### Do I need to buy everything on the list?

Here are the supplies used in the course.

I would encourage you to use what you have to hand before rushing out to buy everything on this list.

When I buy art supplies, I like to shop around for the best deals, using vouchers or special offers when I can. Some of the places I often use include Amazon, Hobbycraft, Jackson's Art Supplies, The Range and eBay. Many of the items can be substituted with brands from your own country, which may be more cost-effective.

I have an amazon shop page link (U.K.) if you need to source supplies (**all the supplies with a line below have a link!**).

You can always copy the amazon links and drop them into your own country page to find similar items.

**Please note:** As an Amazon Associate I earn from qualifying purchases.

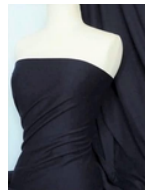

**Amazon affiliate program:** I buy most of my art supplies on Amazon, and most of my links to products/gear are to those products on Amazon. I am a participant in the Amazon Services LLC Associates Program, an affiliate advertising program designed to provide a means for me to earn fees by linking to Amazon.com and affiliated sites.
