A WORD ABOUT: KARMA

- If you make other suffer, you must suffer.
- If you put others in pain, you must have pain.
- If you make others afraid, you must be afraid.
- If you help others, you will be helped.
- If you make others happy, you will be happy.
- If you Love others, you will be Loved.

Dark is for negative emotions. Light is for positive emotions.
Which will you choose?
What will make you more comfortable?

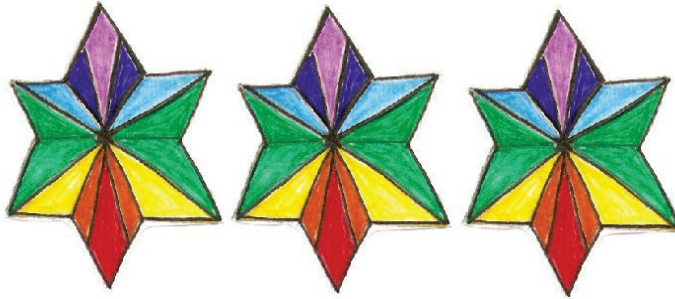

NOTE ON KARMA, Sometimes a soul will have a sacrifice life to help there group karma(people you have life times with, over and over again.). Is the doctor helping the patient or is the patient helping the doctor... or both? Never judge a persons lot in life. They could be helping you as much as you are helping them. Dark helps light and light helps dark.

DREAMS WEEK THREE.

Before we start lesson three let's review your dreams for the week and see what they are trying to teach you. Start writing down your dreams for the next week. (IF THIS LESSON IS NOT BEING DONE IN A CLASSROOM SETTING, PLEASE TAKE AS MUCH TIME AS YOU NEED.)

IT'S ALL IN THE WAY YOU INTERPRET THINGS; YOUR PERCEPTION.

LESSON THREE AND TEST. TRINITY

THIS LESSON HAS FOUR PAGES.

BASIC LESSON ON BODY SIGNS.

Are you ready to dive in?

Just like dreams, Body Signs are very personal. The best reader in the world is the owner and that's you. Something can mean one thing to one person and to another it means something completely different. You should never judge a book by its cover. In total the book "Body Signs" took me over a year to read; I would read other books in between. That's because I needed time to let "Body Signs" sink in. It only has 137 pages, but it's a very powerful book; you must get it. This is what I got from it, but the book says so much more. HILARION gets it right. Thank you M.B.COOKE for channeling so well. It's the fourth dimension (angels) talking to the third dimension (humans).

THE FEET: Reflexology. The foot is a duplicate of the body. Starting from the toes down, so your toes would be your head, the middle part of your foot would be your organs, to the lower part of your foot, which would be the pelvic area, and down. The feet also have a lot to do with the three dimensions of humans.

THE LEGS AND ARMS: The upper part of your legs and arms represent your higher self, which is the part of you that knows the plan. The lower part of your arms and legs represent your lower self, which is you now. So if you harm your lower leg or arm, that means you have made a change. Soon after you will harm your higher leg or arm, that's because if you change your lower self, your higher self must change also, and visa versa.

LEFT SIDE, RIGHT SIDE: The left side is your female side and the right side is your male side. All of us have male and female in us, just like GOD.

THE DIGESTIVE SYSTEM: The digestive system has a number of different parts. What I learned was that if you don't speak your mind you will have trouble with your digestive parts. First you will get stomachaches, then you will have trouble with your intestines, and then it will go to your kidneys. Don't swallow your words, it will do your body harm in the long run.

LOVE, THE HEART AND BLOOD: If you have a great love ache, it usually affects the heart and your blood. Love and the heart always go together, even in cartoons. Love is the reason we are all here. Good loving, happy times, joy and forgiveness are healthier for you. Heartache, being sad and not forgiving, they are not healthy for you. Everyone knows that. You must Love and be Loved.

THE LUNGS: The lungs relate to past life karma. If you were at war for your country and you were told to kill but you didn't want to, it's not as bad as killing and enjoying it. If you enjoyed the kill or in any way inflicted a blow that took someone's air away, you will have trouble in this lifetime with your lungs. Or with breathing in general, if you take breath away, you will have breath taken away from you.

THE BACK BONES: The lower part of your back is war karma. The middle part of your back means you need to put more fun into your life. The top part of your back means you're spiritually in tune. So wherever it hurts that is what your guides are telling you, they only will talk to you that way when it is the last hope, they have tried every other way to talk to you.

THE EYES: The eyes are the gateway to the soul. Whenever two people look into each other's eyes, their souls are saying hello.

THE NOSE: The nose has to do with your self-image. Too small can mean, not enough, a need for less or both. Too big can mean too much, a need for more or both.

THE EARS: The ears has to do with how good you hear your guides and what is being said to you from there, the bigger your ears are the better you hear what is being said to you from the other side and from others. That doesn't mean that if you have small ears you can't hear them, you just have to try harder.

THE CHIN: Any kind of a cleft in the chin means that you like to have most of the control to feel comfortable, which is o.k. as long as you don't become controlling.

On the next two pages, I have the body signs card. It will be explaining a little more about Body sign, such as the higher self and the lower self. And another meaning for the Star of David has to do with your higher and lower self, which also has to do with the feet. The feet have a physical, mental and spiritual side, the bottom is our physical side the top is our mental side and the ankle or Achilles heel is our spiritual side. Just like the three dimensions of us humans. We will also be talking about the male and female sides and what goes with each side. When I talk about the flexibility of your the wrists, ankles and elbows, I mean the flexibility of your mind, to much or to little with the subject at hand. So if you break your wrist it means you are being too flexible about something or you are not being flexible enough. You will know. Sometimes it can even mean both, too flexible and not flexible enough but with two different subjects, only you will know. Have fun.

DREAM MEANING. -REVIEW.

MY SUBSTANCE HISTORY.

Some escape through drugs and alcohol. Shopping is another way to escape, so is anorexia and bulimia. So is being busy all the time. Some even escape through God or school. So many ways to escape. But what are we trying to escape from? Our lives? Ourselves? Learning? Teaching? What?

For whatever reason, we turn to substances, for escape or curiosity or just because you want to fit in at that time. Substances are always going to be there. Some are legal and some are not. We all have the same choices and we are going to use the substance that will teach us what we need to know at that time. That's just the way it goes and that's just the way it will always be, good or bad, in the end we will have learned and we will move forward.

I started smoking when I was nine years old, I started smoking pot when I was eleven years old. Around that same time Shirley's parents would have some parties, and in the morning, after the party, Shirley and I would drink the leftover drinks that were left there on the tables, we would smoke the left over cigarettes too. Shirley always told me to be careful the drink didn't have a butt in it. That is how I started drinking and smoking.

Later in my pre teens, June would take her dad's homemade moonshine and beers without him knowing and we would go to the school grounds and drink. At one time I remember trying to make wine with some of my friends but that didn't turn out very well. In my early twenties I did speed for about two years but I decided to quit because it made me too jumpy. At the same time, I tried mushrooms and later acid (LSD). I also tried cocaine. Mostly around Christmas holidays and New Years. We would say it always snows around the holidays and we meant blow.

When I was 22 I was at the Dell Hotel with some friends, I got busted outside with about four joints that were on me, later I was charged and fined 300.00, and I am not allowed into the United States. I have my pardoned for Canada, but not my weiver for the US. I was 16 when I started to have seizures; I was on Dilantin for a while. One day I was driving down King George highway in Surrey where I had lived all my life and I didn't know where I was. I had to pull over for about 15 minutes before I started to remember, that was so scary. I told one of my doctors about it, he said it was the Dilantin. I should cut down on the Dilantin right away! He said I should try pot, so I did and it really works the best for me with no side effects. That is my drug history. At the beginning of 1993 I quit smoking. And now you can see more of my drug history in the rest of this book. It's not how the story starts, it's how the story ends that counts.

Sherman's truck was gone, his friend Mitch left a note, he would have it back in the morning. Sherman asked if it was o.k. if he stayed the night. I said O.K. We talked for a long time, it was nice. We are for sure just friends; he didn't make any kind of move at all, not even a small kiss on the cheek, oh well. I would have never slept with him but a little kiss would have been nice. When I got there Cori had this shocked look on her face, I said what happened. Where is Jerry? Cori said that Jerry had a 17-year-old girl with him and they have been in the shack all day having sex! WHAT! I went to the Shack and ripped it apart, I was so mad and totally hurt, wow. That's when I saw a used condom by the side of the shack, it was not the kind we use! Cori and I talked about it. I asked her if she was sure, and what did she see? Cori said that they came out of the shack right after she phoned me and the girl was acting all lovely towards Jerry and he was taking it all in. Cori told Jerry that I was on my way over and that they had better leave. Cori said that they really smelled like booze. When he did he told me his version, he said that they messed around but they didn't have sex. I don't believe him. Besides, what do you mean messed around, he said everything but sex. I said, and that's supposed to make it o.k.? I don't think so. Then he said that his friend has some girls that he puts on the street and this one didn't want to go out, so he volunteered his place for her to stay at for the night. What, now you're telling me you hang out with hookers! I told Jerry that I would never be able to trust him again, how could I after what he just told me? I want a real man, not one that is so weak when it comes to other women. Jerry just couldn't believe what I was saying, he thought that we should kiss and make up, he thought that if we had sex everything would be o.k. I said are you crazy, we're not ever going to have sex again, no way, eww! Jerry said sorry so many times but this is crossing over my boundaries, it's one of the things I will not put up with anymore ever. I deserve better and I know I will find it. Finally after a few hours I had to ask him to leave. Jerry said he wasn't going to give up. Rest, bed. Mentally: Like Oprah says first time it is a slap in

the face, next time it is a brick in the face, then if you don't get the lesson next it is a brick wall in the face. I said that I thought that we were more then friends, I thought we were in Love, he said I never said that we were more then friends with extras. I said at this time we're not even that, now we could take a step forward and become boyfriend and girlfriend if you promise to only sleep with me, that's the only way we could ever be together again. Jerry said that he loves me but he cannot promise me that. Really, then you should go. Jerry said that he likes it the way it is, he said that I was too good for him and he didn't want to promise me something that he knew he couldn't do. Ok, then you have to go. Thursday, Feb. 29, 1996. leap year. Physically: Did some running around in town, went to Connie's, Jan was there, we all had a nice visit. Home, Ryan was home early with a black eye, he got into a fight and is suspended until Wednesday. Dinner, putter, I dropped Ryan off at June's to babysit she's going out. Home, rest, bed. Mentally: Sherman called at 11:00 and he wanted to come over, I told him no I was sleeping. Emotionally: I dreamed that mom and I were at a rally to save a black family from being killed, we ran around the gym to symbolize running around the world. I said how does anyone know if I'm Milano or not. Now I got three candies, I put one in my mouth. I was decorating my mom and dad's place, he was sitting in a chair, Connie and I decorated. I said that looks much better. I was playing with Joey, the bird, fun, later Connie and Nancy took him away.

DREAM MEANING. -SYMBOLISM. CANDY, YOU' LL SOON BE HAPPY EVEN IF IT DOESN'T SEEM LIKE IT NOW.
