A WORD ABOUT: TRUSTING YOURSELF.

No one knows better than you.
We are the only mammals that do not trust our own instincts.
We question our red flags.
You must trust your own feelings and go with your gut.

Even if you are really wrong, trust that it was a lesson for you.
Grow from it and move on.
That is how we all learn, from our mistakes.
Everyone must go through this, trust your path.

In the end your lessons become easier because we learn to pay attention to our red flags and listen to our gut feelings. After all, that is the way our angels talk to us.

Through our feelings, through our symbols and signs. Pay attention to what is going on around you, because that is how the other side communicates with us. That is the way God talks to us.

Prayers, signs, symbols, feelings, and lessons - the other side is always talking to us. Stop, listen, learn and grow. That is what we are all here for. Trust yourself because no one knows better you do.

DREAMS WEEK FOUR.

(IF THIS LESSON IS NOT BEING DONE IN A CLASSROOM SETTING, PLEASE TAKE AS MUCH TIME AS YOU NEED.)

Before we start lesson four let's review your dreams for the week and see what they are trying to teach you. Start writing down your dreams for the next week.

IT'S ALL IN THE WAY YOU INTERPRET THINGS. YOUR PERCEPTION.

LESSON FOUR AND TEST. BASIC LESSON ON PALMISTRY. TRINITY

THIS LESSON HAS THREE PAGES.

Are you ready to dive in?

Palmistry is another way that the fourth dimension talks to the third. Angels talking to humans. There are many different ways to read a palm, this is just one of the ways. I noticed that for me my left hand is for harder lessons and my right hand is for easier lessons. For other people it was the opposite way, never exactly the same for anyone, it can be close but never the same, like our fingerprints and snow flakes. I think if you ask for it to be a certain way, for your own symbolism then it will be that way, what you think becomes your reality.

Each part of your hand and fingers mean something and when you and your guides want to teach you, you get a mark, scar, wart, mole, malformation, injury, etc. on that part of your hand and fingers. In this palmistry as long as the mark is there is as long as the lesson will be there.

The level of learning that you were at when you are born is the fingerprint on your right hand; your left hand is the highest level you were at, in one of your last life times, so you can compare. Circle means you have learned the lesson, tear drop means you are creative in that lesson, loop means you are learning the lesson well and a ridge means you need lots of learning in that lesson. I have more of this information on the next page; it shows the meaning of each part of the fingers.

On the next two pages I also show you were your lifeline, your head line and your heart line is and the age of the lines are 0 to about 70 years. Any line going through your lifeline is an event in your life at that age. If the line goes through all the lines then you will think about it a lot and you will really feel it with your heart at that age. You could be testing yourself a lot to see if you really did earn that circle, help others learn.

Sometimes when a person is very talented and they are afraid of there talent for some reason, they can overly punish them self, even after God has already forgiven them. The best reader in the world is the owner but the worst punishment comes from our selves, the owner. Now in this day and age the whole world is supposed to be learning and growing, the time for punishment for most people is over, God has forgiven you, so why can't you forgive yourself?

If you think something bad, always, always replace that bad thought with something good, no matter what. Our guides are here to help us learn and grow through good lessons, not bad. The same is for everyone. Try to bring Love, happiness and good times to yourself; life is wonderful if you think it to be.

Have fun.

A DIFFERENT WAY TO LOOK AT YOUR HANDS

If you have a scar, wart, mole, cut, spot, malformation, injury, etc. on any part of your hand, it means you will be learning a lesson, applying to that part of your hand. It doesn't matter how you got that mark on that part of your hand. A lesson is forthcoming.

Say you cut the tip of your ring finger,
it means a money lesson.

If you are lacking in faith, ask someone who is not.
