

# FUTURE SHIFT

## A Foresight Masterclass.

Supporting clever people doing good work in complex times.

### Why FutureShift?

Put simply, the thinking and approaches that have got us and our organisations into our current predicament are patently insufficient to respond to our challenges. We need to be able to:

- Think broadly and deeply about business and world challenges
- Feel comfortable and confident with ambiguity, uncertainty and volatility
- Hold more complexity and act with purpose.

### What is FutureShift?

It is a Program that will provide you with a catalytic experience that will transform the way you view today's challenges, allowing you to make changes right now that will impact future outcomes through a quantum shift in your thinking ability. The Program is a supported emergence into a new way of thinking and acting.

We are here to support people through their cognitive dissonance – it won't be comfortable in the short term but it will be valuable in the long run.

### Program Dates:

17-21 September 2019

### Fee Schedule:

\$10,000 for payment made by 31 July 2019

\$12,000 for payment after that date

### What will I get?

- Early access to all Program materials
- A five-day Intensive
- A co-designed Program developed during the five-day Intensive, to ensure that a true and personally relevant 'model for learning' is provided to participants.
- Five months of online coaching support as you design and create your preferred futures.

### Who teaches the Program?

It is designed and presented by Dr Joseph Voros, Dr Peter Hayward and Rowena Morrow, based on their combined 40 years' experience in teaching foresight to professionals. This is your opportunity to experience world class professional development.

### Ready to shift your thinking?

Get in touch to find out more about participation in our upcoming Program.
