*If you cannot print on water color or mixed media paper directly from your printer then follow instructions by watching any of my promo videos on Youtube. That video will explain how to transfer as will my first 2 workshops. You can then transfer the sketch onto any surface by using the transfer method.

What you will need to transfer:

1 piece of graphite paper, 1 piece of copy paper to print out your sketch onto, and 1 piece of Hot Pressed water color paper (or what ever paper or canvas you decide to transfer onto) and a hard tip pen.
