

PROJECTCOACH PMP® PREP COURSE *AGILE* APPROACH

Need to get your PMP® Certification?

PROJECTCOACH PMP® PREP COURSE *AGILE* APPROACH ON LINE

COURSE OBJECTIVES:

Guide you through the key components necessary to take the PMP® Exam (i.e. pre-course steps, tools and resources to prepare for the exam, live sessions with experienced instructor).

By the end of the course, you should understand the PMBOK Guide® structure and be able to apply best practices for future projects.

This program is divided into three main stages:

1. Preparation.

This stage objective is to understand certification requirements and learn project management fundamentals.

2. Training.

This stage includes 24 hours of intensive training to understand key project management tools and techniques, Process Groups, Knowledge Areas and 49 processes. It also offers participants to experience answering quizzes and applying formulas.

3. Getting Ready.

This stage is about preparing yourself to take the exam, by reviewing all learned material and we have added some tips to help you getting ready to take the exam.

*This training is 100% delivered in English.

This course is designed to meet diverse learning preferences by offering three alternatives:

- 1

SELF PACED

For people who are self-learners.
- 2

LIVE SESSIONS

For people who need an experienced coach answering questions and sharing knowledge and best practices.
- 3

PERSONALIZED

For people who desire a personal coach to guide their learning process with 1 on 1 sessions.
