT inaugurations past and present are now on display in the Compton-leries and in Lobby 7.

## SIPB move to be decided within a few weeks

(Continued from page 1)

William Dickson, director of Physical Plant, said that any decision on the move is about six weeks away. He noted that he wasn't very well acquainted with the issue, but that he would be briefing himself in the next few weeks. Dickson stated that a group is studying Building 39 to see if it is easily adaptable for the IC facility. If the report is favorable, a decision will be made as to where SIPB will be relocated.

## notes

The Massachusetts Safety Council will begin its 1980-81 Continuing Education series of Occupational Evening Seminars on Tuesday, September 9 at Valle's Restaurant, Route 9, Chestnut Hill, at 6:30pm. The topic for the evening, **Tunneling for Power**, will be presented by Carl C. Pierce, Director of Construction Safety Technology, Commercial Union Assurance Companies. The program will include a cash bar and dinner. For information or reservations contact Richard F. Schober, Program Director, Massachusetts Safety Council, at 523-1135. \* \* \* \*

The American Friends Service Committee (AFSC) will hold a forum on Iran, the Israeli-Palestinian Conflict, and the US Role on Wednesday, September 10 at 8pm at Friends Meeting House, 5 Longfellow Park, Cambridge. Speakers are Prof. Mary Anderson from the Ramsey Clark delegation to Iran, Palestinian economist Elias Tuma, and Everett Mendelsohn of the AFSC Middle-East panel. For more information call 661-6130.

# Boston Punk goes Under ground

Editor's note: this article is one of a series describing aspects of the Boston new wave scene.

Erratum: the last article in this series, describing Cantone's, contained a typing error. It should have read, "Cantone's has two bands per night, with two sets from each band."

The newest small club in Boston is the Underground. Because of intelligent management and booking, this club seems to consistently put together some of the best shows in town.

**Location**  
The Underground is at 1110 Commonwealth Avenue, near the corner of Brighton Ave. Take the #58 Boston College bus from Kenmore Square. Wave as you pass the Rat, and continue out Comm. Ave. for about 5 minutes. You'll pass B.U., and finally, with Clark and White's auto showroom on your right, the bus will bear left. This is your stop. Cross the street to the inside of the curve, and walk a few feet down Fuller St. The entrance to the Underground is on your left. The last bus back to Kenmore is around 12:45am, so if you don't want to rack up a cab fare or a long walk, you may have to leave after the third set.

**Physical Description**  
The Underground was originally a student lounge for the B.U. dormitory in the building above. Unfortunately, this doesn't allow easy translation into a well-designed club, but the owners have been making progress. There are two main rooms, one with a bar and booths, which is kept dark, and one long room with the stage at one end. There are a few tables and chairs in the room with the stage, but most of the

space is empty for dancing. One beautiful feature in the barroom is a wall which is covered with the most interesting and attractive wall posters from the past few years.

**Management**  
Underground management is progressive and fair to the bands. They often give new bands their first break, but also book the best bands from New York and elsewhere for all-star weekend gigs. There is a club employee at the door, but carding is generally light if you look like a student.

**Prices**  
Weekday door has usually been \$2, but a price increase to \$3 may be in the works. Weekends are \$3 to \$3.50, depending on the bands. The prices are often reduced as the night goes on. Drinks are too expensive, at \$1.25 to \$1.75 for a beer.

**Timing**  
The Underground has two bands per night, with two sets from each band. The

openers come on at 10pm, with the main act around 11pm. Second sets are at 12 and 1 am. The club closes at 2am.

**Audience**  
You'll find a pleasant college audience at the Underground including a lot of B.U. students.

Jon von Zelowitz

## ON THE TOWN

*Aguire, the Warth of God* will be shown by the MIT Foreign Languages and Literature Section on Monday, Sept. 15, in the room 6-120. Admission is free and open to the public.

The magic in the air as *The Boston Shakespeare Company* opens its sixth season with *Macbeth* (starting Sept. 10) and *The Tempest* (starting Oct. 8). Subscription memberships for the 1980-81 season are available. For tickets and information, call 267-5600.

The American Repertory Theatre's first production of the fall season is Shakespeare's comedy, *As You Like It*, opening Sept. 11 and running through Oct. 18. For information, call 547-8300.

*The Last Minstrel Show*, a full-scale musical production, will have its pre-Broadway tryouts at the *Charles Playhouse* beginning Sept. 16. Performances Tues.-Fri. at 8pm; Sat. at 6:30 and 9:30pm, Sun. at 3 and 7:30pm. For information and reservations, call 426-6912.

The Cantata Singers, John Harbison, music director, will open their 17th season on Nov. 12 with a concert featuring Cantatas 78 and 79 by J. S. Bach. For more information, call 625-7410.

Off the Wall presents a double opening on Sept. 3. Off the Wall (cinema) returns to Central Square at 15 Pearl street and presents *Off the Wall*, the movie. Visible proof that a big budget and established stars aren't necessary to produce an intelligent, entertaining feature, the movie runs daily at 6:20, 8:10, and 10pm, plus 4:30 Sat. and Sun., and midnight Fri. and Sat.

Off the Wall's Alternative Family Cinema presents *The Puppetmasters*, a series of five films by award-winning filmmakers and artists using puppets, or three-dimensional animation. Shows Sat. and Sun. at 12, 1:30, and 3pm; admission is \$1 or 75¢ for members. For information, call 354-5678.

**This week's LSC lineup:**  
*The Great Dictator* (classic): Fri. at 7:30 in 10-250  
*Animal HOUSE*: Fri. at 7 and 10 in Kresge.  
10: Sat. at 7 and 10 in Kresge.  
*Cabaret*: Sun. at 6:30 in 26-100.

**Earthlight Gallery**, in cooperation with the National Geographic Society, is proud to present an exhibit of 76 spectacular paintings by internationally known artists commissioned to illustrate a new picture atlas, *Our Universe*. The exhibit runs Sept. 14-Oct. 25. Hours are 11am-6pm Tues.-Sat. For more information, call 266-8617.

## I was Raised A Catholic, but . . .

"I was raised a Catholic, but I left the Church."

Boring sermons...talk about money all the time...someone telling me how to think...everything seemed so irrelevant...empty ritual...my parents' faith, not mine.

Every day men and women who were "raised Catholics" decide that their conception of God seems somewhat different than that of the Catholic Church. They ask themselves the question, "Why go to church? and often they find the answer supplied them by their parish priest or parents — "Because it is a sin not to" — to be quite inadequate. So every day people who genuinely seek God in their lives take one last look at their old parish church and decide never to go back to that one or any other.

Being raised a Catholic is not a uniform experience: many of us have fond memories of excellent teachers, open-minded and lovable persons able to articulate in word and action what Catholicism means. Yet, there are others whose experience of Catholicism has been negative. Questions they had were either misunderstood or answered with insensitive doctrinaire salvos. Morality seemed to be a set of arbitrary rules.

At MIT many people of the Catholic tradition compare this with the dynamism of modern science's search for truth and the bright hopes for the world in new technology. The Church that claimed to have life seemed only dogmatic and opinionated.

The Church that claimed to hold life within it seemed to be a dying dinosaur irrelevance.

The problem, though, is not so much the Church, but our conception of it. The Church is not just a building, a particular priest, nor even a collection of rules designed to prevent eternal incineration.

The Catholic Church consists, rather, of the people who together worship God, embodying Christ in their own epoch. Ideally this worship is a daily event flowing from hearts and minds both comforted and challenged by Jesus' own Spirit. At its best the Catholic Church is a collectivity in which the search for truth, openness to new ideas and love prevail.

If the Church consists of a body of people, the issue then shifts. How can people baptized into Catholicism become more alive in faith, hope and love? How can believers also become competent contributors to modern society, men and women awake to the key issues of our day, particularly as these issues present themselves in new scientific developments and the growth of technology?

"But this view of Church can't happen!"

We the Tech Catholic Community at MIT think it can happen and we seek to make this view of Church alive among ourselves and our non-Catholic friends and colleagues.

We invite you to take another look at the Catholic Church, as a body of people struggling emotionally and intellectually to both sustain a vision and bring it to bear in the modern world.

We are located in 313 Memorial Drive, telephone 3-2981.

THE TECH CATHOLIC COMMUNITY

# What makes Tech Hifi the best place to buy stereo?

Appliance stores and department stores are not the best places to buy quality stereo. You'll do much better at a stereo store.

The problem is, which stereo store? You're about to read why over 2 million music lovers have decided to buy from Tech Hifi.

## It's OK to pick our brains. (We know our stereo).

The salespeople at Tech Hifi know what they're talking about. They work at Tech because they love stereo, not because they love selling.

Our people keep up with all the latest equipment, and can tell you the differences among the leading brands.

## You get to play at Tech Hifi, not just look.

Some stereo stores have signs all over that tell you "Don't Touch The Merchandise".

At Tech Hifi our signs say "Come Play." We encourage you to spin knobs, push buttons, toss switches, and try out any of the components in our soundroom.

If you take enough time to play in a Tech Hifi soundroom, you'll get a good idea of which equipment sounds best in your price range.

*This \$189 system delivers good sound at a low price. The receiver is a TDC 1500 with T-Lock tuning that eliminates FM drift. The loudspeakers are compact, wide-range Studio Design 16's and the turntable is a multiple-play Collaro 1251 with a Philips cartridge.*

30-day price guarantee, 60-day defective exchange, 3-month full-credit swap (for any reason), and a 1-year loudspeaker trial.

Our guarantees are backed by the Tech Hifi Service Centers. If the equipment you buy from us ever needs service, we have trained professionals who will make things right. Fast.

## Our back-to-school sale

This is a good time to buy at Tech Hifi, because we're having our annual back-to-school sale.

You'll find complete systems on sale right now for as little as \$189, and lots of name-brand turntables, receivers, loudspeakers, and cassette decks are on sale as individual components.

Come in this week and listen to what your money can buy at Tech Hifi.

The best place to buy stereo.

## The buying power of the 65 Tech Hifi stores.

The reason why no store has better prices than Tech Hifi is no dealer buys quality components in such a huge volume as the 65 Tech Hifi stores.

You'll find our prices are as good as anybody's, and often better on some brands.

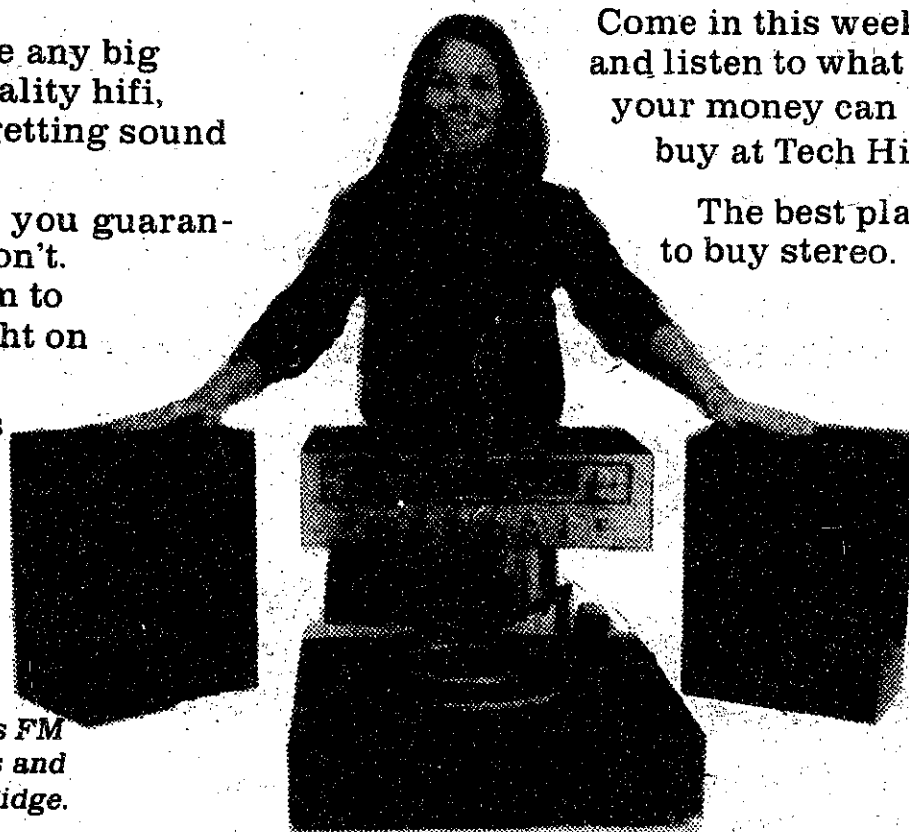

You might expect to pay extra at Tech for all the extra things we offer. But you won't.

## At Tech Hifi we back what you buy.

When you make any big investment like quality hifi, make sure you're getting sound guarantees.

Tech Hifi gives you guarantees most stores don't. And we'll give them to you in writing, right on your sales slip.

Our guarantees include a 7-day moneyback guarantee (no questions asked),

## Lectures

The **Cambridge Forum**, co-sponsored by the MIT Chaplains, announces their "Issues for Action" lecture series for this fall. All lectures are held Wednesday evenings at 8pm at 3 Church Street, Harvard Square, and are open to the public without charge. The schedule is as follows:

Sept. 17, "Will Southern Africa Explode?" Robert Rotberg, MIT professor of Political Science.

Sept. 24, "Should we Punish Civil Disobedience?" Dieter Georgi, Harvard Divinity School Professor of Biblical Studies; Alan Dershowitz, Harvard Law School Professor.

Oct. 1, "Should Lawyers Defend Unethical Clients?" James St. Clair, Harvard Law School Lecturer; Arthur Dyck, Harvard Divinity School Ethicist.

Oct. 8, "What is the next move for women Clergy?" Suzanne Hiatt, Episcopal Divinity School Associate Professor; Jessica Crist, MIT Chaplain; Barbara Harrington, St. John the Baptist Church Coordinator.

Oct. 15, "Should we regulate DNA and gene research?" Zsolt Harshanyi, Office of Technology Assessment; Shelton Krinsky, Tufts University Assistant Professor.

Oct. 22, "Should we grant legal rights to people living together?" Frank Sander, Harvard Law School Professor; Jane Cohen, attorney.

Oct. 29, "Should we continue to institutionalize affirmative action?" Albert Sacks, Harvard Law School Dean; Nancy Randolph, Special Assistant to the President of Harvard University.

Nov. 5, "Where does China go from here?" Ross Terrill, Harvard University East Asia Research Associate.

Nov. 12, "Should we decriminalize victimless crime?" William Homans, attorney, W. Arthur Garrity, Federal Judge.

Nov. 19, "How viable is zero-sum growth?" Lester Thurow, Sloan School Professor.

Dec. 3, "What is the future of religious power in Iran?" Michael Fischer, Harvard Associate Professor of Anthropology.

Dec. 19, "What are the prospect for employee rights?" David Ewing, *Harvard Business Review* Editor; Maureen O'Donnell, Chairman of 9to5 women's officeworker rights group; Harold Paige, Polaroid vice president of personnel.

## A world of careers in Aerospace for tomorrow-minded college graduates.

See our  
representative  
on campus  
Oct. 7

Our Denver Division has many new opportunities awaiting college graduates. Major facilities are located at Denver, CO; New Orleans, LA; and Santa Maria, CA.

### Careers Begin Here

If you're considering a career in aerospace, you won't find the challenge greater nor the work more rewarding than at Martin Marietta. Work in such exciting areas as Command and Information Systems, Solar Systems, Space Satellites, and Payload Integra-

tion. Overall, we have over 300 contracts including 4 major contracts over 150 million dollars each extending into the 1980's. They include the external fuel tanks for the Space Shuttle, Space Launch Systems, Titan, Space and Defense Systems including the new generation mobile Missile X.

### Opportunities Now

Within these areas are many entry-level growth positions that offer practical experience in the advanced state of the engineering art. Such fields as • Software • Test • Propulsion • Thermophysics • Structures • Mechanisms • Dynamics • Stress • Materials • Mission Analysis • Product Development • Industrial Engineering • Logistics • Integration • Systems • Guidance & Control • RF Systems • Communications • Data Handling • Power Systems • Payloads & Sen-

### sors • Quality • Safety and Manufacturing.

In addition to job opportunity the company's comprehensive program of employee benefits has a financial value equivalent to approximately forty percent of the employee's income. Included are: Company-paid insurance, performance sharing plan, retirement plan, vacation, education reimbursement and long term disability plan.

Interested graduates please contact Martin Marietta Aerospace. Attn: College Relations, P.O. Box 179 (#D6310) Denver, CO 80201.

Martin Marietta is an Affirmative Action Employer actively seeking the Handicapped and Veterans.

National Security regulations require United States Citizenship.

**MARTIN MARIETTA**

## Announcements

The next meeting of the **MIT Soaring Association** will be held on September 18 at 7:30pm in room 491 of the Student Center. Activities will include topics on soaring, the club itself, and an entertaining film. For more info, call Carl at 247-7775. Refreshments will be served, free and open to the public.

\*\*\*\*\*

A new course, 21.441, Far Eastern History: China, meeting Monday, Wednesday, and Friday in 14N-325, has been announced by the History Department. For more info, call x3-4965.

\*\*\*\*\*

Student poets are encouraged to submit original, unpublished verse to one of two independent contests. Cash prizes are available, and deadlines are around the end of October. For more information, write to the National Poetry Press, Box 218, Agoura, CA, 91301, or International Publications, P.O. Box 44927, Los Angeles, CA, 90044.

\*\*\*\*\*

**Mobilization for Survival**, a grass-roots anti-nuclear group, is having a fund-raising rummage sale Saturday, October 4, in the parking lot of the Old Cambridge Baptist Church, Cambridge. For more info, call 354-0008.

\*\*\*\*\*

**Mobilization for Survival** will soon be having its first fall general meeting. The meeting will be held at their office in the basement of St Peter's Church, at 13 Sellers Street, Central Square, Cambridge. Call 354-0008 for more information.

\*\*\*\*\*

Youth grants from the **National Endowment for the Humanities** are available in the form of up to \$2,500 for individuals and \$10,000 for groups. Intended primarily for students between 15 and 25, the awards are to fund independent work on the humanities. Guidelines and applications may be obtained by writing to Youthgrants, Mail Stop 103-C, National Endowment for the Humanities, Washington, DC, 20506.

\*\*\*\*\*

The **Charles River Skating Club** is now holding registration for a series of Ice Dance Workshops to be held Tuesday evenings, September 16 to April 14. Attendance is also possible on a single session basis. To register, call the Club at 876-0948 or 484-8161.

\*\*\*\*\*

The **MIT Women's League** invites all international women (especially wives of International Students) to register for English Conversation Classes on Tuesday, September 16, from 10am to 12 noon, in the Emma Rogers Room, 10-340. The classes provide informal instruction in the use of spoken English needed by all international women while they are at MIT. Classes are held on campus every Tuesday and Thursday (except holidays) during the MIT term. Classes begin at 9:15am, with refreshments served at 11am. The cost is \$25 per term, and beginner to advanced instruction is given. Babysitting is available for a small additional fee. Please call daytimes, 862-8690 or 253-3656, if you have any questions.

## Lectures

1960's activist **Jerry Rubin** will be speaking at Brandeis University on Tuesday, September 23, at 8 pm. Tickets cost \$4, and are available at Ticketron, Out of Town, and Brandeis Student Service Bureau. For more info, call 647-2167.

\*\*\*\*\*

The **American Friends Service Committee** will hold a forum on *Iran, the Israeli-Palestinian Conflict, and the US Role* on Wednesday, Sept. 10, at 8pm, at Friends Meeting House, 5 Longfellow Park, Cambridge. Speakers are Prof. Mary Anderson from the Ramsey Clark delegation to Iran, Palestinian economist Elias Tuma, and Everett Mendelsohn of AFSC Middle East panel. For more information, call 661-6130.

\*\*\*\*\*

*This is MIT: an alternative view*

will take place Sept. 16 at 7:30pm in room 9-150. The speakers include Noam Chomsky speaking on MIT and the current world crisis, Brent Cochran on tooling the MIT student, and a speaker to be announced talking about the affirmative action at MIT. Sponsored by the **MIT Socialist Group**.

\*\*\*\*\*

The **Massachusetts Safety Council** will begin its 1980-81 Continuing Education series of Occupational Evening Seminars on Tuesday, September 9, at Val-le's Restaurant, Route 9, Chestnut Hill, at 6:30. The topic for the evening, "Tunneling for Power," will be presented by Carl C. Pierce, Director of Construction Safety Technology, Commercial Union Assurance Companies. The program will include a cash bar and dinner. For information or reservations contact Richard F. Schober, Program Director, Massachusetts Safety Council, at 523-1135. The Massachusetts Safety Council is a private, non-profit educational and informational organization serving the community since 1919.

## Fall IM sports set to begin next week

By Bob Host

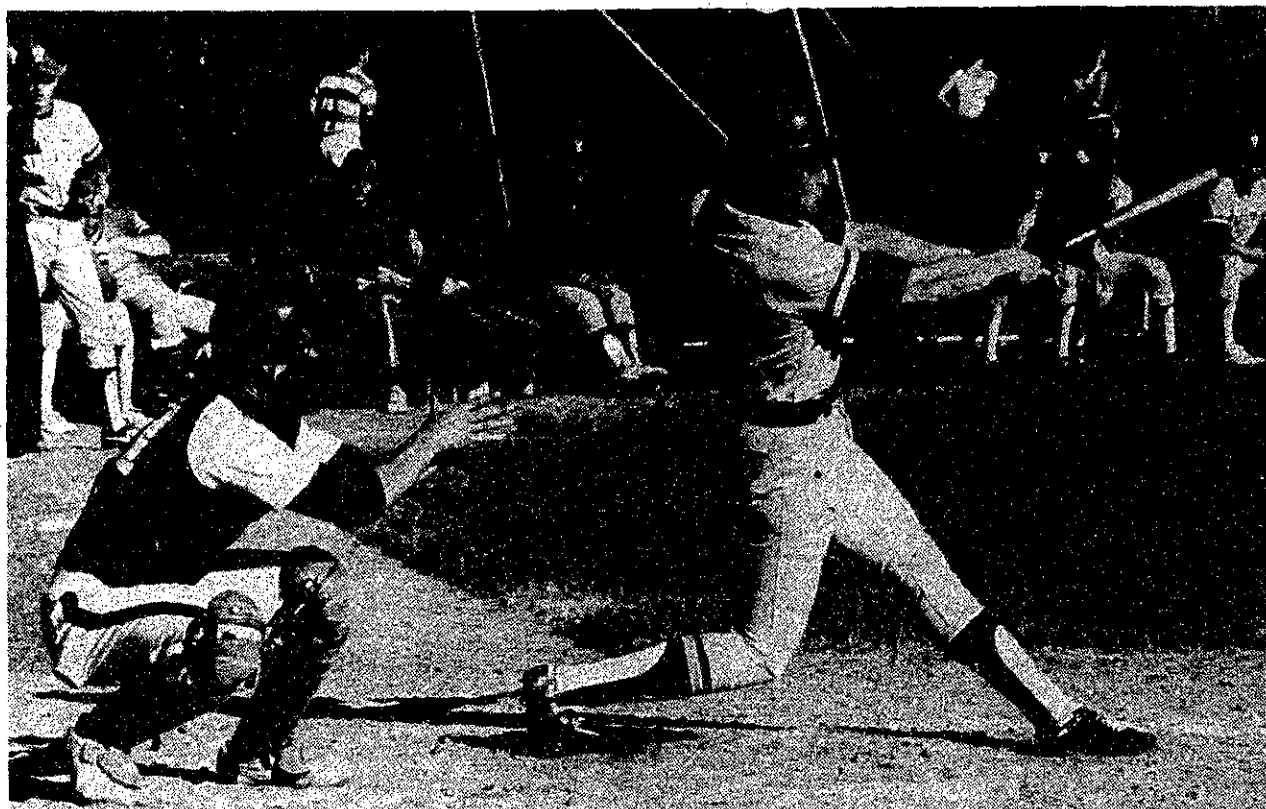

The fall intramural sports season will begin next weekend with competition in football, soccer, and badminton.

Football will have a mandatory meeting on Monday at 8pm in 4-370 for the team entries, with the completed roster due two days later in the IM office. There will be five leagues—A, B, C, D, and coed, with some rule modifications in effect for the lower three leagues. Football manager John Alam notes that a referee evaluator is needed, as well as referees from A and B league teams. A referee clinic is scheduled for next Tuesday at 8pm in 4-370.

The soccer entry meeting will be held concurrently with the football meeting on Monday, and

soccer rosters are due Wednesday at 3pm in the IM office. To prevent forfeits, 16 people are required on every roster, with B and C league teams encouraged to have at least 20. Paul Cunningham, IM soccer manager, has scheduled a soccer refereeing meeting for next Thursday at 8pm in 4-270, at which every team must be represented.

The badminton season will begin Sunday, Sept. 21 with A, B, and C leagues, manager Mary Munson announced. The entry deadline is 3pm Wednesday, and teams should consist of at least four people. Playoffs are possible, with racquets and birds to be supplied by the participating teams. Games will be held Sundays through Thursdays at 7pm and 8:30pm.

An MIT batter takes a cut in yesterday's baseball opener against Babson. (photo by Al O'Conner)

## Six named to athletic dept. posts

By Bob Host

The MIT athletic department recently announced the appointment of six new coaches for football, wrestling, hockey, cross country, track, soccer, men's gymnastics, and women's crew.

Timothy Walsh, former wrestling coach at Amherst, has joined the staff as head wrestling and assistant football coach. He had also served as Amherst's freshman football coach.

Joseph Quinn, former hockey coach of Eastern Collegiate Athletic Conference Division III, joins MIT as its new hockey coach. Quinn had been captain of the Boston University hockey team.

Clifton West joins MIT as assistant track coach, and will become head cross country coach next fall. Previously, he had set a national high school record for the mile with a time of 4:09.0 in 1968.

Belmont native Gregory McManus joins the staff as freshman soccer coach after graduating this year from Norwich University. In addition to soccer, McManus played hockey while at Norwich.

Robert Horwitz will become men's gymnastics coach, having served at the University of California Medical School as head instructor for trampoline and beginning gymnastics.

Doug Clark, formerly freshman heavyweight crew coach at the University of Pennsylvania, will take over as women's crew coach at MIT. Clark has coached crew for over 18 years.

## These two TI calculators can help you handle courses in math, in science, or business. Now, and in the real world.

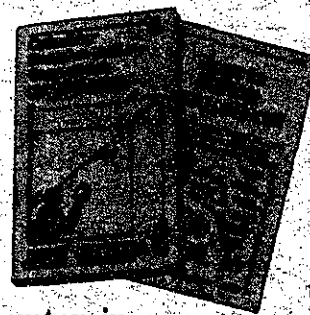

One real-world lesson you'll learn in school is the importance of productivity. Time you spend doing the math part of the problem is time you can't spend learning concepts.

A Texas Instruments professional calculator will help make your study time more productive. And it can also help you move into the world of a professional. A world where knowing the concept is only part of the solution. Bringing out the answer requires a working knowledge of a powerful personal calculator.

Economical TI Business Analyst-I with Statistics and advanced busi-

ness functions.

Pre-programmed with business functions for time-value of money, statistics, profit margin. And other problems you'll encounter in business school. Other capabilities include percent, squares, logs, and powers. Its 140-page book, "Keys to Money Management" (a \$4.95 value), has step-by-step instructions plus sample problems. It's an extra value with every BA-I.

The TI-55 advanced slide rule with statistics and program-mability.

This capable calculator has AOS™ easy entry system, statistical functions, 10 memories, 9 levels of parenthesis, trig, powers and roots, plus program-mability. Its book, "Calculator Decision Making Sourcebook" (a \$4.95 value), helps you get all the power pre-programmed into the TI-55.

See the whole line of TI calculators at your college bookstore or other retailer. \*Trademark of Texas Instruments Incorporated.
