

Baker Memorial Posts Now Open For Nominations

Seniors, Graduates Fill 5 Man Foundation Comm. To Perpetuate Ideals

With the Everett Moore Baker Memorial Foundation campaign now getting into full swing, the founding group of The Foundation has announced that it is ready to receive nominations for the first permanent Foundation Committee.

As set up in the Charter and By-Laws of the Foundation, this committee shall be "composed of four Senior Members and one Graduate Member, all students at M.I.T. The Senior members shall be juniors at the time of selection. The Graduate Member may be either a senior or a graduate student at the time of selection. The Graduate Member shall at some time have been an undergraduate student at M.I.T."

Again referring to the By-Laws, "The basis for selection of Foundation Committee members shall be: (a) an understanding of Dr. Baker's ideals. (b) Possession and exhibition of those traits of character which Dr. Baker exemplified in his own living i.e.—

1. An awareness of individual and group responsibility.
2. Maturity of judgment and sensitively perceptive feeling.
3. Demonstration of leadership qualities.
4. Capacity for, and willingness for, prolonged and intensive work.
5. Courage to carry out his ideals."

Selection of Members

This basis leaves the possibility of nomination open to any student at the Institute. All nominations are, in the future, to be carefully reviewed and considered by the Foundation Committee. However, since there is as yet no Foundation Committee, this year's selection will be made by the Founding Group, consisting of about forty students and recent graduates who were the initial driving force behind the Foundation and have directed its

Queen Gloria Sepp Rules Tech's-a-poppin' Weekend

Photo by Hall

Meet Gloria Sepp, Queen of the 1950 Tech's-A-Poppin, shown with her date, Thomas Cauley, '52. She is from Jackson Heights, Long Island, and is a receptionist at the Shell Oil Company of Manhattan in New York City.

Gorgeous Gloria, a graduate of Newtown High School, Elmhurst, New York, studies art. She also enjoys working with fashions, and designs most of her own clothes. Her hobbies include painting and skiing.

Tom Cauley, her escort, lives at the Pegis Club as does her brother, Oscar Sepp, a freshman at the Institute.

President Killian and a panel of administrative experts chose the queen from a group of girls selected by the preliminary judges at the TP dance last Friday night.

Christmas Spirits Will Enliven Walker For Dormitory Dance

Featuring music by George Graham and his orchestra, the Dorm Christmas Formal will be held in Walker Memorial on Saturday night, December 9.

Refreshments, including brandied egg nog, and intermission entertainment provided by Marvin Burns and company, will fill out the evening. Dance decorations will be in the Christmas motif, and will include a large Christmas tree as a central feature.

Tickets to the dance will be limited, to insure ample room for dancing. They cost \$1.80 per couple, and can be purchased from any member of the Dormitory Committee.

A.A. COMPETITION

A competition for freshman treasury assistants in the Athletic Association will be held today and tomorrow between 4:00 and 6:00 p.m. at the A.A. office in Building 18.

Deutsch Leads L.S.C. Forum

Next in a series of monthly philosophy forums, "Education for Freedom," will be presented by the Lecture Series Committee on Thursday, December 7. The discussion will concentrate on the aims of education in any free society, and the success of our present educational system in carrying out these aims will also be evaluated.

Speakers at the forum will be: Julius S. Bixler, President of Colby College; Professor Crane Brinton of Harvard; Joseph Keenan, Professor of Mechanical Engineering at the Institute; and President James R. Killian, Jr.

President Bixler is a former dean of the Harvard Divinity School. He will probably connect the topics of religion and education in the discussion as he did in his book, *Resources of Religion and Aims of Higher Education*. Crane Brinton will present the historian's point of view as he did in his book, *Ideas and Men*. President Killian and Professor Keenan need no introduction to Technology students, and have had an active voice in the field of education for many years.

Deutsch Will Moderate

Moderator of the program will be Karl W. Deutsch, Professor of History at the Institute. His views have been partially expressed in the pamphlet, "Higher Education and the Unity of Knowledge."

The forum is being held in Room 10-250 at 7:30 P.M. Several other Institute professors will participate in the discussion, and there will be a question period following the discussion.

Demand For Engineers Exceeds Supply, Says U. S. Labor Department

That there is a shortage of engineers in the United States was reported Monday by the U. S. Department of Labor's Bureau of Labor Statistics. Industry, even after employing 1950's record class of 50,000, could still have absorbed more engineers.

M.I.T. Musical Clubs Combine To Present "Creation" By Haydn

By RICHARD J. POWELL

This Friday evening, December 8, the Musical Clubs of M.I.T. are presenting Joseph Haydn's "The Creation" in Jordan Hall. To perform the oratorio are the combined chorus, composed of members of both the Glee Club and Choral Society, and the Symphony Orchestra, with Willabelle Underwood, soprano, Gene Cox, tenor, and Paul Matthen, bass, as soloists.

"The Creation" has been termed by many musicians as Haydn's masterpiece, reaching the pinnacle of the composer's creative effort, and ranking in this respect with

TICKETS

Tickets for the Friday concert are priced at \$2.40, \$1.80 and \$1.20 and will be sold in Building Two at the entrance to the Library today through Friday from 10:00 a.m. to 4:00 p.m. Tickets are also available at the TCA and the Jordan Hall box office.

Bach's Mass in B minor, Handel's Messiah, and Beethoven's Ninth Symphony. Haydn worked the best part of eighteen months on "The Creation," making innumerable sketches, revising, and editing, before attaining the final perfection which he sought.

Presented to Handel

A combination of Genesis and Milton's Paradise Lost provides the text for the oratorio. Actually, this text was put together for George Handel, but Handel never had the opportunity to compose the music for it. The British impresario Salomon, who arranged both of Haydn's sojourns to England, is generally regarded as responsible for having presented this libretto to the composer.

The first performance of "The Creation" was a private hearing for a select number of Viennese society; it took place on April 29, 1798, with Haydn himself conducting.

A.S.M.E. Social Offers Movies, Bowling, Beer

Plenty of beer, at least four bowling alleys open free of charge, and movies, probably cartoons, are offered by the A.S.M.E. Thursday evening, December 7, at their first social event of the year.

The party will be a very informal student-faculty get-together. Starting at 8:00 p.m., it will be held in the 5:15 Club Room. Tickets for the affair (members: \$.50, non-members \$.80) may be purchased today in the lobby of Building 5, or at the door Thursday evening. Members of the Faculty may obtain tickets from Miss Mannis in Professor Soderberg's office.

In January of 1950, employers reported to the Engineers Joint Council that they expected to hire fewer engineering graduates in 1950 than they had in 1949. But increased defense production and the mobilization of the Armed Forces created a demand for engineers far exceeding the available supply.

The Labor Bureau's Occupational Outlook Summary indicates that engineers will continue to be in demand for many years. According to reports of 1950 freshmen enrollments submitted to the U. S. Office of Education and the American Society for Engineering Education, the class of '54 will produce only 17,000 engineers. This number is below the average peacetime demand and considerably below the present-day needs.

The decrease in engineering students is attributed to the drop in enrollments of veterans. It is possible that the draft will call many engineering students and thus increase the shortage.

GOING DOWN

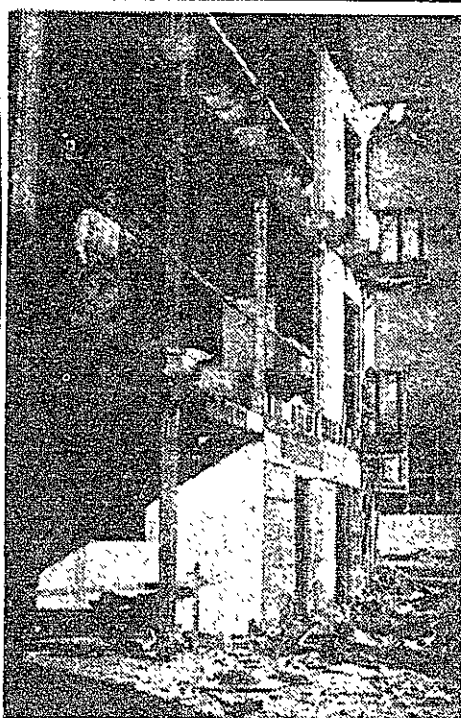

Photo by Cohen

Above: Workmen engaged in the current beautification of Building 22. Continuing the job begun by former residents of the Plywood Palace, these men are removing seventy-five feet from the south end of the alleged building to make way for the new Dorrance laboratories.

Gymnasium Plans Include Ice Arena

Prospects of a new gymnasium, have been growing brighter, reports Professor Ivan J. Geiger, Director of Athletics. The new facilities, as proposed at the present time, will adjoin Rockwell Cage and Barbour Field House.

Although the plans have not been officially approved, the Department of Athletics hopes that Technology will have new athletic facilities in the near future, because the present equipment is becoming inadequate due to rapid growth of the school.

Professor Geiger also reports that President Killian is very enthusiastic about the inclusion of an artificial outdoor ice arena in the plans.

Miss Comstock Is Honored On 58th Year With Institute

By STEPHEN KLIMENT

A moving ceremony was held here at Technology not many weeks ago. Both Dr. Killian and Dr. Compton were present at the awarding of gold pins to 41 men and 25 women who had, some time between the beginning of the First World War and the beginning of classes at the Institute this fall, celebrated, to use a very apt analogy, their silver wedding anniversary with Technology.

They assembled to receive, from the heads of their Departments, this token of recognition and respect. It was pinned on those in their forties, whom it spurred to further effort; it was given to the fifties, who continued in their task with unrelenting zeal; the sixties were gratified that their work had not gone by unnoticed; and the seventies, well, we might well wonder what their thoughts were at the time.

One Office in 1892

Just now we mentioned silver wedding anniversaries. We apologize. Miss Julia Comstock recently completed her 58th year at the Institute. She came here in 1892 in the days of General Walker in order to take up a temporary job in the

Office. Today we have the President's Office, the Registrar's Office, the Deans Offices, the Admissions Office, and various others. In those days there was just The Office, with 4 female assistants, one telephone and a typewriter.

Official notes and student records were carefully penned by hand. Miss Comstock has served under 10 presidents, and was the last person at the Institute to see President Walker alive.

Assumes Research Duties

She was assistant to Dr. Tyler, the Secretary, till 1902, and as assistant to Mr. Walter Humphreys witnessed the moving of the Institute from Boston to Cambridge. Miss Comstock worked in the Registrar's Office under Mr. McKinnon from 1922 till 1942, when she left it to devote all her time to the research, study, and arrangement of the Institute's historical records. She has organized, and keeps up-to-date a catalogue with biographies and photographs of all the members of the Corporation, Faculty, and Administrative Staff since, and by no means excluding, the Founders. A remarkable achievement, of inestimable value to anyone writing a History of the Institute.

CALENDAR OF EVENTS

DECEMBER 6 TO DECEMBER 12, 1950 WEDNESDAY, DECEMBER 6

Aeronautical Engineering Department, Mathematics Department, and Mechanical Engineering Department. Fluid Mechanics Seminar: "The Motion of an Interstellar Gas Cloud: a Problem in Gas Dynamics." George C. McVittie, Professor of Mathematics, University of London, England. Room 2-349, 4:00 p.m.
Electrical Engineering Department. Colloquium: "The Role of Analogue Computers in Engineering." Dr. Ronald E. Scott. Room 6-120, 4:30 p.m. Refreshments will be served in Room 6-321 at 4:00 p.m.
Catholic Club. "The Relationship of Church and State." Reverend Alonzo McDonnell, C.S.P. Room 1-190, 5:00 p.m.
Inter-Varsity Christian Fellowship. "What has Jesus Christ Done?" James Nyquist, Inter-Varsity Staff Member. Room 5-104, 5:00 p.m.
Karoos Club. Meeting. Discussion of proposed intercollegiate matches and election of officers. Master's Suite Lounge, Baker House, 5:00 p.m.
Mathematics Society. Lecture: "Ergodic Theory and Probability." Dr. Warren Ambrose. Room 4-370, 5:00 p.m.
Varsity Squash Team. Match with Lincoln's Inn Society. Briggs Field, 5:00 p.m.
Freshman Basketball Team. Match with Boston University. Walker Gym, 6:30 p.m.
Varsity Basketball Team. Match with Boston University. Walker Gym, 8:15 p.m.

THURSDAY, DECEMBER 7

Civil and Sanitary Engineering Department. Senior Class and Faculty Tea. Emma Rogers Room, Room 10-340, 4:00 p.m.
Physics Department. Colloquium: "The Detection of Positive and Neutral Mesons and Their Production by Photons." Dr. Jack Steinberger, Columbia University. Room 6-120, 4:15 p.m.
Junior Varsity Squash Team. Match with Newton Squash and Tennis Club. Briggs Field, 5:00 p.m.
Tech Model Railroad Club. Business Meeting. Room 20E-214, 5:15 p.m.
Lecture Series Committee. Forum: "Education For Freedom." Moderator: Dr. Karl W. Deutsch, Professor of History, M.I.T. Speakers: Dr. James R. Killian, Jr., President of M.I.T.; Julius S. Bixler, President of Colby College; Crane Brinton, Professor of History, Harvard University; and Joseph Keenan, Professor of Mechanical Engineering, M.I.T. Room 19-250, 7:30 p.m. Admission free.
American Society of Mechanical Engineers. Student-Faculty Informal Party. 5:15 Club Room, Walker Memorial, 8:00 p.m. All Course II, members and non-members of A.S.M.E., are invited. Tickets sold at the door.

FRIDAY, DECEMBER 8

Biology Department. Applied Biophysics Seminar: "Methods and Results of Electromyographic Studies." Anneliese Madsen, Copenhagen, Denmark. Room 3-408, 4:00 p.m.
Mechanical Engineering Department. Seminar: "Design Problems in Supersonic Propulsion Wind Tunnels." Professor Nicholas Grossman. Room 3-470, 4:00 p.m. Coffee will be served in Mechanical Engineering Headquarters, Room 3-174, from 3:30 to 4:00 p.m.
Debating Society. Debate with Harvard. "National Resolution." Room 5-104, 5:00 p.m.
Freshman Squash Team. Match with Boston YMCA. Briggs Field, 5:00 p.m.
M.I.T. Musical Clubs. Concert. Haydn's CREATION. Professor Klaus Liepmann conducting. Jordan Hall, 8:30 p.m.

SATURDAY, DECEMBER 9

Varsity Rifle Team. Match with Boston University, Rifle Range, 1:00 p.m.
Varsity Wrestling Team. Match with Harvard University. Rockwell Cage, 2:00 p.m.

SUNDAY, DECEMBER 10

Society of Arts. Illustrated Lecture: "Digital Computers as Information Processing Systems." Mr. Jay W. Forrester. Huntington Hall, Room 10-250, 4:00 p.m.

MONDAY, DECEMBER 11

Aeronautical Engineering Department. Seminar: "Human Factors in Aircraft Design." Dr. Ross A. McFarland, Associate Professor, Harvard School of Public Health. Room 33-319, 4:00 p.m. Coffee will be served in the du Pont Room from 3:30 to 4:00 p.m. Open to Graduate Students and Staff.
Meteorology Department. Seminar: "A Generalization on the Theory of Large Scale Atmospheric Motions." Captain Philip Thompson, Geophysical Research Directorate. Room 12-182, 4:00 p.m.
Lecture Series Committee. Subscription Series: "India After Gandhi." Mr. Vincent Sheean. Room 10-250, 5:00 p.m.

ELEGY TO BUILDING 22
The sun was shining on the walls,
Shining with all its might,
It did its best to make the splintery
Woodwork smooth and white.
And that was scarcely odd; it was
A pretty mangy sight.
Dondero* and the Carpenter
Were walking close at hand.
They wept like anything to see
That moldy firetrap stand.
"If that old wreck were cleared
away,"
They said, "It would be grand."
"If seven men with seven saws
Sawed for half a year,
"Do you suppose," Dondero said,
"That they could get it clear?"

N.O.?/S.N.T.!

"I think so!" cried the Carpenter,
And gave a mighty cheer!
And so the word was passed around
for everyone to know,
And no one will you chance upon
Who hates to see it go.
And that is hardly odd; they should
Have done it long ago.
*M.I.T. Safety Engineer, Mark J. Dondero
And while we're in the (ugh)
poetic vein, get a load of this gem
which appeared recently on a
poster made up by the girls of
Mass. General Hospital:
"We are student nurses and we
hail from M.G.H.
We have a reputation for having
'What it takes';

Campus Interviews on Cigarette Tests

Number 8...THE SEA GULL

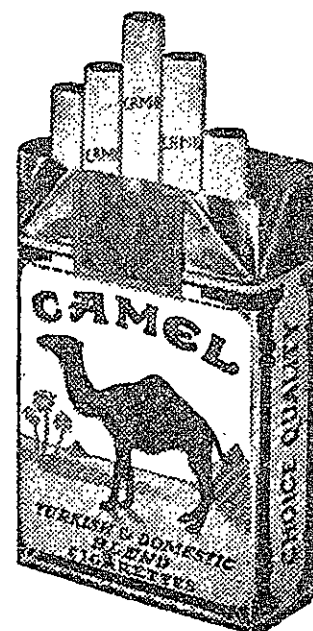

"I'm not as gullible
as I look!"

Maybe our little over-water friend is just fishing for
a compliment. On the other hand, he may have reference to
all these quick-trick cigarette tests you hear about nowadays.
Well, he's not the only one who's been at sea. Frankly, how can
you judge a cigarette by a swift sniff? Or another cigarette by one fast
puff. What's all the rush about, anyway? When it comes to
making up your mind about cigarette mildness,
we think you'd like to take your time.
That's why we suggest:

The sensible test—the one that you make on a day
after day, pack after pack tryout for 30 days. It's the
30-Day Camel Mildness Test! Simply smoke Camels—and
only Camels—for 30 days. Let your own "T-Zone"
(T for Throat, T for Taste) be your proving ground. When
you've tried Camels as a steady smoke, you'll know why...

More People Smoke Camels
than any other cigarette!

NO OPTION? SORRY, NO TECHNIQUE!
NO OPTION? SORRY, NO TECHNIQUE!
NO OPTION? SORRY, NO TECHNIQUE!

Technology Rifle Team Beats Harvard and Sets Two Records In Only Tech's-a-poppin Victory

The Tech varsity rifle team opened its season against Harvard with a bang on Saturday when it set a new Tech team and range record of 1419. Mel Bowers led the Beavers with a 286, while Alan Tanner, Herb Voelcker, Charlie MacDonald, and Arthur Auer supplied the other scores.

Although none of the individual scores was exceptionally high, the fact that all were over 280 demonstrates the balance, depth and latent potentialities of the squad. The total score fired was five points higher than the previous record of 1414, which was set last winter at the CCNY range in a match against Columbia and CONY. This new mark is only a scant ten points below the all-time national inter-collegiate record established by the University of Maryland in February, 1949.

High scorer for the Harvard varsity aggregation was Paul Shuttleworth, who headed his team with a 280. The Harvardmen turned in a total of 1364 points and should be one of the strong teams in New England.

The Beaver cubs duplicated the performance of the varsity squad by downing the Harvard freshmen with a 1325 to 1177 score. High scorer Eriksson, along with Crewe, Reichard, Rane and Burnham, should fill many of the holes caused by graduation in next year's varsity team.

Technology Hoopsters Drop Opening Contest To Harvard By 60-41

REBOUND

Tech's Marion Manderson (12) takes rebound from Harvard's Bill Hickey in last Friday night's game. Beavers Herb Glantz (17) and Mike Nacey (35) can also be seen.

Engineer Pucksters Drop Opening Game To Tufts Sextet 6-1

Last Saturday afternoon at the Boston Garden the Beaver hockey team opened its season against Tufts with a 6-1 loss. The Tufts aggregation was fast and Tech hopes were dealt a big blow when co-captain Paul Grady was injured in the first ten minutes of play. He was unable to come back into any of the remaining periods of play. Since the Beaver style of play makes use of a first forward line for offensive play and the other forward line for defensive play, the loss of Grady, who is on the offensive line, checked the Engineers' offense throughout.

On the brighter side, Tech's defense made a good showing, although they showed signs of tiring in the last period when Tufts scored four of their six goals. At

(Continued on Page 4)

Varsity Grapplers Lose To Springfield 18-16: Tech Takes Four Bouts

About 100 Tech's-A-Poppin' couples watched Springfield University down Tech's varsity wrestlers last Saturday night at Rockwell Cage. The score of the match was 18-16, and as the score indicated it was a closely fought match, which went undecided until the last bout.

After losing the first three bouts the Tech team was trailing 13-0. Then Captain Tom Callahan scored 5 points for Tech with an impressive pin, and after losing the next bout Tech came back with a pin and a decision by Barton Conant and Chuck Seymour respectively. This made the score 18-13 and with only the unlimited bout left, Tech needed a pin to tie the score and the match. Tech's Bob Robertson wrestled gamely, and although he came close to pinning his opponent three times, he could only manage to win by a decision.

RESULTS

Class	Results
121 lb.	S. Courson (S.C.) pinned J. Meyers (M.I.T.), time 2:32
130 lb.	W. Donecho (S.C.) pinned P. Gay (M.I.T.), time 4:14
137 lb.	D. Gugel (S.C.) decision D. Findlay (M.I.T.), 12-7
147 lb.	T. Callahan (M.I.T.) pinned W. Ball (S.C.), time 5:53
157 lb.	J. Cepuran (S.C.) pinned H. Robertson (M.I.T.), time 3:41
167 lb.	B. Conant (M.I.T.) pinned B. Hegedorn (S.C.), time 3:54
177 lb.	C. Seymour (M.I.T.) decision D. McCool (S.C.), 5-2
Unlim.	R. Robertson (M.I.T.) decision H. Leonard (S.C.), 8-5
Score:	Springfield 18, M.I.T. 16.

The Crimson of Harvard crushed the Engineers, 60-41, at the Harvard Gymnasium on the first eve of the past Tech's-A-Poppin weekend. Coach O'Donnell's charges could not cope with the superior height of the Harvard five.

In the first half 6' 7" Captain Ed Smith, from Columbus, Ohio, and 6' 5" Soph standout Dick Lionette, from Everett, Mass., cleared both boards. Lionette's hook shot was unstoppable and he drew foul after foul from Hohorst and Manderson of the Beaver array. He racked up six field goals out of seven tries, and a foul shot for thirteen points in the first period.

Deadly shooting from back court by Herb Glantz, Mandy Manderson and Mike Nacey kept the Cardinal and Gray within reach of Coach Norm Sheppard's five. At half-time: Harvard 31—M.I.T. 23.

When the game was resumed, Lionette continued to score from the keyhole and dunked in six more field goals. Although the Engineers looked much better off the boards with Hank Hohorst doing a work horse job, the offense for the Beavers fell apart.

The frosh were downed by the Crimson's fledglings 73-44. Al Bloonick, the lad who broke Bob Cousy's scoring record for Jersey High School, accounted for 23 Harvard points. Dan Lickley and Jack Jackson were high men for the Engineers with 12 and nine points respectively.

The box score follows:

Harvard					M.I.T.				
Name	G	F	T		Name	G	F	T	
Bramball, f	3	0	6		Hong, g	2	0	4	
Smith, f	6	0	12		Glantz, f	5	2	12

Tech Mermen Bow As Relay Team Sets Alumni Pool Record

Grabbing an early lead, the varsity swimmers from Amherst staved off a late record-breaking Tech rally to win handily 48-27 Saturday evening in the Alumni Pool.

The broken record was in the 440 yard relay which Baker, Walsh, Perkins and Coombs traveled in 4:43.7 which is 0.3 of a second under the old mark.

Amherst struck hard in the first three events taking the 300 yard medley relay and following up with firsts and seconds in the 220 yard free style and the 50 yard free style.

Wells of Amherst took first in the diving but Tech started to battle as Mitchell and Munro got the runner-up spots. The next event, the 100 yard free, split 5 to 4 in favor of the visitors again as Baker and Van Mook placed two and three.

Tech slipped on the 200 yard back stroke 8 to 1 but came back strong in the 200 yard breast as Captain Bob Pelletier pulled to MIT's first victory. The 440 yard free style went to Keeney of Amherst while Sorenson and Daniels followed him for the other places.

The results are:

300-yard medley:	Amherst (Wasie, Geithner, Keydel). Time: 3:08.2
220-yard free style:	1st, Cabour (A); 2nd, Graeber (A); 3rd, Coombs (MIT). Time: 2:42
50-yard free:	1st, Tate (A); 2nd, Kruidenier (A); 3rd, Perkins (MIT). Time: 24.2
Diving:	1st, Wells (A); 2nd, Mitchell (MIT); 3rd, Munro (MIT). Points: 82.0
100-yard free style:	1st, Kruidenier (A); 2nd, Baker (MIT); 3rd, Van Mook (MIT). Time: 55.7
200-yard back:	1st, Wasie (A); 2nd, Simon (A); 3rd, Damon (MIT). Time: 2:20.7
200-yard breast:	Pelletier (MIT); 2nd, Geithner (A); 3rd, Baum (A). Time: 2:32.8
440-yard free:	1st, Keeney (A); 2nd, Sorenson (MIT); 3rd, Daniels (MIT). Time: 5:18.7
400-yard relay:	MIT (Baker, Walsh, Perkins, Coombs). Time: 3:43.7. (Breaks pool record of 3:44.0.)

left defense position Pinkham showed a great improvement over last year and should prove valuable in the remaining games.

In the first frame Tufts got two of their goals, one of them being made unassisted by Dow who proved to be one of their fastest and most deceiving stick handlers. In the second frame neither squad was able to hit the nets. In the last period Tufts was able to get two more counters before the Beavers got their first goal by Spaulding on a pass from Russell. Before the end of the fray the Jumbos were able to garner two more points to make the final score read 6-1 with Tufts on top.

The following is Tech's lineup for the game: G. Woodward; rd. Anderson; ld. Pinkham; c. Russell; rw. Grady; lw. Finnegan. Alternates: Turgeon, Arey, Spaulding, Krizit.

Haydn

(Continued from Page 1)

ing. However, the memorable performance of the oratorio was on the evening of March 27, 1899, when Haydn made his farewell to public life at one of Vienna's most inspired occasions. "The Creation" was performed in honor of the composer's seventy-sixth birthday which was to occur within a few days.

Salieri conducted and all of the great artists of the day were present, including Beethoven. The audience greeted Haydn with a prolonged ovation and received his composition with immense enthusiasm. The composer, moved to tears, pointed upwards and said, "Not I, but a Power from above created that." During the current Haydn renaissance, "The Creation" is attracting a renewed interest.

Calendar
