

THE TECH

VOL. XXXV. NO. 63

BOSTON, MASS., FRIDAY, JANUARY 14, 1916

PRICE THREE CENTS

CLASS DAY BALLOTS WILL BE OUT SOON

All Corrections To Preliminary Ballots Requested To Be Turned In.

The 1916 Class Day Election Committee, consisting of D. B. Webster, R. H. White and K. Dean, has placed on the bulletin boards the preliminary ballots for the Class Day officers. Each Senior of good standing who has paid all of his class dues according to the records of the Treasurer will find his name on the ballot. If, however, there are any corrections to be made, the committee requests that they be sent in as soon as possible in order that the official ballots may be correct. These ballots will be mailed to each member of the Senior Class by Saturday, February 5, and the voting will take place on the following week. Each man voting is to mark on his ballot the names of twenty-five men, and the twenty-five Seniors receive.

(Continued on Page Three)

CHINESE NIGHT

Characteristic Oriental Program Carried Out.

The program given at the Union Wednesday night by the Chinese students at Technology and at other colleges around Boston was very well attended, and quite successful. The entertainment was entirely the work of these students, who performed bits of Chinese drama, mingled with a few occidental items, to "neutralize the taste."

Interesting numbers were the "stunt speeches" and the shuttlecock games. The most Oriental item of the evening was the duet played upon a Chinese harp and a Chinese guitar. The modes and rhythms were characteristic and distinctive. The program ended with a choral number, after which refreshments were served.

CHAUNCY HALL CLUB

The members of the Chauncy Hall Club held a meeting and smoker in the Union last evening. It was decided to hold an outing in the spring similar to that held last year in conjunction with the Chauncy Hall School. Mr. Kurt, principal of Chauncy Hall, spoke to the members.

BLANKET TAX RETURNS

At the meeting of the Institute committee yesterday, the Blanket Tax committee turned over to the Institute \$1500. This means that about 575 men have paid their tax up to the present time, while nearly a hundred more payments may be expected next term.

HOCKEY TEAM LOSER IN CORNELL GAME

Team Strengthened By Addition Of Wanamaker, Plays Best Game Of Season.

Wednesday noon at the Arena Cornell defeated the Hockey Team in a close game the score being 2-1. Technology was strengthened by the decision of the Advisory Council which permitted Wanamaker to compete in Hockey, his playing greatly adding to the offensive attack of the team.

Cornell took the lead in the first half by virtue of two goals shot by Hunter and Capt. Babbitt. The first was the result of a pretty dribble down the ice by hunter, who followed this by evading the Technology defense and caging the disc. Capt. Babbitt added the second point to his team's score a few minutes later by a shot from scrimmage.

Technology showed great improvement in the second half when they scored their only point on a shot by Clarke. Cornell was almost wholly on the defensive this period, and it was only the wonderful exhibition of goal tending by Myers that prevented Technology from scoring. In this half the Technology played a very strong game, their decided brace showing the team has greatly improved in offensive play, and with Wanamaker playing his usual steady.

(Continued on Page Four)

RIFLE CLUB

No Practice During Next Week— Team To Shoot.

Owing to the close proximity of mid-year examinations, the Rifle Club will not hold practice after today until Monday, February 7th, the opening day of the second term.

The Rifle Team will shoot off the match scheduled for next week, on Thursday instead of Wednesday, as originally planned. Matches during the second term will be shot off at the convenience of the members of the team squad. To that end all men now on the squad are requested to file their schedules with Captain Brandt as early as possible.

SHOW POSTERS

Professor E. I. Williams of the Architectural Department has offered to help all men working on the Tech Show Posters by giving them criticisms of their work any Thursday afternoon in his office on the third floor of the Pierce Building.

All candidates for the position of First Assistant Stage Manager will meet Manager Hunter in the Show Office Monday, January 17, at 5.00 o'clock to take an examination in music.

MUSICAL CLUBS PLAN BIG MID-YEAR TRIP

Technology Club Of New York To Entertain—Factories To Be Visited.

The Combined Musical Clubs are hard at work on the plans for their mid-year trip, which will start January 30th. Trips to various plants and factories in the cities visited are being arranged as well as visits to Y. M. C. A. buildings and other club houses, where the men will be entertained. Many of the men will go to New York previous to the departure of the main contingent, thus giving them extra time in and around the metropolis.

The group of twelve men from the Glee Club will appear in New York on Saturday evening, January 29th. They are to be the guests of the Technology Club of New York, and will render several selections at a banquet to be held in one of the

(Continued on Page Three)

CATHOLIC CLUB

South American Trip Described By Harvard Professor.

The Catholic Club held the last meeting of the term on Wednesday evening. After the supper Professor J. D. Ford of the modern language department of Harvard gave an account of a trip through the countries of South America, explaining the natures of the various peoples met with and the impressions received by the tourist. In the opinion of those present this was the most interesting talk that club members have yet heard.

At the business meeting which followed it was announced that an informal dance, similar to that previously held, would be conducted by the club in St. Cecilia's Hall on the first Wednesday after vacation.

INSTITUTE COMMITTEE

At the meeting of the Institute Committee yesterday the report of the Budget Committee was accepted. The total expenses for the year were calculated at \$3126.80 while the receipts were only \$2650. The deficit is to be made up from the Blanket Tax receipts.

The matter of changing the time of class elections to the end of the spring term was again taken up and a committee was appointed to draw up definite plans for such a scheme.

H. B. Shepard was appointed undergraduate advisor for the Tech and the resignation of C. W. Loomis, chairman of the Blanket Tax committee, was accepted.

Those absent were; O. C. Lorenz, the secretaries of the C. E., E. E., and M. E. societies.

MAJOR R. R. MOTON SPEAKS IN UNION

Large Audience Hears Hampton Quartet And Washington's Successor.

To one of the largest audiences of students and visitors that have ever filled the Union, Major Robert R. Moton, president-elect of Tuskegee Institute, spoke very briefly of that great institution for the education of the negroes in the South. In introduction, Major Moton stated that the entire establishment had been designed and erected by R. R. Taylor, an M. I. T. graduate and that Mr. Taylor was at present engaged in improving the buildings.

The speaker went on to say that the purpose of such a school was to solve more easily the national problems of adjusting the racial differences between the black man and the white man and to maintain the present peaceful relations. He emphasized particularly the fact that nature and the world-at-large draw no color line. What they demand is high

(Continued on Page Three)

MID-YEAR ACTIVITIES

Numerous Hockey Games Scheduled— Track Dates.

During the mid-year examination and vacation period the Technology teams are scheduled to take part in several games and meets. The hockey team has arranged a trip through New York state and the track team will perform at the B. A. A., and Coast Artillery meets here in Boston. Some of the other teams are also scheduled to perform in this city.

The dates of the hockey team during this period are Jan. 15, Yale at New Haven; Feb. 2, Springfield Y. M. C. A. at Springfield; Feb. 4, Army at West Point; Feb. 5, Rensselaer at Troy.

The track team will enter the Coast Artillery games on Jan. 29 and the B. A. A. meet on Feb. 6. The wrestling team has arranged a meet with Penn. State for Jan. 31 and with Lafayette and Lehigh on Feb. 4 and 5 respectively.

CALENDAR

Friday, January 14, 1916.

1.05—Football Team at Bachrach's.
8.00—Chess Team at Wells Memorial Rooms.

7.15—E. E. Society Meets at Lowell Entrance to go to A. I. E. E. Meeting.

Saturday, January 15, 1916.

1.05—1918 Tug-of-War Team at Bachrach's.

Monday, January 17, 1916.

5.00—Candidates for Stage Department Meet in Show Office.

THE TECH

Entered as second-class matter, Sept. 16, 1911, at the postoffice at Boston, Mass., under the act of Congress of March 3, 1879.

Published tri-weekly during the college year by students of the Massachusetts Institute of Technology.

Treasurer 5.00 to 6.00 P. M.

Subscriptions within the Boston Postal District, and outside of the United States must be accompanied by postage at the rate of one cent a copy.

Subscriptions, \$1.50 per year in advance. Single copies, 3 cents.

FRIDAY, JANUARY 14, 1916.

It is only natural that, with Technology outgrowing its present home and with all the organizations at the Institute widening the scope of their activities, The Tech should have also outgrown itself. Beginning February 7th, the size of the sheet will be increased and the printing will be set closer, giving in all an increase of about thirty per cent in the space at present available for news.

In the past the different activities have been demanding more space than could possibly be given them. It has been necessary to curtail a great deal of valuable news to the mutual dissatisfaction of every one concerned. Henceforth it should be possible not only for The Tech to meet the demands for space which are continually being made, but it should go further, striving to uplift everything it touches with a truer and better interpretation of the undergraduate life, the expression of which must come mainly through these columns.

It will also be possible to more efficiently serve our great Alumni Association. That organization is at present planning for next June a production which will rival the grandeur of the Hudson Fulton Exhibition in many respects, a production whose conception originated in the most active artistic imaginations of our time. The Tech can now stand ready to further this great enterprise with heart and soul.

And in all this there is only one regret. The ever-alert Circulation Department has forced itself rather obnoxiously upon the editors, who, try as they may to approach the matter tactfully, are wholly unable to do so. They must state the bare and ugly facts which is that ONE DOLLAR BUYS THE TECH FOR THE REST OF THE YEAR. The only excuse for making such a statement is that The Tech will be bigger and better than ever before, and that it will be really cheaper in the end if subscriptions are bought now. The first issue of the larger size will appear, as was stated before, on

Monday, February 7, the first day of the second term.

AD J SECOND EDIT

The following announcement of the Technology Club of Northern Ohio is given as an example of what some of the Technology Clubs in the country are doing to arouse enthusiasm among their members for the reunion next June.

YO HO, SKINNEY!

Run like everything! Wun of those big times! You Know! Regular jamboree of the Tekednowlurgy Klub of Northern Ohier, Hermit Klub in Kleveland, 2051 East Thurd place.

Look what's coming off!!! Pikchurès of the new Tekednowlurgy; grate hot air by ex-main gink Fay Smythe. Sum more by Big Cheese Litchfield; musik all the time, also other things. Handsum Larry Odell has sumthin to say about the wild men of Borneo.

The Kleveland contingent have an idear or too about stopping the war by Sir Tiler Percival Karlyslé and Sir Archibold Eicher and maybe Hon. Geo. Glover.

Thru Darkest Africa. Personally conducted by sum of our prominent members.

So there will be plenty of variety. See you there Skinney!

O yes, most forgot, \$3.00 per, \$2.00 for Classes of 1913, 1914, 1915. Nix on the fancy dress stuff.

Remember, January 15, 6.30 o'clock. Don Stevens. Goodyear Tire & Rubber Co., Akron, O.

Material of this nature is invaluable in giving both to the Alumni and undergraduates some conception of the comprehensive scale in which the reunion is being planned and it is earnestly to be hoped nothing of this sort will be allowed to slip by without being forwarded immediately to The Tech.

ORCHESTRA PLANS

The Technology Orchestra rehearsed Wednesday afternoon in the Union Dining Room, and a number of new pieces were taken up. Several new men reported and were accepted, among them some who played in the Show orchestra last year. There will be no more rehearsals this term, (but rigorous work will start in immediately upon the opening of next term. Any men who intend to come out after midyears have been asked to do so without delay as the show music will be taken up at the very beginning of the term, and the makeup of the orchestra for the show will be determined early. Notices of all rehearsals will be posted on the bulletin boards.

B. A. A. TICKETS

Applications for tickets in the reserved Technology Section at the B. A. A. Games may be filed with Mr. F. H. Briggs, 146 Summer street, Boston. Tickets are \$2.00 each and will be delivered about the last of January.

CLASS DAY BALLOTS
(Continued from Page One)

ing the greatest number of votes will be elected as members of the Class Day Committee.

This year several improvements over past years will be considered by the committee. It is especially desired to shorten the program in order to allow for as much time as possible for the inspection of the new buildings. There has also been suggested the appointing of a subcommittee for the purpose of getting in touch with the alumni officials. The governing board has decided that the marshals would be elected as in the past but that the Class Day Committee should elect its own chairman.

A. I. E. E. MEETING

A meeting of the Boston Branch of the American Institute of Electrical Engineers is to be held tonight at the Franklin Union. The phenomena of long distance telephone transmission waves will be demonstrated on the screen by means of an oscillograph machine and long distance connections. All members of the Electrical Engineering Society are invited to attend and they should meet at the entrance of Lowell Building at 7:15 o'clock.

SENIOR PICTURES

The informal negatives for the Portfolio may be handed in at any time. Envelopes will be found outside the Technique office and should be plainly marked with the owner's name.

All Seniors who have not had a sitting at Bachrach's should make an appointment at once.

ART COMPETITION

Candidates Given One Month To Prepare Material.

Candidates for the position of Art Editor of Technique 1918 will be required to submit the following at the Cage before 4:00 o'clock Feb. 10, addressed to the "Committee on Art Editor's Competition":

First—A statement of whatever previous artistic experience he has had and suggestions of his plan for running the Art Department of the book. He may illustrate his suggestions by sketches.

Second—A full page drawing to be done in black and white, wash, pen and ink, or charcoal, for the "Musical Clubs" section of the book. This drawing is to be in the proportion of 9 1/2 inches by 13 1/2 inches and not smaller than these dimensions.

Third—A heading, size 2 1/4 inches by 9 1/2 inches for a page for Cleofan. This drawing must be done in pen and ink.

All drawings submitted in the competition should be of a finished character and must be mounted on cardboard in order that they may be incorporated in the book if of sufficient merit. Candidates wishing further information may apply either to L. F. vanZelm, O. C. Lorenz, or D. G. Bradley.

BIG TRIP SCHEDULED FOR MID-YEAR RECESS

Electrical Engineering Society Plans Trip To Many Plants —Meeting Today.

One of the most extensive inspection trips ever taken by the Electrical Engineering Society is scheduled for the mid-year vacation. Among the plants to be visited are the Edison Waterside Stations, the Interborough Rapid Transit Company, and the Holophane Lamp Works, all in New York City; the Edison plant, in New Jersey; the Niagara Power Company, the Hydraulic Power Company, the Ontario Power Company, and the Acheson Graphite Company, at Niagara Falls, and the Westinghouse Electric Machine and the Westinghouse Electric Companies, in Pittsburgh. An effort also is being made to go through the Carnegie Steel Works in Pittsburgh but definite word has not yet been received from this plant. The itinerary as first announced included the inspection of the Baldwin Locomotive Works in Philadelphia, but it will be impossible to carry out this part of the plan.

The entire cost of the trip, exclusive of hotel and board bills, will be about \$32.00. Any men who have not yet signed up and who are contemplating going with the party should see W. C. Brown, E. B. Stason, or G. W. Wyman just as soon as possible. Every man who expects to make the trip should meet in the Lowell Library at 1.30 this noon when they will adjourn to another room to discuss the details of the tour.

MAJOR MOTON SPEAKS
(Continued from Page One)

quality of production. With this in view, Hampton, Tuskegee and all the other negro educational institutions are trying to give the students experience and in that way produce more efficient and highly-trained men. In conclusion, Major Moton paid a tribute to his predecessor. He said that Booker T. Washington has done more than any other man to build up the negro race in America and that all the cost of the erection and maintenance of Tuskegee was more than paid for by the life of such a man.

Before and after the address the famous Hampton Quartet sang plantation songs. Both speaker and singers were warmly applauded, the latter being encored repeatedly.

CHESS CLUB MEETING

The first Chess Club meeting of the second term will be held in the Union Saturday, Feb. 12, at 2.00 o'clock. It is intended on this occasion to play off games in the elimination tournament and to start a new match between members of the team. So far the first tournament has gone slowly, owing to the players matched with each other not meeting, and to their engagement in other activities. Those who have entered or wish to enter the tournament should attend the meeting.

This evening at 8.00 o'clock the Chess Team is scheduled to play Wells Memorial at the latter's rooms.

**A New
 Model Typewriter!**

The **No. 9**
OLIVER
 The Standard Visible Writer

BUY IT NOW!

Yes, the crowning typewriter triumph is here
 It is just out—and comes years before experts
 expected it

For makers have striven a life-time to attain this ideal machine. And Oliver has won again, as we scored when we gave the world its first visible writing.

There is truly no other typewriter on earth like this new Oliver "9." Think of touch so light that the tread of a kitten will run the keys!

CAUTION!

The new-day advances that come alone on this machine are all controlled by Oliver. Even our own previous models—famous in their day—never had the Optional Duplex Shift.

It puts the whole control of 84 letters and characters in the little fingers of the right and left hands. And it lets you write them all with only 28 keys, the least to operate of any standard typewriter made.

Thus writers of all other machines can immediately run the Oliver Number "9" with more speed and greater ease.

WARNING!

This brilliant new Oliver comes at the old-time price. It costs no more than lesser makes—now out-of-date when compared with this discovery.

For while the Oliver's splendid new features are costly—we have equalized the added expense to us by simplifying construction.

Resolve right now to see this great achievement before you spend a dollar for any typewriter. If you are using some other make you will want to see how much more this one does.

If you are using an Oliver it naturally follows that you want the finest model.

17 CENTS A DAY Remember this brand-new Oliver "9" is the greatest value ever given in a typewriter. It has all our previous special inventions—visible writing, automatic spacer, 6½-ounce touch—plus the Optional Duplex Shift, Selective Color Attachment and all these other new-day features.

Yet we have decided to sell it to everyone everywhere on our famous payment plan—17 cents a day! Now every user can easily afford to have the world's crack visible writer, with the famous PRINTYPE, that writes like print, included FREE if desired.

TODAY—Write for Full Details and be among the first to know about this marvel of writing machines. See why typists, employers, and individuals everywhere are flocking to the Oliver. Just mail a postal at once. No obligation. It's a pleasure for us to tell you about it.
