

I.F.C. Changes Dance Queen Contest Rules

Each Frat To Choose One Girl Before Dance; Bond, Bracelet Prizes

A change in the rules of the Interfraternity Queen contest was announced last night by Carroll W. Boyce, 10-44, Chairman of the dance committee. Boyce also announced that all tickets to the prom have been officially sold, but that some may still be obtained from private individuals.

Due to lack of interest in the contest as originally planned, and also because of some advance criticism, Boyce announced that the rules for choosing an I.F.C. queen have been completely changed. Under the new rules, each fraternity will nominate one contestant from among the dates of their men attending the dance. From these

Senior Pictures Now Overdue

Other Group Pictures Will Be Taken May 9

The managing board of the 1945 Technique has made several very important announcements. They request the following: Any Senior who has not yet had his picture taken must, if he wishes a place in the yearbook, make arrangements with Waid Studios, 18 Newbury Street immediately. Prompt action must also be taken on returning proofs to the studios. The group pictures that have not already been taken will be taken on May 9, 1944, in the Faculty Lounge.

Some of the material for fraternity and organization write-ups has not been turned in. This material was due April 15, 1944, and consequently must be sent into Technique's Offices, 309 Walker Memorial Bldg., at once. Student biographies are likewise overdue and must be sent in.

A request has been issued for in-

Tau Beta Pi Elects 17 New Members

11 Seniors, 3 Juniors Are Included In Group

Seventeen Technology students and graduates will be initiated into the honorary engineering fraternity, Tau Beta Pi, on Wednesday, May 3. The initiation will be held at 6:30 P. M. at the Smith House, and will be followed by an initiation dinner at 7:30 P. M.

Eleven members of the class of 10-44 will become Tau Beta Pi members. They are William C. Cooley, Jr., Donald H. Haliburton, Roderick L. Harris, Harold H. Hollister, Charles J. Hooker, Jr., Robert V. Horrigan, Gilbert K. Krulee, Bruce A. Lamberton, Sanford J. Neuhaus, Henry M. Paynter, Jr., and William E. Ritchie. Three Juniors to be initiated are William F. Blitzer, Donald A. Buell and Robert C. Landwehr. Maxwell Hunter, of the Graduate School, will also become a Tau Beta Pi.

Two graduates of the Institute will also become honorary Tau Beta Pi members at this initiation. They are George T. Seabury, '02, Secretary of the American Society of Civil Engineers, and Ralph D. Booth, '20, a partner in the electrical engineering firm of Jackson and Moreland.

Professor Walter C. Voss will be the principal guest speaker at the initiation banquet. His topic will be "Leaders in the Postwar World."

TECH DELEGATION VISITS BOARD 18

Representing Technology at Board 18 at 7:00 A.M., Friday, April 21, 1944, are: left to right, Marshall P. Tulin, 2-46; Eugene C. Woestendiek, 6-45; Jack C. Page, 6-45; John K. Crane, 6-45; Earl O. Ruhlig, 6-45; Arnold W. Robeck, 6-45.

Professor Parker, Head Of Course I, Dies After Illness

Professor Theodore B. Parker, Head of the department of Civil Engineering at the Massachusetts Institute of Technology and former chief engineer of the Tennessee Valley Authority, died at his home in Wellesley yesterday morning after a long illness.

Professor Parker, who was in his fifty-fifth year, was a native of Roxbury, Mass. He was graduated from the Wellesley High School in 1907, and from Technology in 1911. He also graduated from the United States Army Engineer School in 1922. Immediately following his graduation from the Institute he served as an assistant in the department of Civil Engineering for one year, leaving to join the staff of H. C. Keith, consulting engineer of New York City, where he served as a draftsman and computer on highway bridge design. From 1912 to 1917 he was assistant hydraulic engineer of the Utah Power and Light Company at Salt Lake City, and from December, 1917, to March, 1919, he served in the World War as First Lieutenant and later Captain, commanding Company D of the 26th Engineers in eight months' service overseas. Upon his return to civilian life, Professor Parker joined the engineering staff of the Electric Bond and Share Company, New York; where he held the post of assistant hydraulic engineer. From September, 1920, to November, 1922, he served with the United States Army as Captain in the Corps of Engineers, which included

Catholic Club To Hold Dance

Picnic Planned With Radcliffe College

The Technology Catholic Club will hold an informal dance with the Wellesley Catholic Club tomorrow night from 7:00 P. M. to 12:00 P. M., it was announced by James J. Healy, 10-44, Vice-President of the club. The dance is for members only. Buses will be running from Park Square to Wellesley Hills, where a change is made to the Framingham Bus which goes to the Wellesley Campus. The girls will be at the bus stop to meet the boys and take them to Agaro Hall where the dance will be held.

An announcement was also made by John F. Marr, 2-46, concerning the picnic which is to be held with Radcliffe and other neighboring colleges. The picnic will be at Houghton's Pond at the Blue Hills Reservation in about three weeks.

Arthur Bryant New President Of M.I.T.A.A.

Frosh, T.E.N. Elections Also Made Official At Inst. Comm. Meeting

The election of Arthur L. Bryant, 10-44, as General Manager of the M.I.T.A.A. taking the place of the retiring John M. Thompson, 10-44, was approved at yesterday's meeting of the Institute Committee which was held from 5:00 to 5:30 P.M., in Litchfield Lounge. The complete shift in the Managing Board of T.E.N. owing to the fact that the former General Manager Robert Gould, 6-45, is soon to leave in the draft was also made official as well as the Frosh Council elections of Franklin Jones as Sec.-Treas. and Hewer Rockwell and George Browne as Institute Committee representatives.

The report on the pending investigation of the Debating Society as a Class "A" activity was tabled. King Cayce, 10-44, Chairman of the Walker Memorial Committee stated that a sign-up sheet for Committee meetings was provided on the bulletin board in the Building 10 Lobby and suggested that all committees who schedule meetings in the Institute write the date and time of

Blood Donors Suffer No After Effects, Says Medical Director

It is felt that fear of after effects has prevented many people from giving their blood and as such the following letter to Mrs. Ralph E. Freeman, in charge of matrons in the Blood Donor Campaign, is pertinent.

Dear Mrs. Freeman:

It has just come to my attention that several prospective candidates for blood donors have been told, or have assumed, that the giving of a pint of blood may have ill-effects, and that these rumors have prevented many persons from giving blood which is badly needed by the service men.

I can assure you that the Red Cross doctors and nurses would not take blood from anyone who would be harmed by giving it, and there is no basis for the rumor that giving a pint of blood would have a harmful effect on anyone under the age of 60. There is absolutely no basis for such a rumor and I hope that anyone who has any such feeling about it will consult me in the Medical Department at his convenience.

Sincerely yours,

(signed) GEORGE W. MORSE, M.D.,
Medical Director.

Carroll Boyce Becomes T.E.N. General Manager As Gould Leaves Institute

INDUCTION NOTICE

Selective Service in the United States seems a very fine system when you read the following pointed and persuasive Abyssinian Mobilization Order issued when Ethiopia was invaded in 1935:

"When this order is received, all men and boys able to carry a spear will go to Addis Ababa. Every married man will bring his wife to cook and wash for him. Every unmarried man will bring any unmarried women he can find to cook and wash for him. Women with babies, the blind and those too aged or infirm to carry a spear are excused. Anyone found at home after receiving this order will be hanged."

Frosh Council Holds Meeting

Sec.-Treas. and Ins. Comm. Members Chosen

The initial meeting of the Freshman Council was held Tuesday, April 25. In attendance were section leaders: Harry P. D. Rockwell, Section 3; Robert D. Tripp, Section 4; Frank A. Jones, Jr., Section 5; George Browne, Section 6; Sheldon Hill, Navy Section; and Harvey Campbell, Navy Section. Alternates present were Leon J. Brettler, Section 3; Roger L. Sisson, Section 4; and Thomas E. Pawel, Section 5.

Gerald L. MacKinnon, Jr., 6-45, the President of the Junior Class, told the members of the Council about the various activities at school, among them the Q Club, Beaver Key Society, Institute Committee, and Walker Memorial Committee. During the meeting the Secretary-Treasurer of the Council was elected. With the section leaders only voting the first results gave a three-three tie between Frank A. Jones, Jr., and Harry P. D. Rockwell. On the second ballot Frank A. Jones, Jr., was elected. Elected to the Institute Committee

(Continued on Page 4)

Beck, Dostal, Howkins Kaewert And Marsten Also On Exec. Board

Carroll W. Boyce, 10-44, has been appointed the new General Manager of The Tech Engineering News, succeeding Robert M. Gould, 6-45. The other members of the Board are: Editor-in-Chief, Curt B. Beck, 6-45; Business Manager, Herbert R. Kaewert, 2-46; Managing Editor, John S. Howkins, Jr., 6-45; Advertising Manager, Russell K. Dostal, 2-46; and Publications Editor, Richard B. Marsten, 6-45.

Boyce was originally appointed Chairman of the Wartime Executive Committee, which corresponds to General Manager, in September, 1943. Previously, he was Vice-Chairman and Editor-in-Chief of the magazine. Under Boyce's leadership, T.E.N. set a new record for the largest volume of cash sales in the recent history of the journal. Although doctor's orders forced him to resign his position, he continued on the staff as a Contributing Editor. Now, because of wartime exigencies, he will return to his former position as General Manager.

Gould was Make-up Editor of T.E.N. in his freshman year, and in October, 1943, he was appointed Managing Editor of the journal. In January, 1944, he was given the post of General Manager, succeeding Boyce, who resigned because of poor health. The present change in the Executive Board is due to the induction of Gould into the armed forces.

Tickets Sold For Dramashop's Play

Comedy Presented At Peabody Playhouse

Tickets for Dramashop's coming production, "Holiday," have been placed on sale. They are available at the T.C.A. office, information office, and from any member of Dramashop.

The plot of the play, as the director of the play, Professor Dean M. Fuller, states, is very interesting. It shows the rejection of the socially lower by the upper class. Julia Seton, the daughter of a rich New York family of the 1920's, falls in love with Johnny Case, who is a couple of rungs lower on the social ladder.

A romance ensues, and, after combating many difficulties, they announce their engagement. Soon after, Julia begins to have her doubts as to whether the marriage will work. She assumes her noble traits and rejects Johnny, explain-

"Technology Night" To Be Held At "Pops" June 3

The Alumni Association has reserved the entire floor of Symphony Hall on Saturday night, June 3, for Technology night at the Boston "Pops" Concert. Arrangements have been made with Symphony Hall so that any organization wishing to secure a table for the concert may do so by calling Symphony Hall, or by going to the ticket office there. No provisions have been made for the Alumni Association to reserve tables, and for this reason no announcements of the concert have been sent out to organizations.

CLASS OF '45, 6-45, OR '46?

Recently the Executive Committee of the Junior Class met and decreed that their Class should henceforth be known as the Class of 1945. The five men of the committee, Gerald L. MacKinnon, Richard S. Mooney, Kirk Drumheller, Robert B. Hildebrand, and George E. McKewen, acted as they thought best in making this decision.

This is the first time that the Class has been given a name for something permanent. Previously it had been informally known as either the Class of 1946 or 6-45. It was necessary to make a decision at this time because the class designation must be placed on the Senior rings which are to be ordered next month. The Committee acted after consulting school officials but could find no way of obtaining student opinion on the choice.

Many Juniors prefer to be known as '46 men despite the fact that they will be graduating in June of 1945. They entered Technology as the Class of 1946 and fought under that banner on two Field Days. The cry of '46 was their rallying call. Others of the Class have left the Institute temporarily and when they return many will want to complete their studies retaining their identity with the group they entered with.

There are many strong arguments in favor of the '45 title as well. The Junior Class is actually graduating in 1945 and two other classes are due to graduate in 1946, while there is no other class carrying the 1945 title. The present Senior Class is now known as the Class of 1944, though their rings are marked '45 and the athletic numerals they have been awarded are 1945. Ring dies with '45 cut in them are already in Balfour's hands and there would be no delay in obtaining rings if these numbers were used. If '46 was used there would be a delay due to the ever-present war shortages.

The rings may only contain two numbers and therefore the 6-45 designation could not be used on the rings though it could still be used as the class designation for other occasions.

The number of the class may not seem important now, but alumni are always known by their class numerals and as time passes they grow to have a deep sense of pride in them and the group of Techmen they represent. The question of designation is one that should be decided by the entire class or when their opinions are known. To date there has been little discussion on the matter and no one knows what the majority of the Class prefers.

We suggest that Juniors discuss this question in some of their daily bull sessions. The matter is by no means finally settled as yet. We offer our services as a clearing agency for the discussion. If any student has any ideas on the subject we will welcome a statement of his views either mailed to us or left in our mailbox, Room 3, Walker Memorial. A slip of paper merely containing the class designation the student prefers would be sufficient to help obtain a consensus of class opinion. All we ask is that the student sign his name to the paper.

While the Juniors are thinking about that they might also ponder just who should be eligible to receive rings. Officially anyone studying at the Institute for four terms may purchase one, but should this include Navy V-12 men who came here only because they were so ordered by the Navy?

BILGE WATER

Some fellows are cute, others are rich, and I am queer; the last fact gives me full license to write about the V-12 at Technology. This column will concern us all; it will be an attempt to prove that college sailors are like anybody else, only more so. If one of your roommates jumps out the sixth deck window on a bet or incubates a few pigeon eggs on the window ledge, why not report it to me for publication?

VIGOR KAVALER,
 Room 405-C.

In response to many inquiries from brown baggers who believe their ears are going bad and gentlemen who hit the sack early and believe they are having nightmares, let me say that those jazzy variations of taps emanate from bugler Don Buell. He was tutored by his girl friend Lucretia, a ubangi, on the high hills of Colorado. The novel bugle technique is a result of her lip movement and his glowing red hair.

* * * *

Exactly one month after "being detached from this activity," an old Company seven man from Pittsburgh had a baby. It was all legal though. He had been married while in this unit, and allowed his wife to be his proxy at the hospital. Who said that Harvard men are better than Tech men?

* * * *

The weekly award of four bowls of borscht goes to Bud Gregory, formerly of Company six. The battling pre-med who had sent several fellow trainees to sick bay slugged his way through six contests and won the heavyweight boxing title of Sampson Institute of Technology.

* * * *

Company nine, under the whip of "three striper" Frank Farmer (617), claims to have more spirit than any other company aboard. They offer as proof their rousing marching song (which is clean) and their bruising victory over Company ten in water polo. In celebration of the latter event, the Company mascot, Chief Maki was properly dunked in Alumni Pool. If other companies intend to compete for their title, they will have to show some cooperative action, or at least throw their chief in the pool. P. S. Companies Three and Four are automatically eliminated due to natural circumstances (Chief Gintoff) beyond their control.

* * * *

An engineer's brain works twenty-four hours a day by definition. Even when on liberty, the fugitive from a slip stick has to display his mental prowess. As proof one merely has to witness the orthographic orge known affectionately as the illiterate alliteration or the silly sayings on the log books to you, Mac.

* * * *

In closing, let me remind you that this is a democracy; please be tolerant. That's all brother.

Former Institute Employee Sets Scholastic Record

Chief Petty Officer Charles N. Gilligan, former library messenger at the Institute, has made the highest scholastic record of any graduate of the B-24 school of the Ford Motor Company.

Gilligan's mark of 94 replaced the previous record of 93.4, which was made by an Army Air Force lieutenant-colonel, and is the highest grade received by any of the 10,000 graduates of the school.

The former institute employee graduated from the Rindge Technical School and while employed at Technology continued his studies in mathematics and mechanical engineering at the Lowell Institute School.

In The Spotlight

This week's SPOTLIGHT seemed at first a rather futile undertaking, because everyone at Technology knows "Willie" Jackson and he in turn seems to know just about everyone. Nevertheless, we thought it might be interesting to learn a bit more about Mr. Jackson, for nearly thirty years guardian of the Information Office, who has watched the Institute expand through the years from the "Tech on Boylston Street" to the present huge plant.

Mr. Jackson's office, which was located in Room 10-100 until Buildings 5 and 7 were built several years ago, is busier today than ever before, now that the 77 Massachusetts Avenue entrance has become Technology's real "front door." The office, which is open from 9:00 A.M. to 5:00 P.M. daily, handles an average of well over 500 persons daily, with the peak of the day's activity coming about 10:00 A.M. Besides answering routine queries, Mr. Jackson greets daily about 15 or 20 prospective students, who come here with their parents to be shown about the Institute. Mr. Jackson says that these family groups are invariably awe-struck by the size of the Institute, especially by the number and variety of the various laboratories.

Escorted Edison

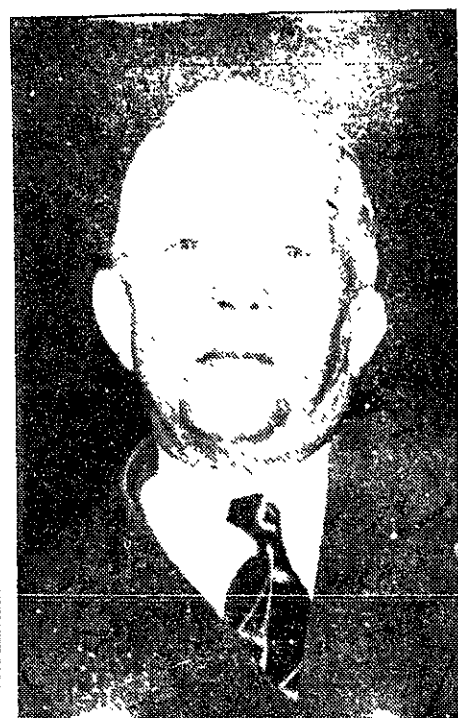

Over the years, Mr. Jackson has greeted a large number of famous persons and has shown them about the Institute. He seems proudest of the great honor he had some ten years ago of escorting the late Thomas A. Edison and his entire family through Technology.

Mr. Jackson also vividly remembers the time he escorted Douglas "Wrong Way" Corrigan, who visited the Institute after he made his "accidental" trans-Atlantic flight. Several years ago Mr. Jackson greeted the crew of the ship "Abraham Rydberg," a training ship in the Swedish navy and the largest full-rigged sailing ship afloat. The ship had just arrived in this country after running the German blockade. He has also greeted many notables, from practically every country in the world, in many fields—bright lights of the theater, government officials, scientists.

Honorary Member of '14

Mr. Jackson is very proud of his honorary membership in Technology's Class of 1914. His eyes beam with pride when he talks about many fourteeners who have achieved fame, including Professor Dean A. Fales of the Mechanical Engineering department; Porter Adamas, President of Norwich University; Arthur Dorrance, President of the Campbell Soup Company; and Harold Richman, President of General Radio.

Soon after Mr. Jackson took over

Staff Photo

MR. WILLIAM JACKSON

his Information Office duties, our country entered the first World War. At that time, Technology became one of the country's major aviation training schools, and many other war projects were undertaken; in all, some 4300 students were taking courses at the Institute. The only housing facilities then available consisted of the Senior House, so the large majority of the men had to be quartered in the Institute buildings themselves. Cots lined the corridors of Buildings 1 and 2, and Walker Memorial became one vast barracks. A big temporary dining hall was constructed on the present site of Building 31. Mr. Jackson says that the martial spirit was much more evident during the last war, for men marched through the corridors to their classes and cannons were fired at sunset. Nevertheless he feels that the services provided by Technology today are far more important than those of the last war, and that we will be amazed by the magnitude of the Institute's research program when it can be revealed after victory.

Has Cruised Widely

Mr. Jackson's favorite hobby, now curtailed by the war, was taking summer trips on tramp steamers and freighters. He feels that he saw much more on these informal jaunts than he could have seen on a large passenger steamer. Among other points near and far, he landed at Trinidad, Antigua, the Barbados, several South American ports, and once he even ventured as far north as Labrador.

There you have "Willie" Jackson—"Uncle Bill" to scores of students—guardian of Room 7-111, distributor of catalogues and directories, notary public, and one of Technology's most friendly and respected men.

For Boys To Play

... the Man-about-Tech will get no Saturday night beauty sleep from the looks of things. On the Course XXV schedule for the next two weeks are three bang-up parties: the Phi Delt's, the Deke's, and the Phi Kap's. That, coupled with the impending I.F.C., ought to give the Entertainment Engineers

Phi Delt's Caveman Party

... for the past few weeks several of the Phi Delt brethren have been seen in the Hobby Shop laboriously chipping out stone axes. It was revealed that these lethal weapons were to be sent out as bids for the "Caveman" party on April 29. The Phi Delt's claim that a complete Stone Age setting will be provided at 97 Bay State Road and there will be provisions for guests to check their dinosaurs at the door.

Kiddies' Party a la Deke

... for the young in spirit, if not young in years, the Dekes are holding a Kiddies' Party this Saturday at their Memorial Drive nursery. To help bring back memories of

the days when you wore three-cornered pants the hosts have provided such games as "Pin the Tail on the Donkey." Hal Reeves will provide the musical entertainment and liquid refreshment will flow from the Deke's famous "Milk" Bar. It should be a swell party, so dust off your rattles and teething rings and prepare to while the night away from 9 to 1 with a good game of musical chairs.

Pre-Induction at Phi Kap's

... in honor of the numerous "greetings" which have been received hereabouts the Phi Kaps are holding a "Pre-Induction Brawl" at their recruiting station at 229 Commonwealth Avenue. May 6 is the date specified on the induction notices they have sent out and contrary to usual practice the selectees have been instructed to report in the evening. The theme will be the glories ?? of army life and the draftees will be formally ??? initiated into the honorary fraternity of Bayonet Pushers and Potato Peelers.

Tech Trackmen Open Season Saturday

Andover Prep. Defeats M.I.T. Lacrosse Team

Bronson, Brayton, Wyckoff, Are Tech Standouts In Loss

Saturday afternoon at Briggs Field, the Exeter Lacrosse Team met and outscored the M.I.T. Lacrosse Team by a 5-2 count. In their second game of the 1944 season, the Techmen went down to defeat before a lightning attack that scored all of Exeter's points in the first half.

The first thirty-two seconds of the game saw the prep school team score their first goal, and put them out in front. Sutphen sneaked that first goal through, and Dickenson followed with two more before six minutes were up. The quarter score stood at 3-1 in favor of Exeter, the lone Tech tally coming from Pete Wyckoff on an assist from Brayton. Opening the second period, Exeter quickly scored two more goals, while holding the Tech athletes scoreless.

Exeter Held Scoreless After Half

After the half the Techmen returned to the field to hold the Exeter Lacrosse Team scoreless for the remainder of the game, probably due to a little diagnosis by Coach Charlie Van Umberton. However, M.I.T. was unable to take the lead, and the game settled into a defensive pattern. Brayton scored the final goal for Tech unassisted in the third quarter.

Although Pete Wyckoff, Wellard, and Captain Jim Brayton on attack, Pierce on defense, and Bob Bronson in the nets, played well for Tech, and the team settled down to hold Exeter scoreless after the half, the damage was already done. Having spotted the opposition four points, the Techmen, lacking a second unified midfield attack, were unable to make up the deficit.

M.I.T.	Pos.	Exeter
Bronson	G	Welles
Pierce	Pt	Dorman
Bulk	Cp	Porsyth
Riggs	Id	Steers
Chabot	2d	Abbot
Wyckoff	C	Monro
Wellard	2a	Lange
Metcalf	1a	Lovejoy
Brayton	OH	Sutphen
Meduski	IH	Dickenson

Substitutes:
M.I.T.: Davidoff, Vinci, De Paoli, Dowart, Meyerhoff, Hildebrandt, Mulholland, Smith, Wilson, Levenson, Bowers.
Exeter: O'Grady, Martins, Birdsell, Knowlton, Gregg, Pollen, Smith, Palmer, Cassidy.

Game with Andover

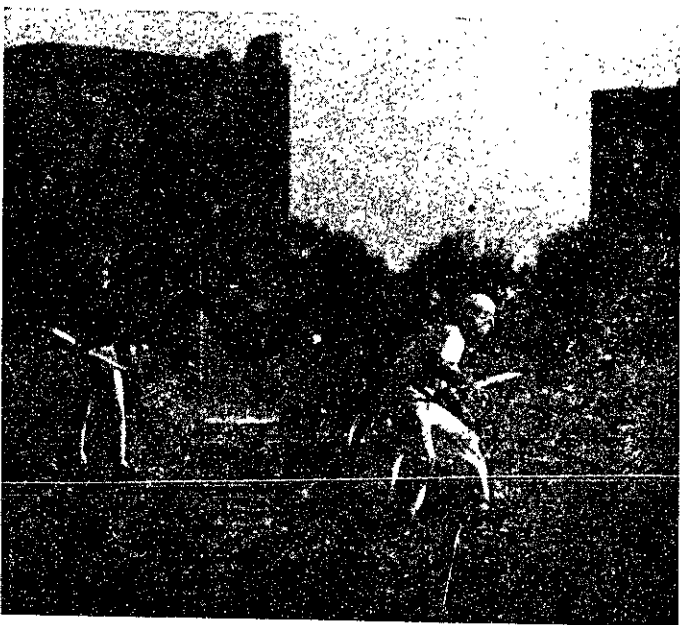

In their second game of the week, the M.I.T. Lacrosse Team hooked up with Andover Lacrosse Team in a free-scoring contest that ended with Andover leading 16-7. The Techmen scored their highest total of goals in a game for this season, but they lacked the defensive spark that would have held the Andover stars in check. Pete Wyckoff, Bobby Bronson, and Jim Brayton turned in good performances, but despite their individual play, the Andover attack wasn't stopped.

At the outset of the game, the teams appeared evenly matched, and the lead see-sawed one to the other throughout the first period. Heckel pounded in three goals, and Gaines followed with another to tie the game at 4 all, as Meduski, Bowers, and Pete Wyckoff scored goals. Pete scored twice in the opening period.

Andover Goes Ahead

In the second period, M.I.T. dropped behind the pace, as Andover went on a five goal spree while Wyckoff was scoring Tech's lone goal for the period. The third period saw Gaines, on a one-man rampage, score four goals, and follow with another in the fourth period. Captain Jim Brayton counted once in the third period, and substitute Don Walsh, in his first two minutes of varsity competition, scored in the fourth period for M.I.T. Gaines and Heckel were the sparkplugs in the Andover offense, as they accounted for eight and five goals re-

FAST ACTION AT BRIGGS FIELD

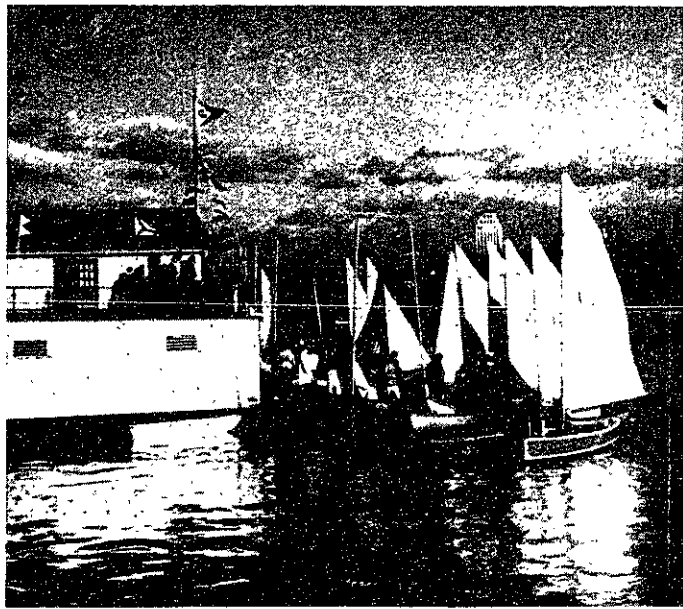

T. C. A. Photo

TOP: The M.I.T. Lacrosse Team has already played the first three games of its current season, and the Tufts game coming up this Saturday promises plenty of action.

Holy Cross And Northeastern Opponents In Meet Tomorrow On Briggs Field

DINGHIES SET SAIL

T. C. A. Photo

Captain Bryant Leads Balanced Team Into Fray

The Beaver track season starts rolling tomorrow afternoon when Holy Cross and Northeastern come to Briggs Field. The full fifteen-event, triangular meet starts at 2:00 P. M. sharp.

Captain Bud Bryant, who will run the 880, leads a strong team that shows very few weak points. Bolstered by veterans of cross country and winter relay teams, the running events are packed with such men as Ed Burns, Holly Hollister, Dave Bailey, Artie Schwartz, and Captain Bryant—to mention only a few—who have been running all winter.

Field Event Stars

And the field events have their share of men, including spear-thrower George Upton, high jumper Bill Passfield, and broad jumper Chuck Simpson.

Coach Oscar Hedlund is not too quick to commit himself, but he does admit he "has a pretty strong team." "The boys have worked hard," he continues, "and this squad is well balanced; we have not got any glaring weak spots."

About the opposition quite a bit is known. On the two lists of entries, 28 for Northeastern and 17 for Holy Cross, there are some familiar names. Dave Murray, captain of Holy Cross is a N.E.A.A.U. champ in the javelin and should offer our George Upton plenty of trouble. Ferrick in the 880 and Hemfel in the pole vault should score for this Holy Cross team.

For Northeastern E. N. Austin will probably stand out in the long two mile run. Parker in the high and low hurdles and Katz in the Hammer are two more tried veterans in N. E. spangles who will be on Briggs tomorrow.

The Beaver entries for tomorrow: 100 and 200 yards—E. Burns, W. Casey, H. H. Hollister, C. M. Simpson.

High hurdles—R. D. Baldwin, L. W. McKee, E. Pyle.

Low hurdles—L. W. McKee, E. Pyle, R. D. Baldwin, D. L. Schultz.

Quarter mile—D. Z. Bailey, R. W. Ellis, A. F. Kay.

Half mile—A. L. Bryant (capt.), D. R. Whitten, R. W. Whipple.

Mile—C. H. Goldie, R. M. Poorman, P. Symmes.

Two mile—A. Schwartz, G. Umberger, H. B. Moore.

Pole Vault—P. S. Wright, A. Fletcher, H. R. Lyons.

Hammer—R. P. Dodds, V. Murphy.

Javelin—G. T. Upton, J. S. Oechsle, H. H. Hollister, A. A. Becker.

Broad Jump—C. M. Simpson, A. D. Crowell, D. L. Schultz, T. F. Randolph.

Discus—H. Dickinson, R. P. Dodds, J. W. Speaker.

B. K. Volleyball Tournament Enters Semi-Final Round

Phi Gams, Dekes, And Latin American Club Last Week's Winners

The Beaver Key Volleyball Tournament is now in the semi-final stage, with eight teams ready to slug it out for the four play-off berths. The games will probably be played off early next week, with a good chance that the round-robin will begin on Wednesday night. The games would have been scheduled earlier, but Jim Hoaglund, the Beaver Key Volleyball representative, is in quarantine and couldn't send the schedules out. In his absence, Pete Schwab has taken over.

The games leading up to the semi-finals were played early last week, the victories, in most cases, were by large margins. The Phi Kappa Sig, Phi Gam duel was the closest of the week, with the Fenway boys on top 15-13, and 17-15. The first game was hotly contested all the way, and the Phi Kappa Sigs looked like the winning combination, for, as the second game opened, they ran the score to 11-2. Then the Phi Gams put on the pressure, made up the deficit, and went on to win in overtime.

spectively, and were credited with four assists.

A.A. Announces Athletic Awards

Awards announced last night by the A.A.A. for the winter season are:

Varsity Basketball: Ray Haddo, Bob Landwehr, Mal Crowther, Roger Watson, Don Walsh, Cal Taft, Jack Aitken, Theo Heuchling, and Will Aylward.

Discretionary Award: Bruce Mayer, Frank Danforth, Will Daehler.

Straight T: Ray Haddo.

Squash: Tom Hewson, Roger Sonabend, Will Pierce, Stu Brauns, Frank Batov, Art Schwartz.

Numerals: Ralph Scherer, Roy Read, Basil Ferrentino, James Armington.

The Dekes took an easy victory from the Phi Sigma Kappa House, 15-8 and 15-7. The issue wasn't in doubt at any time, with a strong Deke team out to win. They will oppose the Phi Gams in the semi-final round.

Phi Beta Epsilon, who entered the semi-finals last week, will be opposed by the Latin-American Club. The Latin Americans entered when the Kappa Sigs bowed 15-12 and 15-7 in two slow games. S. A. E. overwhelmed the Lenox Club 15-4 and 15-3, and will meet the winner of the Chi Phi, Sigma Alpha Mu game.

Infirmiry List

At the Homberg Infirmiry last night were:

John E. Taft, 2-46
James S. Hardigg

Tech Dinghies Race On Sun. To Defend Cup

Regatta For Boston Dinghy Cup Trophy To Be Held On Charles

On Sunday, the Boston Dinghy Cup Regatta will be held at the Sailing Pavilion on the Charles. So far, seven colleges have definitely entered the race and three more are expected to. Among those already entered are M. I. T., Harvard, Cornell, the Coast Guard, Dartmouth, and Holy Cross.

The Boston Dinghy Cup Regatta is one of the largest we will have here during the Spring, and is considered the mid-regatta of the season. The largest race to be held here this Spring will be the Morris Trophy, which will be held later on. However, Sunday's regatta will show who is near the top for the coming year.

Notables Expected to Attend

The race will be held all day Sunday and several notables are expected to attend. Among these are Lt. Fowle of the Coast Guard, secretary of the I. C. Y. R. A. and former sports editor of the Boston Globe, and Lt. Walter C. Wood, who started the sailing pavilion here and was first sailing master.

Commodore Horrigan, who was recently elected Cruising Chairman of the I. C. Y. R. A., doesn't believe that we have as strong a team as in former years. However, we will have a good one out there to show Tech is still in the running, despite being hit hard by the loss of several of her best men. Horrigan named the probable skippers as Jay Schwartz, 6-45, and R. O. Smith, 10-44, of Miami. Both are experienced skippers, and have been on the sailing team several years. Smith made three firsts in last Sunday's races.

New Point System to be Used

The races will be held in two divisions, A and B, and each school sends two skippers and crew, one for each division. There will be as many races in each division as there are boats, and the boats will be rotated every race to insure every-

Tech Embassy Holds Meeting

Dean Prescott Was Chief Ambassador

The eighth annual Tech Embassy was held on Wednesday, opening with a meeting in Huntington Hall at which Professor Samuel C. Prescott, Dean Emeritus of Science, was the Chief Ambassador. Dean Prescott's topic was "The Religion of an Educated Man."

At the conclusion of Dean Prescott's remarks, Professor Erwin H. Schell led the group of ambassadors, who were all professors or ministers, in a discussion period. Each ambassador gave a brief talk giving his definition of religion. Later the audience was permitted to ask questions of any of the ambassadors.

The ambassadors who participated in the open meeting were, in addition to Professors Prescott and Schell, were: Professors William H. Timbie, Dirk J. Struik, Avery A. Ashdown, and Frederick F. Morris; Rev. Carl H. Kopf, Cecil H. Rose, and Hobart F. Geewey; and Rabbi David B. Alpert.

In the evening, the above named ambassadors, and Professor George De Santillana, Father F. Hastings Smyth, and Reverend Michael Martin, all of whom did not participate in the open meeting, dined with various Technology fraternities.

Champagne Gifts To Three Winners

Queen Shall Receive War Bond; Bracelet

contestants the judges will choose the winner.

Prizes of a bottle of champagne apiece will be given the three highest contestants. The winner will receive, in addition to the champagne, a twenty-five dollar War Bond and an identification bracelet bearing her name, and identifying her as the 1944 Interfraternity Queen at M.I.T. In addition a large framed picture of the queen will be presented to the fraternity she represented in the contest.

According to Boyce, the Dance Committee has sold all the tickets available for the dance. However, some individuals, due to Selective Service and other causes, have tickets which they will be unable to use. Those who desire tickets should get in touch with Carroll W. Boyce, 37 Bay State Road, Boston, who can direct them to some person who desires to sell a ticket.

Math. Society Elects Officers

The Mathematics Society recently elected its new officers. They are: President, Lawrence R. Norwood, Staff; Vice President, Oliver G. Selfridge, 6-45; and Secretary-Treasurer, S. Crandall, Staff.

At the club's last meeting, Dr. William F. Whitmore spoke on, "Prolegomenon of Integral Equations." This was the first of a series of lectures which have been planned by the society. Anyone who is interested in mathematics is invited to attend the meetings.

Menorah Society Holds First Acquaintance Dance

The Menorah Society will hold its first acquaintance dance of the term tomorrow night at 8:00 P.M. at the Hillel Foundation, located in the S. S. Pierce Building in Copley Square. The girls will be from Radcliffe, Simmons, and Boston University.

Music is to be provided by records, and refreshments will be served. The dance will be free to members of the society; non-members will be required to purchase tickets at \$.50. There will, however, be an opportunity to join the society at the door and attend the dance free.

Latin Americans Celebrate April 14 In Radio Program

On the night of April 14, the band of the Latin American House beat out its rhythm from coast to coast over the Yankee network. They played their rhumbas, boleros, congas, and sambas this half hour to celebrate Pan-American Day. They had formed on Pan-American Day just one year before.

It was at Boston University that this band of Latin-American talent first gave a performance. Since then they have been to many colleges and have played at such places as Symphony Hall.

While Gorgias Gianola, 2-44, lectures on South American instruments, the band, led by César Payan, 2-44, illustrates. Besides playing two pianos and the usual brass, they knock sticks together, shake gourds, beat tom-toms, and bang around cow bells with variety unparalleled by even Spike Jones and his City Slickers.

Play the Marimbola

To realize the extent to which their instruments go in uniqueness, we need only see the Cuban "Marimbola." Built like a rectangular suitcase, it has a hole cut like pumpkin teeth in one side, and is painted up to look like the head of an Aztec god. Attached to it are button-like clamps which, when snapped against the side, make a sound much resembling that of a bass-fiddle, although the two have little in common.

As payment for their performances the band asks for either books on Spanish literature or history, or money with which to purchase the same. You will find these in both their own library at 24 the Fenway and on the shelves of the Institute libraries, for they have contributed many of these books to Technology.

1945 Technique Sales Now Over Three Hundred

(Continued from Page 1)

formal pictures of the fraternities and organizations. These pictures will be used in conjunction with the activities write-ups and will be very much appreciated.

Lobby Campaign May 10

The sales for the yearbook have been coming along very well. Over three hundred copies have been sold. Another Lobby Campaign for the sale of Technique will begin on May 10, when purchase orders may be placed in Building 10. At the present time a campaign is being conducted among the fraternities. Each fraternity that has three-fourths of its members buy a book will receive a copy free. Orders that have been placed for the yearbook will be refunded in full, if desired, up to and including May 15, 1944.

Intersectional Baseball Planned By Freshmen

(Continued from Page 1)

were George Browne and Harry P. D. Rockwell.

In the discussion during the meeting intersectional baseball teams were planned. This matter will be brought up for discussion again at the next meeting of the Council, planned for Thursday, May 4, in Room 10-267, at 4:00 P. M.

To become acquainted with the various committees at the Institute the Council sat in on a meeting of the Walker Memorial Committee Wednesday, April 26, and attended the Institute Committee on Thursday, April 27.

Wellesley O. C. Will Sponsor I.O.C.A. Circus

M.I.T. Outing Club To Visit Tech Cabin On Weekend of May 6

Wellesley will be the scene of great activity as far as the Outing Club is concerned, especially this Saturday, for the I.O.C.A. Circus is to be held there under Wellesley's guidance. Plans have already been announced for the varied activities to be held there, including canoeing, swimming, hiking, and later a scavenger hunt. Activity will begin at 2:30 and last until the Square Dance is over.

The next morning, Sunday, April 30, a cycling trip will be started in a westerly direction. When evening falls, the bicycles and their riders will head back into town on a train.

Trip to T.C.A. Cabin

Next week-end the Outing Club will take over the T.C.A. cabin at Lake Massapoag, Massachusetts. This kind of a trip is always popular, featuring a square dance, some hiking, and very probably some fishing. James W. Shearer, 6-45, announced that the sign-up list will be put up at 9:00 A. M. Tuesday morning, and those that wish to sign had better be near the head of the line.

There will be an I.O.C.A. Square Dance at Memorial Hall, Harvard Square, May 6. As usual, Al Smith will do the calling; also there will be instruction for those who wish it for half an hour before the dance, which begins at 8:30.

This summer the Outing Club is planning to make several beach trips and also some fishing trips, in addition to the usual summer activities.

Freshman Council Will Plan Dance

(Continued from Page 1)

their meetings on this sheet. This will avoid having several meetings scheduled for the same time as has been occurring lately.

The Executive Committee has met with the Frosh Council representatives and informed them of their duties which at the present time consist mainly of planning the Field Day Dance. Suggestions were also asked from the Freshmen representatives as to further functions they thought they could perform in their official status.

Gilbert K. Krulee, 10-44, and Robert M. Horrigan, 10-44 were late. Robert L. Hunter, 10-44, George E. McKewen, Jr., 6-45, Karnig A. Berberian, 10-44, Bruce A. Lamberton, 10-44, William C. Cahill, 2-46, and Hillman Dickinson, 2-46, were present by proxy.

Prof. Parker

(Continued from Page 1)

one year of duty with troops and a year at the Engineer School.

From December, 1922, to March, 1933, Professor Parker held the post of hydraulic engineer with the Stone and Webster Engineering Corporation of Boston, where he carried on investigations, studies, and designs for various hydro-electric developments, including Bartlett's Ferry near Columbus, Georgia, and the Rock Island Development on the Columbia River in Washington. For a year beginning March, 1933, he served as a reserve officer at the United States Army Command and General Staff School at Fort Leavenworth, where he was commissioned a Lieutenant Colonel in the Corps of Engineer Reserve, a post from which he later resigned.

From August, 1933, to November, 1935, he was a member of the engineering staff of the Federal Emergency Public Works Administration, serving successively as engineer examiner, state engineer, and acting state director of Massachusetts.

Professor Parker's distinguished engineering career with the Tennessee Valley Authority with headquarters at Knoxville, Tenn., began in 1935 when he was appointed chief construction engineer. Under his direction the great Norris and Wheeler Dams were completed, and he had charge of the design and construction of all subsequent dams up to July, 1943, when he was appointed head of the department of Civil Engineering here at the Institute. This great engineering undertaking includes six additional dams on the Tennessee River and eight major developments on tributary streams. His appointment as chief engineer was made in 1938.

Professor Parker was a member of the American Society of Civil Engineers and a director of the Society of American Military Engineers.

The funeral arrangements will be announced later.

Rocket Society Obtains Aluminum For New Motor

William Cooley, N. 6-45, was elected Vice-President at the last meeting of the Rocket Society held on Monday, April 24. Cooley replaces John Pomeroy, a member of the staff who has left the Institute.

There are now eighteen members of this organization including V-12. They have been able to obtain the aluminum stock with which they hope to build their next motor. Motor designs and fuel reports are progressing at present, and the next few meetings will be opened to visitors, although the last few were not. The Society meets in the Faculty Lounge at Walker every Monday at 5:00 P.M.

ing that she feels that he would not fit into her scheme of life.

Just as Julia loses her affection for Johnny, Linda, Julia's younger sister, acquires a deep love for Johnny. She disregards all social discrimination and holds fast in her love for Johnny.

Stage Crew

The stage management for the production has also been announced. This will include: Properties, Joseph G. Jordan, 2-46, and Edmund C. Chulada, 6-45; Lighting, Robert E. Chandler, 2-46; Sound, Harrison E. Rowe, 10-46; Stage Design, Mary E. Guinan, 2-44, Joan T. Rothwell, G, and Carolyn D. Cross, 2-46; House Manager, John F. Gaffney, 2-46; Program, Jesse H. Haines, 2-46, and Philip J. Solondz, 2-46; Publicity, Dimitry Poutiatine, 10-46; Prompter, Wellington F. Scott, 10-46.

Changes in Cast

Several changes in the cast have been made. Johnny Case will now be played by John T. Fitch, 2-46; Nick Potter now Robert W. Connor, 2-46; Seton Cram now William McSiebert, 2-46; and Henry now James B. Weaver, 2-46.

Mr. John C. Leslie Speaks For I.Ae.S.

The Institute of Aeronautical Sciences announced a special meeting to be held Friday, May 5, at 4:00 P.M. in Huntington Hall, Room 10-250. Mr. John C. Leslie, operations manager of Pan American Airways will speak on "Airports of the Future." Mr. Leslie, renowned American authority on airport construction, had a major part in the development and building of LaGuardia Field in New York. All interested persons are cordially invited to attend the meeting.

Mr. Leslie will also speak informally at a dinner meeting to be held at the Smith House at 6:30 the same evening. Members of the I. Ae. S. should contact Leonard P. Glancy, 10-44, at the Lenox Club, Brookline, Mass. for reservations. Navy students will be granted liberty to attend this dinner meeting, and should make reservations with Richard H. Hinchcliff, 10-44, in Room 312-B.

Have a Coca-Cola = Skål

(HERE'S TO YOU)

... in Iceland or Idaho

Have a "Coke" is the American fighting man's way of saying Here's to you in every clime. It's the high-sign of friendliness. That's why Coca-Cola always belongs in your icebox at home. From the equator to the poles, Coca-Cola stands for the pause that refreshes, — has become the global symbol of those who wish well to their fellow men.

BOTTLED UNDER AUTHORITY OF THE COCA-COLA COMPANY BY
COCA-COLA BOTTLING CO. OF BOSTON

It's natural for popular names to acquire friendly abbreviations. That's why you hear Coca-Cola called "Coke".
