

IT'S ALL IN THE WAY YOU INTERPRET THINGS, YOUR PERCEPTION.

A WORD ABOUT: SPELLS.

These are some of the things I have heard from people:

Burning red candles brings in Love and burning green candles brings in money. That is why there is so much Love and money around Christmas

If you want a mate you write all the things you want in a mate on a piece of paper. Then put the paper in a small box, sprinkle it with salt to ground it.

Put the box away not looking at it until you find a mate.

While you are waiting on every full moon Friday, which is the best time to do any spell, you should say:

'By a symbol or a sign, Venice please send me your divine.

Make it for the good of all, then we know our Love will never fall.

There is one thing you must know about spells, you should never get anyone to be or do anything that they are not, you should never get anyone to do anything that they don't want to do. Because you should never put a bad spell on anyone, ever, not good karma. You can protect yourself by doing a protection spell on yourself and your loved ones and you can send any bad spells that are trying to be put on you back, there three fold, you say:

What ever you are trying to do to me may it come back on you three fold.

Choose your own words and remember to always be kind, you don't want anything to come back on you now do you?

Another thing that I found out from talking to people is:

Use the Lords name three times, send that out to the universe three times, it means you really mean it, God will hear you, just ask three times, say:

In the name of God,
In the name of God,
In the name of God.,

The earth.

May all the evil forces that surround _____.

Leave now and dissolve in to the nothingness of whence they came from.

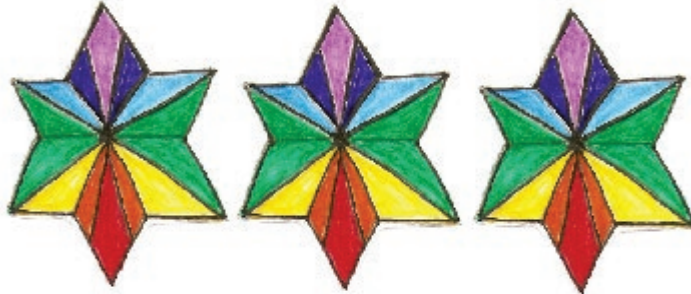

Using the Lords name three times and saying a spell three times, doing this together is a very powerful thing to do, only use it when it is really needed.

There are so many spells that I have learned. You can find more for yourself if you are interested. Be careful and have fun.

LESSON 6, TAROT CARDS.

IT'S ALL IN THE WAY YOU INTERPRET THINGS. YOUR PERCEPTION.
LESSON SIX AND TEST.
BASIC LESSON ON THE TAROT
TRINITY

THIS LESSON HAS THREE PAGES AND YOU WILL NEED TO PICK OUT YOUR OWN
TAROT CARDS AND BOOK.
WRAP CARDS IN SILK AND PUT THEM IN A WOODEN BOX FOR PROTECTION. LEAVE IN THE
SUN FOR A DAY OR TWO TO CLEAN CARDS. (YOU ALSO DO THIS TO CLEAN STONES.)
MORE OF THE FOURTH DIMENSION TALKING TO THE THIRD.

Are you ready to dive in?

The basic playing cards came first, they say the cards came over from China. Because paper was scarce many people had blank backs on there cards, used for invites, announcements, emblems and for scrap paper. People would write on the back of playing cards all the time, it was normal then. The playing cards are related to astrology and the tarot cards, which evolved later. Here is how the playing cards are related to astrology: CLUBS = FIRE = ARIES, LEO, SAGITTARIUS. SPADES = AIR = GEMINI, LIBRA, AQUARIUS. HEARTS = WATER = CANCER, PISCES, SCORPIO. DIAMONDS = EARTH = VIRGO, TAURUS, CAPRICORN.

In the tarot cards they are related like this: CLUBS = WANDS. SPADES = SWORDS.
HEARTS = CUPS. DIAMONDS = PENTACLES.

No one can say for sure where the tarot cards really came from. They say magicians with great power, secrets and wisdom from around the world came together to share there secrets. They used pictures to share there wisdom because of the different languages. They had a book but made it into cards to hide the power, secrets and wisdom. Then in the 1400's the gypsies helped spread the word. I say it is the third dimension talking to the forth dimension. Some say that before a lot of people could read we used emblems, like on the back of cards. There were common place emblems then as they are now, like washroom for men and women. Other emblems would have different meanings for different people, this is where some say the tarot came from. I have also heard all of this tarot talk started in Italy. Tarot was a way to talk to the other side for comfort, through a personal emblem. Prayer is the most popular way of communicating but there are many other ways and tools that have been here for century's, tarot is just one of the many ways people have used to reach the other side.

78 cards in the deck, each card has two meanings, so 156 meanings. 22 are higher arcana, which are higher forces at work. 16 are court cards, which are people of the court, meaning actual people. The rest is lower arcana, which is the day to day stuff. 1 to 9 you use numerology along with the meaning, aces is new beginnings, pages are messages and or someone 25 and under. (Someone under 25 with a message.)

There is a story about one of the higher arcana that I have heard. The high Priestess, which represents knowledge, came from Pope Joan, a woman that posed as a man and

fooled everyone until her death. I'm not sure if it is true but that is where the High Priestess is supposed to have come from.

When you use the tarot everyone is 70% correct. I am at about 86, 87%. No one is ever 100%, no one. Over time you have to give a % to change, your free will can change things. Now to start I look at your face sitting across from me, I always hold the persons hands for a moment and look into there eyes, which is the gate way to the soul, my soul is saying hello to your soul, nice. I call your chakra angels, our chakras are across from each other, this really helps in the reading. Your face is like a clock, what is on your right, my left, is what just happened, above your head is now and to my right, your left is the future. As I am looking at you I pay attention to what is going on around you at that time, symbols and visions. If there is a statue of a horse above your head and at the same time a car honks outside, then it has something to do with that reading at that time, different meaning for everyone. Symbols like tulips can mean two lips saying something. The other side is very puny, they use it a lot with me.

Let's talk about the lower arcana here because we don't have to talk a lot about the higher arcana, they are Higher Forces at work and the court cards are people, simple. The lower arcane is the day to day stuff we have to deal with. There is 40 lower arcane. In the lower arcana we have: WANDS, WHICH MEANS CAREER AND SOCIAL CAREER. CUPS, WHICH MEANS LOVE AND ROMANCE. SWORDS, WHICH MEANS THINKING AND THE MIND. PENTACLES, WHICH MEANS MONEY AND SCHOOL.

You always relate to these meanings when they come up, along with numerology. This way you can get an in-depth meaning.

The dark forces and the light forces wanted to make a deal with each other, to be able to talk to humans without the other interfering. The higher vibration of the light chose, The Tarot cards. The Dark forces with the lower vibration said we choose the Ouija board. The Tarot are safe, the Ouija board is not.

I use the Connolly cards and the Celtic cross, the Celtic cross is the most popular but I also use the yearly one in the beginning of the year, that's when you put a card down for each month of the year, in a circle.

Now to start the person that is getting the reading will hold and then shuffle the cards thinking about the answers they want in the next six months. Then they will cut the cards into three piles, 1-2-3. Then you will pick up the cards, bottom to top 3-2-1. Then you will do the Celtic spread like this.

THE CELTIC CROSS

THE TEN MOST IMPORTANT CARDS FOR YOU.

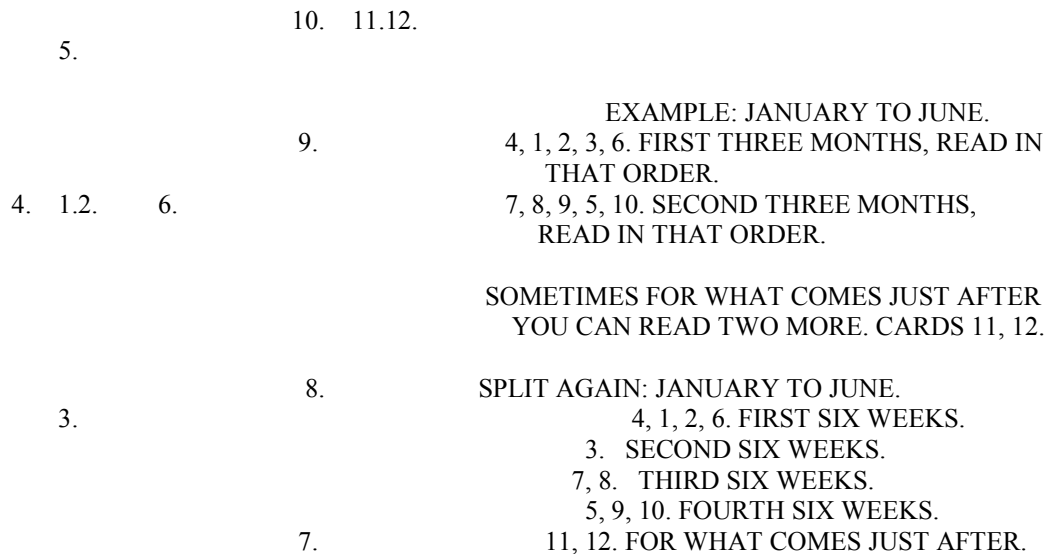

- | | | | | | | | | | |
|--|--|--|--|----|----|----|--|----|-----|
| 1.) This is what is around you now. | | | | | | | | | 10. |
| 2.) This is what crosses you for the good and the bad. | | | | | | | | | |
| | | | | | 5. | | | | |
| 3.) This is the base of the situation. | | | | | | | | | 9. |
| 4.) This is what is going through you or is leaving you. | | | | 4. | 1. | 2. | | 6. | |
| 5.) This is what could come up later and usually does. | | | | | | | | | 8. |
| | | | | | | 3. | | | |
| 6.) This is right before you, very soon. | | | | | | | | | |
| 7.) This is fears, worries and concerns. | | | | | | | | | 7. |
| 8.) This is the people and the people's feelings around you. | | | | | | | | | |
| 9.) This is your positive feelings. | | | | | | | | | |
| 10.) This is the outcome. | | | | | | | | | |

There are so many things going on at first that it seems a little overwhelming and if you think about it too much it is harder, don't forget to ask for help from the angels, ask your chakra angels to talk to the chakra angels of the person that you are reading, after all they used to be Loved ones and they are there to help. When I did readings at the time I made the appointment I started to talk to the customer's angels then, you will be surprised at what you hear. Have fun.

Like I said I use the Celtic cross as my spread but after it has been laid down I read it in a different order. I read it under a six month time line, you can make it a three month or one year time line also.

THE CELTIC CROSS

I split the cross in two as shown to the left. Then I split it into four. Sometimes you can lay two more cards down right after the outcome as shown, for what comes just after that date.

Now try it on someone. You can do a reading for yourself but sometimes it can be hard to read yourself because you are too close to it. I recommend that when you first start learning the tarot that you do readings on yourself and others as much as you can to get to know your tarot well. To be comfortable with them but I find that after you get used to the tarot you will not have to use them as much as you did before. I use them about once a year now and in times of need. Have fun
