## Know Which Option is Right for You

### Microsoft 365 Enterprise

Microsoft 365 enterprise offers enterprise class services to organizations that require robust threat protection, security, compliance, and analytics features. Enterprise includes two different plans, the E3 plan and the E5 plan.

### Microsoft 365 Business

Microsoft 365 business is well suited for smaller and medium-sized organizations. Like its older brother, Microsoft 365 enterprise, Microsoft 365 business offers the same full set of office 365 productivity tools.

### Microsoft 365 Education

Microsoft 365 education, as you can probably gather from its name, is intended for educational organizations. Such organizations can obtain academic licenses that can be tailored to fit their specific needs.

### Microsoft 365 First-Line

Microsoft 365 for first line workers is now referred to as the Microsoft 365 F3 subscription. This plan is intended for first line workers, such as customer service reps, support engineers, and service professionals.
