Thank you for taking LPI's certification exam. Scores on the exam are scaled so the range is from 200 800.

Passing a single exam does not signify completion of an LPI certification. Certification is awarded after passing all required exams for a particular level. After passing the required exams, you will receive a printed certificate indicating that you hold the designated certification level.

Employers and others considering the value of professional certification are encouraged to review the LPI website or to contact LPI for more information. LPI recommends that achievement of professional certification be considered as one of many factors in evaluation of the competency of an individual. Consideration should be given to the amount of time that has passed since the candidate completed ar exam or certification in order to assess the currency of a candidate's skills.

For more information about LPI and the Linux certification programs, write to: Linux Professtional Institute Inc., 41 John Street, 2nd Floor, Suite 102, Port Hope, Ontario L1A 3V2, Canada or info@lpi.org
