Paper - Mixed Media - Water Color - Sketch

A journal either hand made or bought (any size) I use a 9x12 Journal Hand Made... Paper size I use is 18"x 24" Mixed Media cut down and folded to make my 9x12 Journal. Cover needs to be 1/2 to 3/4 inch larger. If you are using the same size as mine you will need 3 sheets cut at 18 1/2"x12" that you will fold to make the inside sheets of your journal 9"x12", and one sheet cut at 18 3/4" x 12 1/2" for your cover. **Full instruction video included.**

All materials and products can be substituted for what you have on hand. Certain items you will need but you can use a different brand than what I am using in this workshop. It's totally up to you how much of the same products and materials you want to use. Please email me if you have any questions regarding any products. I am here for you. You can also ask the group on Facebook.

Love & Hugs Rita Marie
