A WORD ABOUT: WORRYING.

It will work out.
How do you know?
I don't know how but it always just does.
Love will take care of you.
Trees don't worry about losing their leaves.
Rain drops don't worry about being too fat.
And flowers don't worry, are my colors in fashion?
They know everything happens for a reason.
God will take care of you no matter what.
Have faith and believe.
It will all work out the way it is supposed to.

DREAMS WEEK SEVEN.

Before we start lesson seven let's review your dreams for the week and see what they are trying to tell you. Start writing down your dreams for the next week. (IF THIS LESSON IS NOT BEING DONE IN A CLASSROOM SETTING, PLEASE TAKE AS MUCH TIME AS YOU NEED.)

IT'S ALL IN THE WAY YOU INTERPRET THINGS. YOUR PERCEPTION.

LESSON SEVEN AND TEST.
BASIC LESSON ON TEA LEAF/CUP READINGS.

TRINITY

THIS LESSON HAS FOUR PAGES.

YOU WILL NEED A CUP AND SAUCER WITH A WHITE INSIDE.

Are you ready to dive in?

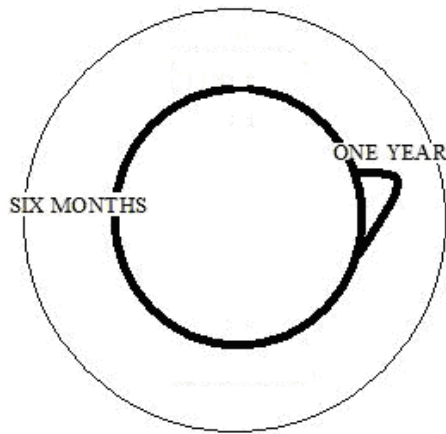

Tea leaf reading, properly called TASSEOGRAPHY.

In this method the reader looks for a sign in the bits and pieces of the left over tea leaves at the bottom of the white cup after you have just about finished it. Holding the cup in your left hand, you should swirl the small amount of tea leaves left, three times clockwise, trying to make sure the leaves are carried up to the rim of the cup without spilling over the top.

Now the subject inverts the cup into the saucer, holding it to the count of 11 to allow the liquid to drain away, then you tap the bottom of the cup three times and turn it three complete times around. When the cup is turned right side up again the reader can examine and interpret the images created. The handle of the cup should point to the reader.

Beginning from the handle that is the start of the reading, half way around is 6 months from now, and back around to the handle again, is a full year.

CUP AND SAUCER:

- 1.) Lots of leaves and images mean you have a busy life.
- 2.) Many different images together will say several things are going on in the same time frame.
- 3.) Big images are to be looked at first.
- 4.) Dots and arrows by a sign mean it is important.
- 5.) The images at the top of the cup are the present, the ones at the bottom are the past.

First you find the images then you symbolically interpret them. Now you combine the different symbols into a message that makes sense to you in that time frame. Use your imagination and intuition, this is also how you use a Crystal ball.
